BIRD'S EYE VIEW OF GST LAW

This part covers major aspects of CGST, IGST Act for understanding what GST is all about. The UTGST and State GST laws are expected to follow the same principles. Comparison of the various SGST laws & UTGST laws would bring out the differences.

I. INTRODUCTION

The earlier system of indirect taxation had multiplicity of taxes levied by the Centre and State. There was no uniformity in tax rates and structure across States. There was cascading of taxes due to 'tax on tax'. There were too many restrictions on seamless credit available, i.e., credit of excise duty and service tax paid at the stage of manufacture was not available to the traders while paying the State level sales tax or VAT, and vice-versa. Further, no credit of State taxes paid in one State can be availed in other States. (CST)

Goods and Service Tax, which subsumes a large number of Central and State taxes into a single tax, is meant to mitigate the cascading effect of taxes, provide near seamless credit and make way for a common market. However, realization of all the foregoing objectives appears to be a Herculean task and requires the co-operation of all States.

Why GST is necessary for India?

- GDP Growth will go up after the new law stabilizes (2018-19)
- International Competitiveness will increase
- Increased Foreign Direct Investments due to improve ease of doing business and serious reform measures.
- Common Market- Tax distortions due to differential tax structures and entry tax impositions. Further check post delays would not be there.
- Lower transaction cost (multiples returns on different events at different rates in different States).
- Reduced corruption due to use of information technology, less interaction and less discretion.
- Increased IDT revenue as grey market operators would slowly start joining the mainstream.
- This would also lead to increased Direct Tax Revenue due to higher sales/ services disclosure.

II. GST CONCEPTS

1. Power to tax GST

Under new Article 246A (inserted by the Constitution Amendment Act, 2016), the Parliament has exclusive power to make laws with respect to GST where the supply of goods or services or both take place in the course of inter-State trade or commerce. Subject to the above, Union and every State would have powers to make laws with regard to GST imposed by Union or that State in respect of intra-State supplies.

2. What is GST (Goods and Service Tax)?

GST is a destination based tax and levied at a single point at the time of consumption of goods or services by the ultimate consumer. GST is based on the principle of value added tax. GST law emphasizes on voluntary compliance and on accounts based reporting and monitoring system. It is a comprehensive levy and envisages tax collection on both goods and services at the same rate.

Internationally, GST was first introduced in France and now more than 160 countries have introduced GST. Most of the countries, depending on their own socio-economic formation, have introduced National level GST or Dual GST.

Definition of Good and Service Tax (GST) - The term GST is defined in Article 366 (12A) to mean "any tax on supply of goods or services or both except taxes on supply of the alcoholic liquor for human consumption".

In terms of Section 2 (52) of the CGST Act "Goods" means every kind of movable property other than money and securities but includes actionable claims, growing crops, grass and other things attached to or forming part of land which are agreed to be severed before supply or under a contract of supply.

In terms of Section 2(102) of the CGST Act "Services" means anything other than goods, money and securities but includes activity relating to the use of money or its conversion by cash or by any other mode, from one form, currency or denomination, to another form, currency or denomination for which a separate consideration is charged.

An explanation has been added in the definition under CGST Amendment Act, 2018 as:

"For the removal of doubts, it is hereby clarified that the expression "services" includes facilitating or arranging transactions in securities."

Thereby, service charges or service fees or documentation fees or broking charges or such like fees or charges are charged in relation to transactions in securities, the same would be a consideration for provision of service and chargeable to GST

Thus, all supply of goods or services or both would attract CGST (to be levied by Centre) and SGST (to be levied by State) unless kept out of the purview of GST.

There is no requirement of actual sale of goods under GST. The alternative methods of supply of goods could be in the form of:

- inter-State or distinct person stock transfer;
- captive consumption in another State location;
- supply on consignment basis or any other basis by the principal to his agent;
- supply on job work basis (if working under returnable basis- no tax need be paid);
- any other supply such as donation, sample etc.

3. Structure and type of taxes:

India has implemented dual GST. In dual GST regime, all the transactions of goods and services made for a consideration attracts two levies i.e. CGST (Central GST) and SGST (State GST).

- **Central Goods and Service Tax (CGST)**

The Central GST (CGST) has *inter-alia* replaced erstwhile central excise duty and service tax. CGST also cover sale transactions.

The Constitutional Amendment Act, 2016 contains suitable provisions to enable Centre to tax sales. CGST is administered by the Central Government. The CENVAT credit balance available under CENVAT Credit Rules with the manufacture or service provider, as on the date of transition into GST, could be carried forward. In respect of tax paid goods in stock as on the date of transition credit not availed in the past or not eligible at that point of time, available under GST could also be availed and used towards disbursing CGST (Central GST) liability. Under GST Law, there are time bound transition provisions for carry forward of credit availed prior to introduction of GST. The declaration of closing stock as on the date of transition to claim credits, which were not earlier captured, was also time bound (Form Tran-1 was supposed to be filed by December 27, 2017).

- **State Goods and Service Tax (SGST)**

State GST has replaced State VAT, Entry tax, Octroi, Luxury tax, etc. SGST is levied on services as well. To enable taxing of services by the State, the Constitutional Amendment Act, 2016 contains suitable provisions. SGST is administered by the State Governments. The SGST payable could be set off from the SGST credit or the IGST credit available. Subject to certain conditions, the closing input VAT balance available under VAT Act is available to the dealer, as on the date of transition into GST, and could be set off towards SGST (State GST)

Bird Eye View of GST Law

liability. Further, it is expected that the duty and tax paid on closing stock is available as credit, which may not have been claimed as set off in the VAT regime.

- **Inter-State Goods and Service Tax (IGST)**

IGST is levied on all supplies of goods and /or services in the course of inter-state trade or commerce. IGST would be applicable to import of goods or services from outside country as well, which is indicated in the Constitutional Amendment Act, 2016.

The balance of credit under VAT as well as Cenvat Credit can be carried forward from the earlier regime. Further, the duty and tax paid on closing stock is available as credit where duty paying documents available, for hitherto exempted products / services which may not have been claimed as set-off. Lower deemed credit [at the rate of 60% (in case such goods attract CGST @ 9% or more) and 40% (in other cases) as per Rule 117(4) and in case such goods attract IGST then, the amount of credit at the rate of 30 % and 20%. respectively of the said tax paid] is available for those who do not have duty paying documents.

New Concepts under GST

1. GST on Reverse charge if Supplier is not registered:

If the supplier is not registered under GST and is supplying taxable goods or services to a recipient who is registered, the GST on such taxable supplies shall be borne by the recipient on reverse charge basis.

2. Free gifts by Employer to Employee:

Supply of goods or services or both between related persons when made in the course or furtherance of business, provided that gifts not exceeding Rs 50,000 in value in a financial year by an employer to an employee shall not be treated as supply of goods or services or both

3. Compliance Rating Score:

There is a new provision in the law that if there is non compliance it will not just lead to penalties but may also lead to black listing, which may affect the future creditability, reputation of the person which can harm the business growth. The government will give an online rating on timeliness and efficiency of compliances in terms of stars (5 star rating). Each non compliance can reduce the number of stars. This Online rating is going to be available on the web portal and one can check and decide business associations on the basis of these rating/report card of your Business. However this concept has not been implemented so far.

4. Anti-Profiteering Measure:

Price charged to the consumer shall need to be reduced to an extent of benefit accruing due to

- (i) admissibility of ITC in the hands of supplier and
- (ii) price reduction on account of reduction in tax rates on procurement.

However, the aforesaid rate of CGST shall not exceed 20%. Further, the CGST shall be collected in the prescribed manner.

In terms of Section 9(3) the Central Government may, on the recommendation of the Council, by notification, specify categories of supply of goods and/or services the tax on which is payable on reverse charge basis and the tax thereon shall be paid by the recipient of such goods and/or services. In this regard, the Central Government has specified certain supply of goods [*vide Notification 04/2017-Central Tax (Rate), dated 28.06.2017 read with Notification No 36/2017- Central Tax (Rate) dated 13-10-2017 , Notification No 43/2017- Central Tax (Rate) dated 14-11-2017 and 11/2018-Central Tax (Rate) ,dt. 28-05-2018*]and supply of services [*Notification No 13/2017- Central Tax (Rate) dated 28.06.2017 read with Notification No 22/2017- Central Tax (Rate) dated 22.08.2017, Notification No 33/2017- Central Tax (Rate) dated 13.10.2017 and Notification No 03/2018-Central Tax (Rate) dated 25.01.2018 and notification No: 03/2018-Central Tax (Rate) ,dt. 25-01-2018*]] which are liable to CGST under RCM. Consequently, all the provisions of the CGST Act shall apply to such person as if he is the person liable for paying the tax in relation to the supply of such goods and /or services. However, this cannot be adjusted with the credit but only in cash.

In terms of Section 9(4), CGST in respect of supply of goods or services or both by an unregistered supplier to a registered recipient will be paid by such registered recipient under reverse charge. Although, this is a significant change from erstwhile law, which would force even small tax payers to go for the regular scheme of full tax with credit if they want to deal with any registered businesses. As, no business in competitive environment can afford to break the credit chain and may avoid buying from unregistered or composition dealers. It is pertinent to mention that reverse charge provision under section 9(4) of CGST Act and 5(4) of IGST Act has been deferred till, 30th September 2018. Therefore, all intra-State and inter-States supplies made by unregistered suppliers to a registered person are exempted till September 30, 2018 *vide Notification 12/2018-Central Tax (Rate),dt. 29-06-2018 and Notification No. 13/2018-Integrated Tax (Rate) dt. 29-06-2018* respectively.

However as per new development through an amendment in CGST Amendment Act 2018, section 9(4) has undergone a change. Now only certain classes of persons who will be notified by the govt, will be liable to pay under Reverse charge if they procure goods or services or both from unregistered persons.

In terms of Section 9(5), the Central Government may specify categories of services the tax on which shall be paid by the Electronic Commerce Operator if such services are supplied through it. Consequently, all the provisions of the CGST Act shall apply to such Electronic Commerce Operator as if he is the person liable for paying the tax in relation to supply of such services. In other cases where the e-commerce operator only provides a platform the need to pay TCS (Tax Collection at Source) at a rate not exceeding 1% and reporting the same has been fastened. The supplier would be liable to register if crosses the threshold exemption of Rs. 20 / 10 Lakhs and discharge of the GST applicable.

B. Composition Levy (Section 10)

(iii) *half per cent, of the turnover of taxable supplies of goods in State or turnover in Union territory in case of other suppliers*

Note: a) Barring Uttarakhand, which has opted for Rs. 1 crore threshold for the composition scheme, the Rs. 75 lakh threshold will continue for all other special category states except for Jammu & Kashmir.

The above-mentioned composition levy shall not be granted to a taxable person-

- who is engaged in the supply of services *save as provided in sub section 1 (Same has been Amended via CGST Amendment Act, 2018)*; or
- who makes any supply of goods which are not leviable to tax under the CGST Act; or
- who makes any inter-State outward supplies of goods; or

Further, the registered person shall not be eligible to opt for the composition scheme unless all registered person having same PAN opts the scheme. Resultantly, registered taxable person, having the same PAN has obtained more than one Registration, whether in the same State or in two different States as Head Office and Branch, then the Head Office and Branch cannot opt for Composition Levy Scheme in isolation. Both will have to opt for Composition Levy.

Bird Eye View of GST Law

In terms of Section 10(3), the Composition Levy Scheme shall stand withdrawn from the day when the aggregate turnover of the registered taxable person during a financial year exceeds Rs. 1 crore / Rs. 75 lakh. *(1.5 crores after CGST Amendment Act 2018)*

In terms of Section 10(4) a taxable person who pays tax under composition levy shall not collect any tax from the recipient on supplies made by him nor shall he be entitled to any credit of input tax.

Supplier of Composition scheme shall not issue a tax invoice u/s 31. He will issue a bill of supply with a heading "Composition taxable person not eligible to collect tax on supplies"

It is also worth noting here that in terms of Section 10(5) if the proper officer has reasons to believe that a taxable person was not eligible to pay tax under Composition Levy Scheme, the concerned taxable person shall be liable to pay the following:

- (a) Any tax which may be payable by him under other provisions of the Act; and
- (b) Penalty;

And provision of section 73 and 74 for shall apply for determination of tax and penalty.

Further, Government vide CGST (Removal of Difficulties Order), 2017 Order No.1/2017 – dtd.13.10.2017 Central Tax the following two clarifications have been issued.

In computing his aggregate turnover in order to determine his eligibility for composition scheme, value of supply of any exempt services including services by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount, shall not be taken into account.

It is also to be noted that since Composition Levy cannot be availed by a taxable person who is manufacturer of Ice-cream, Pan Masala & Tobacco, supply of services, works contractors providing Works Contract Services shall not be eligible for Composition Levy Scheme. Consequently, aforesaid Works Contractors would be forced to maintain proper Books of Accounts and Records. Traders doing B2B activity may not find the composition levy economically viable.

In terms of Section 2(107) Taxable Person means a person who is registered or required to be registered under Section 22 or 24 of this Act. One who is required to obtain multiple registrations in different States or within one State would be considered as *distinct person* in each State.

E. Classification under GST

The classification of goods is to be done with reference to the broad category as per the Customs Tariff Act. In case of any doubt the specific coverage within the alternative entries is to be chosen. The Harmonized System of Nomenclature (HSN), issued by the World Customs Organization, Brussels, could be adopted for classification of goods and with respect to services it would be in line with WTO classification. This would integrate Indian trade and industry with global trade even at each State level. Further it would ensure that there is uniformity amongst Union and the States in the matter of classification of goods. Where the entry is not clear or more than one classification appears to be relevant, then reference could be made to the rules of interpretation contained in the HSN to resolve such a conflict. The notification issued on the interpretation rules and the rates may be referred for clarity.

Where there are, still some doubts the decisions of the Courts laying down certain principles (like trade parlance theory, function based classification, ISI glossary etc.) could be referred.

In respect of services, the notification prescribing rate of tax under GST requires reference to be made to the Annexure which contains the Scheme of Classification. And in respect of goods reference to be made to first Schedule to Customs Tariff Act 1975

F. Exemptions under GST (Section 11)

1. *Exemption in Public Interest by Notification – Section 11(1)*

- (c) Exemption is to be granted by a Notification in the Official Gazette;

- (d) Exemption to be granted either absolutely [i.e. without any condition] or subject to specified conditions;
- (e) Exemption can be from the whole or any part of the tax leviable thereon; and
- (f) The effective date of exemption may either be from the date of issue of Notification or any date subsequent thereto as may be specified in the relevant Notification

Further, in terms of Explanation to Section 11, where an exemption in respect of any goods and /or services from the whole of the tax leviable thereon has been granted absolutely, the taxable person providing such goods and/or services is not allowed to collect the tax, in excess of the effective rate, on such goods and/or services.

However, if the goods or services are exported then there is facility for claiming the rebate or refund of tax paid on inputs etc.

It may be noted that the Apex Court has held that exemptions are to be construed strictly.

In this regard following notifications have been issued-

- Goods are exempted vide NN-02/2017-Central Tax (Rate), dated 28-Jun-17 [with 2 Corrigendum dated 12-Jul-17 and 27-Jul-17 respectively] as amended from time to time

G. Decision on Registration (Section 22)

The decision regarding registration as a supplier of goods or service would be made when GST is payable. The supplier of intermediate goods should not claim exemption and take the registration from the start of the enterprise to ensure competitiveness due to availability of input credit set off.

The supplier [whether an importer, distributor or retailer] who wishes to pass on the input tax credit in respect of the GST paid on goods traded/imported by him to customers, would be required to register under the GST law. Prescribed accounts and records will have to be maintained by them and they must issue proper invoice for the supply of goods and services.

H. Place of Supply (Sections 10- 14 read with Sections 7 & 8 of the IGST Act)

The place of supply would determine first as to whether the transaction is in India or outside India. If it is outside India it would not be liable to GST.

It would also determine the place of levy. Most transactions are expected to be taxed at the rate prevailing at the destination. There would be some exceptions in regard to services and a few in regard to goods.

Place of supply will determine the kind of tax that is to be applied. In terms of Section 7(1) of the IGST Act Inter-State supply of goods means any supply of goods where the location of the supplier and the place of supply are in different States, On the other hand, in the Section 8(1) intra-State supply of goods means any supply of goods where the location of the supplier and the place of supply are in the same State. Section 10 and 11 of IGST Act provides provisions to determine the place of supply of goods.

In terms of Section 12 & 13 of the IGST Act the place of supply for services is quite elaborate and based partially on the erstwhile Place of Provision of Services Rules under the service tax. Place shall be decided by way of location of immovable property, place of performance of services, place of event, location of supplier of service, location of recipient of service etc.

I. Time of Supply (Sections 12 & 13 of the CGST Act)

The liability to pay CGST/SGST on the goods shall arise at the time of supply. The time of

supply of goods in case of the registered person who did not opt for the composition levy under section 10, would be earlier of the following dates, namely:

- (a) the date of issue of invoice by the supplier or
- (b) the last date on which he is required to issue the invoice with respect to the supply i.e., Due date of issue of invoice

Notification No 66/2017-Central Tax (Rate) dated 15-Nov-2017 provided that registered person who did not opt for composition levy is not required to pay tax on advance received against goods.

While time of supply of goods in case of the registered person who opted for the composition levy, would be earlier of the following dates, namely:

- (a) the date of issue of invoice by the supplier or
- (b) due date of issue of invoice; or
- (c) the date of receipt of payment by the supplier

In case of service, the time of supply shall be earlier of the following dates, namely: -

- (a) the date of issue of invoice by the supplier if the invoice is issued within the prescribed period (i.e. 30 days) or the date of receipt of payment, whichever is earlier; or
- (b) The date of provision of service, if invoice is not issued within the prescribed period or the date of receipt of payment, whichever is earlier; or
- (c) The date on which the recipient shows the receipt of services in his books of account, in the case (a) and (b) do not apply.

Further, where the supplier of taxable service (whether opting composition scheme or not) / taxable goods in case of person not opting for composition levy receives an amount up to one thousand rupees in excess of the amount indicated in the tax invoice, the time of supply to the extent of such excess amount shall, at the option of the said supplier, be the date of issue of invoice relating to such excess amount.

Time of supply in case of Reverse charge

However, in case of supplies of goods in respect of which tax is paid or liable to be paid on reverse charge basis, the time of supply shall be the earliest of the following date, namely: -

- (a) the date of receipt of goods, or
- (b) the date of payment as entered in the books of account of the recipient or the date on which the payment is debited in his bank account, whichever is earlier; or
- (c) the date immediately following 30 days from the date of issue of invoice or any other document, by whatever name called, in lieu thereof by the supplier:

And in case of supply of service in case of reverse charge, the time of supply shall be the earliest of the following date, namely: -

- (a) the date of payment as entered in the books of account of the recipient or the date on which the payment is debited in his bank account, whichever is earlier; or
- (b) the date immediately following sixty days from the date of issue of invoice or any other document, by whatever name called, in lieu thereof by the supplier

Where time of supply is not determinable under (a) or (b), the time of supply shall be the date of entry in the books of account of the recipient of supply

Further, in case of supply by associated enterprises, where the supplier of service is located outside India, the time of supply shall be the date of entry in the books of account of the recipient of supply or the date of payment, whichever is earlier.

J. Rate of GST

The rates could be as under:

- (a) Revenue Neutral Rate (RNR) – 18%
- (b) Products/ service which are basic necessities – 12%
- (c) Essential Goods – 5%
- (d) Demerit/ luxury goods – 28% + some Cesses
(Upto 160 %)

The Codes and Rates of various goods and services under GST have already been notified by CBEC and are available on www.cbec.gov.in. It is worthwhile to note that name of cbec has been now changed to CBIC i.e. Central board of Indirect Taxes. Site can be reached at either cbec.gov.in or cbic.gov.in.

The applicable rate of tax on intra-State supply of Services has been majorly provided under Notification 11/2017- Central Tax (Rate), dated 28.06.2017 and rate on Intra-State supply of goods has been provided under Notification 01/2017- Central Tax (Rate), dated 28.06.2017 [with 3 corrigendum dated 30.06.2017, 12.07.2017 and 27.07.2017] respectively as amended from time to time

The applicable rate of tax on inter-State supply of Services has been majorly provided under Notification No. 8/2017–Integrated Tax (Rate) dated 28.06.2017 and rate on inter-State supply of goods has been provided under Notification No.01/2017-Integrated Tax (Rate) dated 28.06.2017 [with 3 corrigendum dated 30.06.2017, 12.07.2017 and 27.07.2017] respectively as amended from time to time

K. Valuation (Section 15)

GST is payable on the 'transaction value'. Transaction value is the *price actually paid or payable* for the said supply of goods and/or services between un-related parties and price is the sole consideration. The transaction value is also said to include:

- Taxes other than GST
- Expenses incurred by recipient in relation to supply
- Incidental expenses charged at the time or before the supply
- Interest etc. for late payment
- Subsidies directly linked to the price excluding subsidies provided by the Central and Governments

As regards *discounts/ incentives*, it will form part of 'transaction value', if it is allowed *after* the supply is effected except where such discount is established in terms of an agreement entered into at or before the time of such supply and specifically linked to relevant invoices; and input tax credit as is attributable to the discount on the basis of document issued by the supplier has been reversed by the recipient of the supply. However, discounts/ incentives given *before or at the time* of supply would be permissible as deduction from the transaction value. This would be indicated in the invoice itself.

Valuation Rules *inter-alia* provides that, where the supply of goods or services is for a consideration not wholly in money, the value of supply shall be:

- (a) open market value
- (b) if (a) is not, then sum total of consideration in money and equivalent thereof
- (c) value of like kind and quantity
- (d) cost+10%
- (e) by reasonable means.

However, where there is no consideration and the receiver is eligible for credit then the value declared would be accepted as the proper value. Though not specified, it may be ideal to ensure that reasonable value is ascribed to such transaction to avoid any questions at the time of audit or otherwise.

The valuation provisions envisaged may result in disputes is the understanding as on date. The settled case laws in Customs for market value and in Central Excise for other than sole consideration may assist in guidance in case of tainted transactions.

L. Input Tax Credit (Section 16 – 22)

Erstwhile CENVAT Credit regime disallows CENVAT Credit on various services such as motor vehicle related services, *catering services, employee insurance, construction of civil structure*

etc. Similarly, State VAT laws restrict input tax credit in respect of construction, motor vehicle etc. This denial of credits leads to un-necessary cost burden on assessee though they are used in furtherance of business.

It was expected that in GST regime, seamless credit would be allowed to business houses without any denial or any restriction except say goods / services which are availed for personal use and not for official use (something similar to United Kingdom VAT law).

However, surprisingly, inter-alia, many of the aforesaid credit restrictions mentioned under section 17(5) among other things, continue to remain (in respect of both goods and services). Further, credit is denied on goods and/or services used for private or personal consumption, to the extent they are so consumed. This continuation of denial will lead to substantial tax cascading (as rate of GST would be higher than the rate of service tax). Also, another round of litigation will result as interpretation issues would crop up while determining eligibility or otherwise of GST paid on personal consumptions such as business lunch with clients. *Section 17(5) has been amended comprehensively under CGST Amendment Act 2018*

The credit on the inputs and the input services, pertaining to Central GST, Integrated GST and State GST should be accounted separately. There is a restriction on cross utilization i.e. credit pertaining to CGST would not be allowed for set-off against SGST and vice versa. However, this restriction is not applicable to inter-State transactions. Further, the rules for taking and utilization of CGST, IGST and SGST credit have been so aligned. The credit on the capital goods could be aligned with inputs and input services and would be available for set off 100% in the first year itself.

The provision of supply of goods or services inter-State between the same entities would be subject to GST. When there is no supply but input services are commonly used then the concept of *Input Service Distributor* would apply.

M. Set off of input Credit (Sections 16 – 22)

The input tax credit would be eligible for set off as under:

1. The CGST SGST and UTGST paid on supply of service to be set off against the output CGST, SGST and UTGST respectively.
2. When an item is procured for resale, then credit of CGST and SGST/ UTGST is available for all items.
3. When inputs and consumables are procured for the manufacture of goods on which CGST/ SGST/ UTGST is paid, then credit of CGST and SGST/ UTGST is available for all items.
4. SGST/ UTGST is allowed first to be utilised against SGST/ UTGST and then IGST.
5. Similarly, CGST is allowed first to be utilised against CGST and then IGST.

Bird Eye View of GST Law

6. IGST is allowed to be utilised for IGST, CGST and then SGST/ UTGST in this sequential order.

The SGST/ UTGST is not allowed to be adjusted to the CGST and vice versa. This may lead to accumulation of credit in some places.

Credit of:	Allowed for Payment of		
	IGST	CGST	SGST
IGST	✓ (1)	✓ (2)	✓ (3)
CGST	✓ (2)	✓ (1)	
SGST	✓ (2)		✓ (1)

As per CGST Amendment Act 2018, the new process of utilization requires:

- Utilization of IGST first against payment of any output tax liability in the form of CGST/SGST/UTGST/IGST*
- The balance of CGST/SGST/UTGST can be used only when the balance of IGST is exhausted*
- This proviso has been inserted to minimise fund settlement on account of IGST. This has been amended to restrict the utilisation of SGST/UTGST credit available against payment of IGST only when the balance in CGST credit is not available for payment of IGST.*

N. Number of Legislations:

There would be 38 GST laws in India in GST regime; there would be 1 CGST law and 31 SGST laws for each of the States including two Union Territories and 5 UTGST Law and 1 IGST law governing inter-State supplies of goods and/ or services.

O. Whether branch transfer taxable?

Under erstwhile indirect tax laws, the transfer of goods without payment of CST is permissible when one transfers it to self or agent under Form "F". Many States have input tax reversal to be made in such cases on value of goods purchased locally, for Example 2% in Karnataka, 5 % In Tamil Nadu and full credit reversal in some States etc.

Under GST, the movement of goods or services from one State to another on transfer basis is subject to IGST [total of CGST+SGST/ UTGST]. Therefore, tax would not cascade to the extent of restriction. However, it will have issues of increased working capital, storage and logistics.

The transfer of goods or services within a State with a separate business vertical is liable to SGST/ UTGST and CGST. (As per CGST Amendment Act 2018, Multiple registrations were

allowed earlier only in case of separate business verticals. The law now allows a separate registration for each place of business in respect of persons having multiple places of business in a State. So, the definition of business verticals is not required anymore under the GST law)

In case there is only one registration in the State then there would be no GST [CGST+SGST/UTGST] on the stock transfer.

P. Supply in the course of Import (Section 11/13 of IGST)

Under old regime, import of goods is liable to Customs Duties comprising of Basic Customs duty [BCD], Additional duty of customs equal to Excise duty on like goods manufactured in India [CVD], Special Additional duty (SAD). Service tax was leviable on services which were provided from outside India and received in India and payable by the service receiver under reverse charge mechanism.

Under GST regime, the import of goods or services is deemed as inter-State supply of goods or service and be subjected to the levy of Inter-State GST (IGST). The import of goods has continued to attract Basic Customs Duty (BCD) and also IGST.

Q. Supply in course of export (Section 11/13 of IGST)

GST is not be charged on goods or services exported from India. In case, the supply of goods or supply of services qualifies as export out of India as per the place of supply provisions, the transaction would be zero-rated. As per section 16 of IGST Act, a registered person making zero rated supply have either of the two options, namely-(i) to supply goods or services or both under Letter of Undertaking or bond, without payment of integrated tax and claim refund of unutilized input tax credit, or (ii) to supply goods or services or both on payment of integrated tax and claim refund of such tax paid on goods or services or both supplied..

R. Transitional Provisions

GST had successfully migrated many tax payers under erstwhile indirect tax laws comfortably to new GST regime, so that they can continue their businesses without any difficulty. The transition also enabled all to start on a level playing field. In the erstwhile law there were a couple of aberrations which treat hitherto exempted manufacturers or taxable and exempted product manufacturers unfairly and unequally. Some important transition provisions are briefly explained hereunder:

- (a) Every person registered under VAT, Central Excise or Service tax etc. having a *valid PAN* would be provisionally registered. Further particulars to be provided (online) to enable final registration. [Section 139]
- (b) The CENVAT Credit (manufacturer/ service provider) or the VAT credit (manufacturer/ Trader) or Entry Tax credit (where allowed to be adjusted – few States enable this) can

be carried forward if eligible as input credit under GST. It must be ensured that the last return before switching over to GST is made very carefully after proper reconciliation with books of account. Only eligible credits credit to be carried forward. Capturing the complete credits of VAT, Central Excise and Inputs credit could be a value-added activity. The time limit specified for transitional credit is 90 days from 1st July or another 90 days if Commissioner extends. It is pertinent to mention that date of filing Form TRAN-1 was 27.12.2017 (as the time was extended)[Section 140(1)]

However, New sub- rule (1A) has been inserted in Rule 117 to provide that the Commissioner on the recommendations of the Council may extend the date of submission of FORM GST TRAN-1 by a further period not beyond 31st March, 2019.

- (c) Capital goods credit is available to a manufacturer/ service provider normally upto 50% in the year of acquisition and balance 50% in the subsequent year/s. Where one has either not availed though eligible or availed 50% pre-GST, the balance can be availed in the subsequent year. However, this credit has not been extended to traders who have capital goods in use as well as area based exempted units. [Section 140(2)]
- (d) All manufacturers/ traders and to a lesser extent service providers would have stock of goods which may be in the form of raw material/ components, semi-finished goods and finished goods. Taxes (central excise duty, Input tax credit, service tax) paid under the earlier regime which are available in GST is allowed as credit as now the payment would be under GST. Those not liable to be registered under the earlier law, claiming exemption, providing works contract service or claiming abatement or 1st and 2nd stage dealer, registered importer, depot of a manufacturer would be eligible to avail the credit on closing stock. This again may not be fair. The proof of existence of stock may also be retained such as stock taking, entries in the running
- (e) stock registers.

The claim for credit of taxes paid on stock can be made for all the above situations along with duty paying documents to maximize the credit. Where no documents are there, Transitional Rules prescribe deemed credit of 60% can be availed in case of supply of goods taxed at 18% or higher and 40% credit can be availed in case of supply of goods taxed at less than 18% within 6 months, subject to certain conditions. If supply is IGST then it would be 30 % and 20% respectively. [Section 140(3)]
- (f) The credit for duty/ tax paid for goods in transit can be claimed within a period of 60 (30+30 extended period) days with the condition that the same has been recorded in the books. A statement in Form TRANS-1 was required to be submitted till 27.12.2017. [Section 140(5)]
- (g) Many dealers and works contractors who are under the composition scheme in the local VAT laws as well as the service tax law are ineligible or may not find it economically

viable especially if, they are into Business to Business (B2B). However, if such dealers opt for regular scheme under GST, the credit on inputs held in stock and inputs contained in semi-finished or finished goods held in stock on the appointed day is allowed subject to certain conditions. [Section 140(6)]

- (h) The common input services for services received before GST by an Input Service Distributor would be available for distribution as credit under GST Act even if invoice(s) relating to such services is received on or after implementation of GST.[Section 140(7)].
- (i) Where a taxable person having Centralized Registration under the earlier law has obtained a registration under CGST Act, such person shall be allowed to take in his Electronic Credit Ledger, credit of the amount of CENVAT Credit carried forward in a return, furnished under the earlier law by him in respect of the period ending with the day immediately preceding the appointed day. However, the taxable person shall not be allowed to take credit unless the said amount is admissible as input tax credit under the GST Act. Further, such credit may be transferred to any of the registered persons having the same PAN for which the Centralized Registration was obtained under the earlier law. [Section 140(8)]
- (j) Under the service tax law when one had not paid consideration for services within 3 months, the credit was to be reversed. If payment is made within 3 months of GST implementation date/ appointed day such credit can be re-claimed [Section 140(9)]
- (k) When inputs/ Semi Finished/ finished Goods sent for job work are returned after GST date within 6 + 2 months of GST implementation date, no GST will be payable. If not returned, then the input tax credit would have to be reversed. This provision would apply where the credit on the stock in hand of job worker is claimed by the principal (sender). Enabling provisions have been made for receipt of goods directly by job worker or supply from job workers premises. [Section 141]
- (l) Where any duty paid Goods under the earlier law are sent 6 months prior to the appointed day i.e. introduction of GST date and are returned to any place of business on or after the aforesaid appointed day, the Registered Person shall be eligible for refund of the duty paid under the earlier law where such goods are *returned by a person, other than a registered person*, to the said place of business within a period of six months from the appointed day and such goods are identifiable to the satisfaction of the proper officer. However, if the said goods are returned by a registered person, the return of goods shall be deemed to be a supply. [Section 142(1)]
- (m) The issue of supplementary invoices, debit/ credit note can be done within 30 days of the date of price revision (in pursuance of a contract entered into prior to the appointed day). Such supplementary invoice, debit/ credit note shall be deemed to have been

issued in respect of an outward supply made under this Act. In case of credit note, the reversal of the credit by the receiver needs to be confirmed. [Section 142(2)]

- (n) The claims made for refund of any amount of CENVAT credit, duty, tax or interest paid and pending as well as claims made after GST introduction date but pertaining to a period prior would be under the earlier law required to be disposed of as per the earlier law and any amount eventually accruing to him shall be paid in cash. In case of a claim being rejected (subject to appeal in the old law) the amount so rejected would lapse. [Section 142(3)]
- (o) The claim for CENVAT credit or ITC or output duty or tax liability made under the earlier law which is in adjudication etc. would be disposed of under the old law and any amount found to be admissible to the claimant shall be refunded to him in cash. In case of recovery of credit under old law it would be recovered as per the provisions of GST [Sections 142(6) and 142(7)]
- (p) The returns furnished under erstwhile indirect tax laws are revised, which results in any amount recoverable from the assessee, the same shall be recovered as an arrear of tax under GST Act and the amount so recovered shall not be admissible as input tax credit under GST Act. On the other hand, if pursuant to aforesaid revision of return, any amount is found to be refundable or CENVAT Credit is found to be admissible to any taxable person, the same shall be refunded to him in cash. [Section 142(9)]
- (q) Contracts entered prior to GST spilling over to GST would be liable to tax under GST. No tax shall be payable on the supply of goods and/or services made on or after the appointed day where the duty or tax payable thereon has already been paid under the earlier law. [Section 142(11)(a) and (b)]
- (r) Where tax was paid on any supply both under the Value Added Tax Act and under Chapter V of the Finance Act, 1994, tax shall be levied under this Act, and the taxable person shall be entitled to take credit of taxes paid under the earlier law to the extent of supplies made after the appointed day and such credit shall be calculated in such manner as may be prescribed. [Section 142(11)(c)]
- (s) Where goods are sent on approval basis, not earlier than six months before the appointed day and are returned within 6 + 2 months, then no liability to pay exist under GST. If goods are returned after specified period, tax is payable by the person returning the goods. If not returned, then the supplier has to pay the GST of such earlier supplies. [Section 142(12)]
- (t) Where a supplier has made any sale of goods in respect of which tax was required to be deducted at source under the earlier law and the supplier has also issued an invoice for the same before the appointed day, no tax is to be deducted at source shall be

made by the deductor under Section 51 of the CGST where payment to the said supplier is made on or after the appointed day. [Section 142(13)]

- (u) *To avail ITC, the registered person must be in receipt of goods or services in Bill-to-ship-to model, it is deemed that goods are received when the supplier delivers the goods to any other person on direction of the recipient. This deemed assumption shall now be applicable in case of services as well. So, ITC will be allowed to a person on whose direction and account, the third person receives the services. (As per CGST Amendment Act 2018)*

Impact of GST on Traders, Manufacturers, Service Providers etc.

1. *Impact on Traders*

- (a) *Tax on value addition:* The impact of tax on the wholesaler or retailer would be limited to the value addition. The tax paid at earlier stages (except CGST & SGST of other States) would be available as set off for payment of GST on supplies. Therefore, traders would prefer to buy/receive supplies with invoice pre-and post GST.
- (b) *Reduce cascading:* Cost of products and services would reduce normally due to the cascading effect of tax being reduced. Service tax credits would be available and going forward even the capital goods used for storing, handling etc.

- (c) *SGST/ UTGST levy:* CGST and SGST/ UTGST would be levied on the local supply of goods within State. IGST (comprising of CGST and SGST) would be levied on inter-State supply of goods.
- (d) *No subsequent sale or sale in transit under the CST Act against Forms E-1/2:* This exemption as per section 6(2) of the CST Act is not continued under GST levy. GST would be charged on both transactions.
- (e) *Export supplies Under Form H/ Supplies to SEZ under form I:* Not available.
- (f) *Stock transfers:* Under erstwhile VAT laws, stock transfer is done without charging CST against Form F. Under GST law, stock transfers from one State to other would be liable to GST.
- (g) *Stock transfers to branches/consignment agents within the State:* Under GST, these transfers would not be taxed as the registration number of transferor and transferee is same. Where the division/ branch or agent has a different registration CGST & SGST would be charged.
- (h) *Small Traders:* They would be eligible for the composition scheme provided their aggregate turnover in the preceding financial year did not exceed Rs.1 crore (Rs.75 lakhs in case of specified States). Then they may opt to pay, in lieu of the central tax payable by him, an amount calculated at such rate of half per cent, of the turnover of taxable supplies of goods in State or turnover in Union territory. [Notification No. 8/2017-Central Tax dated 27.06.2017 read with Notification No. 1/2018- Central Tax dated 1.1.2018] Further, the conditions and restrictions stipulated supra are applicable to the person opting for composition scheme are also to be adhered by small trader (like No credit to dealer/ customer etc). Only suitable for Business to Consumer transactions.

2. *Impact on Manufacturers*

- (a) *Competitive in market:* There would be a saving in taxes due to less restrictions in taking setoff of taxes paid at various stages of manufacture reducing the cost of goods/ services supplied. This would make them more competitive both in domestic and the international markets.
- (b) *Valuation of the supply of goods:* Under earlier laws, excise duty is paid on the event of manufacture of excisable goods and VAT on the sale of goods. VAT/CST is computed on sale price + excise duty paid. With the shift of taxable event from manufacture to supply of goods, the valuation of goods could be simplified. Under GST, actual value received as a consideration for the supply of goods would be subject to GST with some exceptions.
- (c) *Cheaper exports:* Exports would be cheaper as taxes paid at earlier stages could be refunded to a larger extent.

- (d) **Ease of doing Business:** Adoption of Information technology in GST regime will enable the organization to do business with ease.
- (e) **Transaction costs:** The transaction costs of compliance would reduce due to widespread computerization and online filling of forms and returns and payment of taxes. However, the need to upload all transactions may lead to increased compliance cost.
- (f) *Manufacturers under administration of State VAT officials:* Manufacturers having a value of clearances of less than Rs. 150 Lakhs are exempt under erstwhile Excise law. The matter of administration has not been resolved as on date.
- (g) Subject to adherence of conditions and restrictions of composition levy, manufacturer may opt to pay, in lieu of the central tax payable by him, an amount calculated at a rate of half per cent of the turnover in State or turnover in Union territory .[Notification No. 8/2017-Central Tax dated 27.06.2017 read with Notification No. 1/2018- Central Tax dated 1.1.2018]

3. ***Impact on Service Providers***

- (a) *From origin based to consumption based levy:* Under earlier law, service tax was levied mainly at the origin and was a destination based levy, the burden of which was borne by the end customer. Under GST generally they would be taxed in the same way except that the place of supply would have to be confirmed. Tax would flow to the place of consumption.
- (b) *Service tax-SGST levied by States:* Under GST law, the service tax would be levied not just by Centre but also by the States which would be empowered to levy SGST by amendment to the Constitution of India.
- (c) *Taxes received by consuming State:* If services are rendered from one State to another, then tax would ultimately go to the consuming State.
- (d) *Increased set off with VAT:* The VAT credit for goods which was not available to the service provider would be available under GST.
- (e) Subject to adherence of conditions and restrictions of composition levy, persons engaged in making supplies referred to in clause (b) of paragraph 6 of Schedule II ("**eligible service provider**") may opt to pay, in lieu of the central tax payable by him, an amount calculated at a rate of two and a half per cent, of the turnover in State or turnover in Union territory. [Notification No. 8/2017-Central Tax dated 27.06.2017 read with Notification No. 1/2018- Central Tax dated 1.1.2018]

4. Impact on the Consumers

- (a) *Reduction in price:* Generally, the purchase price would reduce as tax content of most products would come down. But if a product has hitherto not been subjected to tax completely then the price would increase. Further those items which are now taxable where tax rate earlier was zero may be more expensive as exemption and nil rated lists of items may come down in the GST regime.
- (b) *Transparency:* The tax paid would be clearly mentioned in the invoice given to the customer.

5. Central Government

- (a) *Increased collection of CGST and IGST:* The collection of taxes-CGST and IGST would increase when more and more assesses register and pay taxes due to simplified tax laws under GST regime.
- (b) *Loss of CST revenues:* The CST which was 2 % accruing to the State of collection has been subsumed into GST. This revenue would not be available to the States.
- (c) *Refunds under GST:* The refunds under Central excise and service tax laws take long time. However, in GST Regime, refunds on account of zero-rated supply of goods or services or both made by registered persons, other than such category of registered persons as may be notified by the Government on the recommendations of the Council, are processed faster (on provisional basis) with 90% of the total refund amount being available on submission of proper documents. Refund of the balance 10% will be granted after verification of documents furnished by the applicant. (Section 54(6) of the CGST Act read with Rule 91 of the CGST Rules).
- (d) *Reduced corruption:* When the laws are simplified, then the chances of multiple interpretations would get reduced, leading to reduction in disputes and consequent litigation. Also, the automation of the payments/returns filing and other compliances could mean that the interaction between the assessee and the department officers would come down to minimum. This would reduce corruption and increase ethics gradually.
- (e) *Compensation for loss of revenues to States:* The compensation of loss of tax revenues to the States on account of implementation of GST would be an outgo. In reality there may be minimal outgo except for the weaker States. All expected to gain due to increased compliance.

6. State Government

- (a) *Proliferation of computerization leading to fall in transaction costs:* Due to increase in computerization due to GSTN, the tax administration would be easier and cost of collection would be less.

- (b) *The Destination Principle:* States which are net consumers would benefit due to the accrual on destination. The producing States may have a comparative disadvantage.

7. Impact on the Country

- (a) *Increased FDI:* The flow of Foreign Direct Investments may increase under GST as the erstwhile complicated/ multiple tax laws are one of the reasons foreign Companies were not coming to India in addition to widespread corruption.
- (b) *Growth in overall revenue:* It is estimated that India could get revenue of \$15 billion per annum by implementing the Goods and Services Tax as it would promote exports, raise employment and boost growth.
- (c) *Single point taxation:* Uniformity in tax laws will lead to single point taxation for supply of goods or services all over India. This increases the tax compliance and more assesses will come into tax net.
- (d) *Simplified tax laws:* This reduces litigation and waste of time of the judiciary and the assessee due to frivolous proceedings at various levels of adjudication and appellate authorities. Earlier laws appears to be much worse and an amalgam of the bad parts of VAT/ ST/ CE.
- (e) *Increase in exports and employment-* GST could also result in increased employment, promotion of exports and consequently a significant boost to overall economic growth and factors of production -land, labour and capital.

8. Overall Impact

- (a) *Change in law and procedure:* Since it is a major indirect tax reform in India, there are new legislations and procedures. The entire indirect tax code is new one.
- (b) *Change in tax-rates:* The standard rate of 12.5 % for central excise, Service tax, along with residuary rate of VAT at 12.5-14.5% brings the overall rate to 25%-30%. But, post GST, the general rate will be 18%; a net gain of almost 7%-12%. Most of the dealers and consumers have experienced the change in tax rates, either significantly or marginally. When the tax rates are increased for some products it could lead to continued tax evasion as well.
- (c) *GST based on HSN:* As inferred from notification prescribing the rate of tax, for classification of goods under GST, reference has to be made to the first Schedule to Customs Tariff Act 1975;
- (d) *Availment of tax credit:* GST has facilitated nearly seamless credit across the entire supply chain and across all States under a common tax base. Under earlier indirect laws, no cross credits were available across central excise/service tax to local VAT/sales tax. Under the GST law, the input tax credit (ITC) (set off) would be given for

Central GST against CGST and the States would give input tax credit (ITC) SGST to SGST. Cross-utilization of credit between Central GST and State GST would not be allowed.

- (e) *Credit availment based on vendor's invoices:* The credit of excise duty paid is available based on the excise invoice raised by manufacturer or service provider. The credit is available under the Service Tax law when the invoice amount is paid within 6 months of the invoice date. In respect of joint charge and reverse charge, based on receipt of payment on the basis of payment challans of the assessee. Under State VAT law, credit is allowable on the basis of tax invoice. Under GST the credits could be availed based on the invoices of vendors under CGST and SGST. But the onus may shift onto the assessee to ensure that the amount of the CGST/SGST has been deposited in the respective Government treasury by the vendor. This provision has been added to bring in tax discipline but smaller businesses may find transaction cost increasing due to this.
- (f) *Avoidance of Double Taxation:* Under earlier law, several transactions suffer VAT as well as Service Tax such as works contract or licensing of software. This has been resolved under the GST regime to certain extent, by redefining what is goods and service. Like, work contract which is a composite supply will be deemed to be supply of service as per para 6(a) of Schedule II of CGST Act
- (g) *Changes in the Accounting Software:* Dealers and service providers need to modify/replace the accounting and taxation software. Initially there could be investment costs, costs of training in GST of people at each level starting from junior/mid to higher level managerial staff, management group/stakeholders.
- (h) *Training:* Comprehensive training would be required to the staff members of the business community, both at senior level and also at junior level across the purchase, sales and finance functions. VAT + CE/ ST officers would also need to understand the law well.
- (i) *Competent Professionals:* There are specialized consultants for Excise Duty, Service Tax and VAT. With the GST, only a single consultant maybe required who can handle all GST matters. Compliance for the SME may necessitate competent tax preparers.

IV. Impact on Specific Sectors

Impact on Agriculture

1. In India, food items are generally exempt from central excise duty. But many food items, including food grains and cereals, attracted State VAT at 4-5%.
2. The exemption under the State VAT laws was restricted to unprocessed food, e.g., fresh fruits and vegetables, meat and eggs, and coarse grains.

3. These items would be subject to tax in GST at nil rate when unbranded and at a lower rate, 5% (combined GST rate) when branded, would certainly make some of these items dearer.

However, GST rate on services by way of job work in relation to all food and food products falling under Chapters 1 to 22 is 5% in terms of notification No. 31/2017-CT(R) dated 13.10.2017 read with Notification No. 11/2017-Central Tax (Rate) dated 28.6.17(refer S.No. 26)

Impact on Works Contract

Works contracts are composite contracts involving material and labour. The material portion involving the supply of goods was taxable to Value Added Tax (VAT), while the service portion was liable to service tax. If a new commodity comes into existence, in the process of executing a works contract, then, Central Excise duty may be levied.

Under GST law, Section 2(119) defines works contract as a contract for building, construction, fabrication, completion, erection, installation, fitting out, improvement, modification, repair, maintenance, renovation, alteration or commissioning of any immovable property wherein transfer of property in goods (whether as goods or in some other form) is involved in the execution of such contract. Works contract could be taxed on gross value with ITC on goods and services being available. It would be considered as a service. It would be at 18% in general and if value of land were included 12%. Input tax credit shall be available in respect of works contract services when supplied for immovable property only where it is an input service for further supply of works contract service.

Impact on Leasing Companies

1. At present, if there is transfer of right to use goods involving transfer of effective control and possession, then it is subject to VAT; otherwise, it is subject to service tax.
2. Under GST it is a service.

Impact on International Trade

Importers of goods and services may be affected under the GST regime due to -

1. Change in tax rates leading to higher tax incidence when the goods or services are imported into India from outside India.
2. Exports of goods and services shall continue to be zero rated and eligible to claim refund of-
 - (a) input tax credit, where such supplies are made without payment of IGST under Letter of Undertaking or Bond
 - (b) tax paid when IGST is paid on such supplieswhich could be fast tracked.

Impact on Pure sale of Land or completed building

They are kept out of GST purview.

Other Impact

1. The 5 specified petroleum products namely Petroleum Crude, Motor Spirit(petrol), High Speed Diesel, Natural Gas and Aviation Turbine Fuel as well as electricity are outside the ambit of GST. In addition, tobacco attract other taxes applicable in addition to GST.
2. Earlier products known as sin goods and luxury items are taxable not only at higher rate of tax but also subject to multiple taxes. Under GST they are taxed at 28% + cesses upto 160%.

V. Challenges before the Government

Most concerns expressed about the implementation of GST can broadly be divided into three categories –

- A. Design issues
- B. Operational issues
- C. Infrastructure issues.

A. Design issues

The broad framework of GST is now clear. This is on the lines of the model approved by the Empowered Committee of the State Finance Ministers in much diluted form. The GST Law in terms of quality is analysed hereunder.

Is it simple? – No, amalgam of CST, VAT, CE, Customs; stringent rules expected to be moderated over period of time.

Is it fair? – No. Revenue augmentation/ safety have been focused and business needs have not been addressed fully. Seamless credit is not a reality- restrictions exist in law. In case of certain products the total tax has increased. The concept of equalizing the earlier tax rate is not in line with inviting those outside to join in. There should have reduction in tax rates of evasion prone products.

It is transparent? -Yes – due to adoption of information technology- it has been able to keep distance between the tax payer and officers.

The GST is a dual tax with both Central and State GST component levied on the same base. Thus, all goods and services barring a few exceptions would be brought into the GST base. Importantly, there is no distinction between goods and services for the purpose of the tax with a common legislation applicable to both.

However, a number of issues remain to be resolved, which are under the consideration of the

Empowered Committee. The same are expected to be resolved with surpass of time and regular meeting of GST Council and Government endeavor to determine the same.

B. Operational issues

- (a) Common approach of the States, i.e., a common law, a common assessment procedure and even a common return.
- (b) Monitoring of inter-State trade by flying squad and a computer-generated number for every supply of goods.
- (c) Sharing of information using comprehensive IT network.
- (d) Improving relations between the Centre and the States.
- (e) Implementation of E-way Bill.

C. Infrastructural Issues

- (a) *IT infrastructure* - A simple system for inter-State transactions and verification of dealers is essential to ensure tax compliance and check avoidance. Given the volume of such transactions, this system necessarily has to be IT based. GSTN appears to be on the job proactively testing the beta version. However, SMEs would need to educate themselves and comply which is not practicable for the uneducated and the unorganized sectors.
- (b) *Implementation of e-way bill*- The e-way bill for inter-State transport was implemented in India from 1st April 2018. And e-way bill rules for intra-state transport will uniformly apply to all states from 1st June 2018. For intra-state movement of goods. Implementation of E-way bills will lead to unprecedented growth in economic growth by providing opportunities for productivity with advent of smooth logistics, increasing working capital by operating centralised warehouses, specialised supply chains, recording of movement of goods electronically. But to implement the same successfully the in-depth knowledge on the subject matter needs to disseminated.
- (c) *Impact on Small Enterprises* - The impact of GST on small enterprises is often cited as a concern. Following are three categories of small enterprises in the GST regime:
 - Those below the threshold of Rs. 20 lakhs (10 lakhs in case of specified) need not register for the GST. Practically they can only be in business to consumer traders/ manufacturers/ food service providers.
 - Those between the threshold and composition turnover of Rs. 1 crore have the option to pay 0.5% of the turnover of State in case of a manufacturer and 0.5% of the turnover of taxable supplies of goods in case of traders. Given the possibilities of input tax credit, not all small enterprise that do B2B business may seek the turnover tax option. Practically they can only be in business to consumer traders/ manufacturers/ food service providers.

- The third category of small enterprises above the turnover threshold would need to be within the GST framework.
- (d) *Harmonization* - For GST to be effective there should be identical GST laws across States as well as at the Centre. Moreover, not only the law but also the procedures relating to levy, assessment, collection and appropriation of the GST should be similar across States and the Centre. It would be so, we await the analysis of the SGST law in all States.
- (e) There should be a *thorough re-engineering of the departments of SGST and the CGST*. This is to clearly define the responsibility, accountability and authority of both departments. The day-to-day operations should be assigned to the States. The dealers would register and submit their return to the State department where they are located. The dealers should interact with a single tax authority only.
- (f) *Cross-verification of documents must be strengthened* - In the absence of proper cross-verification; the dealers avoid tax payment and claim undue credit for taxable sales. Tax evasion can be prevented by setting up departments similar to centralized and regional anti-evasion organisation as in France.
- (g) *Common procedure for Levy, assessment, collection and appropriation* - For industry to reduce the transaction and compliance costs, it is necessary that apart from a common law, implementation of the law also be similar across States. All stages of the taxation chain from the levy of the tax to its assessment, collection and appropriation should be similar. This would involve similar rules across the States dealing not only with assessments, audit, refunds, but also more basic issues, like registration, filing of returns, treatment of transportation of goods etc.
- (h) *Training* - Since the dual GST is considerably different from the erstwhile indirect tax regime, a massive training initiative would be required at both Federal and State levels to familiarize the respective administrations with the concepts and procedures of the dual GST. However, the task is not limited to technical training but also extends to a similar effort to re-orient the attitude and approach of the tax administration in order to achieve a fundamental change in mindset.
- (i) *Compensation to the States for Losses* - Another major challenge before the Government is to ensure that compensation cess and apportionment of tax provisions are implemented smoothly as Centre has provided five-year compensation period. Under the GST structure, the tax would be collected by the States where the goods or services are consumed, and hence losses could be unfavorable for the producer States and the Centre would be required to compensate them for loss of revenue.

VI. GST–The Way Forward

The GST Act 2017 read with CGST and IGST Rules in place reveals the pervasive implementation of GST across the Country.

The essence of a GST regime is to remove the cascading effect of CENVAT and Service tax with set-offs. Although a transparent and corruption-free tax administration is yet another purpose of this new Act, its implementation may not be without administrative challenges and legal hurdles, like the implementation of e-way bill from 1st April, 2018 for interstate movements of goods and in phased manner for intra state movement of goods. It is just important that in order to accomplish the objectives of such a regime, business entities do SWOT and impact analysis with respect to recent developments under GST to grab the opportunities and for better GST Compliance to comprehend, analyze and comply with the perplexing GST laws and taking some course of actions like:

- (a) **Sensitize the business eco-system:** It is an accepted fact that GST is not merely a tax change but a business change as it has impacted all functions of an organisation such as finance, product pricing, supply chain, information technology, contracts, commercials etc. Thus, it's imperative that all these functional teams participant in making an organisation GST Compliant.

They can consider sensitizing its entire business eco-system i.e. not only the employees but also vendors (such as Tier-1, Tier-2 vendors etc.) and key customers of the organisation. An regular training would give the concerned employees, vendors and customers a sense of involvement in discussion and avail best opportunities under GST regime.

- (b) **Understand GST Impact on operations** - GST has provided opportunities but at the same time it has brought some threats. Given this, an organisation may consider carrying out an exercise to identify how its operations would positively get impacted because of GST. For GST Impact Analysis exercise, the respective department heads such as finance, supply chain, product pricing, human resource etc. should be involved to ensure that they provide their inputs and suggestions.

Going one step forward, entities can also identify possible cost savings which key suppliers / vendors could be entitled to in GST regime and employing the efficient supply chain. Based on the possible cost savings to suppliers / vendors, they can have discussion with its vendors for passing of benefits by way of cost reduction in the coming years.

- (c) **Gear up for Secure and efficient Information Technology (IT) systems** - Information Technology is a key area for business organisations as fast retrieval of voluminous secure data and numerous information will aid in better GST Compliance.

- (d) **Design Alternate Business Strategies** - To gear up for GST regime, the organisation may identify alternate efficient business strategies to ensure GST Compliance. Even, supply chain strategies has undergone a major change as entire India has become one market and no extra tax cost is involved for intra-State vis-à-vis inter-State procurement of goods. An organisation would have to re-visit their pricing strategies as business competitors may well reduce prices of their product to pass on the GST benefits.

However, while forming alternate business strategies, it goes without saying that the organisation should take into consideration the commercial feasibility of alternate business strategies before these strategies are recommended.

- (e) **Make representation before the Government** - GST implementation has affected few industries/ sectors negatively (than positively). Thus, efforts should be made to identify the possible issues for which appropriate representation could be made before the Government through various trade chambers and forums. Thereby facilitating Government in its endeavors which is evident through each meeting of GST Council to resolve certain practical issues evolved under GST.

Hence, to stabilise economic situation characterised by volatile economic conditions, GST implementation remains a ray of hope to economic growth.

- (f) Thorough reading of the GST law specially upcoming changes(notifications, circulars etc.) to pre-empt the possible consequences on one's business
- (g) Assessing the manner and quantum of input credit as available in a tax period .
- (h) Evaluation of the competitiveness and the demand for the products in the backdrop of the GST rate structure to ensure that products are neither overpriced nor under priced
- (i) Preparation of procedures/SOPs to be followed in the organization
- (j) Special attention to:
- Registrations – as new applicants
 - Records to be updated up to the authorized date and necessary amendments/ additions/deletions to be made in records for meeting the requirements of the new law
 - Recording of supply transactions and other records\documents for correctly reflecting the details of business e.g. Export transaction with support documents and entries be maintained so that refund can be claimed and the same be reflected in return
 - Inventory check and proper recording
 - Redesigning IT infrastructure to support the GST compliance requirements and rapid changes taking place in GST

- Analysing the MIS reports in post GST implementation scenario
 - Analyzing impact of other laws and integration with customs and FTP
- (k) **Spreading of GST awareness / Trainings:** To be more efficient GST Compliant regular workshops and training programs need to be conducted in order to understand and analyzing the applicability of GST provisions vis-a-vis the existing business of a person/organization. The following steps could be taken in this case:
- Start focused reading/ practice in GST now!!
 - Use online resources – idtc.icai.org, Google GST, caclubindia, yahoo CA groups, taxindiaonline, linked in.
 - Form a small group for GST in your area, meet regularly to understand the latest developments.
 - Read books/ attend workshops/ seminars on topic

VII. Exemptions to Government Services

Section 11(1) of the CGST Act, 2017 provides that where the Government is satisfied that it is necessary in the public interest so to do, it may, on the recommendations of the Council, by notification exempt generally, either absolutely or subject to such conditions as may be specified therein, goods or services or both of any specified description from the whole or any part of the tax leviable thereon with effect from such date as may be specified in such notification. In this regard various notifications are issued such as-

- Notification No-12/2017-Central Tax (Rate) dated 28.06.2017 as amended from time to time notifies services which are exempt under GST. List of services provided by/ to Government which enjoys exemption has been discussed as under-

CONCLUSION

This article has looked at the GST Law as it is on a broad basis without getting into the details. It is not an in-depth analysis of the GST law. It is expected that many rough edges of this law would be addressed based on representations being made from trade industry and professional bodies.

STATEMENT OF OBJECTS AND REASONS

(As provided in the Bill introduced in Lok Sabha on 18th December, 2014)

1. The Constitution is proposed to be amended to introduce the goods and services tax for conferring concurrent taxing powers on the Union as well as the States including Union territory with Legislature to make laws for levying goods and services tax on every transaction of supply of goods or services or both. The goods and services tax shall replace a number of indirect taxes being levied by the Union and the State Governments and is intended to remove cascading effect of taxes and provide for a common national market for goods and services. The proposed Central and State goods and services tax will be levied on all transactions involving supply of goods and services, except those which are kept out of the purview of the goods and services tax.
2. The proposed Bill, which seeks further to amend the Constitution, *inter alia*, provides for—
 - (a) subsuming of various Central indirect taxes and levies such as Central Excise Duty, Additional Excise Duties, Excise Duty levied under the Medicinal and Toilet Preparations (Excise Duties) Act, 1955, Service Tax, Additional Customs Duty commonly known as Countervailing Duty, Special Additional Duty of Customs, and Central Surcharges and Cesses so far as they relate to the supply of goods and services;
 - (b) subsuming of State Value Added Tax/Sales Tax, Entertainment Tax (other than the tax levied by the local bodies), Central Sales Tax (levied by the Centre and collected by the States), Octroi and Entry tax, Purchase Tax, Luxury tax, Taxes on lottery, betting and gambling; and State Cesses and surcharges in so far as they relate to supply of goods and services;
 - (c) dispensing with the concept of 'declared goods of special importance' under the Constitution;
 - (d) levy of Integrated Goods and Services Tax on inter-State transactions of goods and services;
 - (e) levy of an additional tax on supply of goods, not exceeding one per cent. In the course of inter-State trade or commerce to be collected by the Government of India for a period of two years, and assigned to the States from where the supply originates;
 - (f) conferring concurrent power upon Parliament and the State Legislatures to make laws governing goods and services tax;
 - (g) coverage of all goods and services, except alcoholic liquor for human consumption, for the levy of goods and services tax. In case of petroleum and petroleum products, it has been provided that these goods shall not be subject

to the levy of Goods and Services Tax till a date notified on the recommendation of the Goods and Services Tax Council.

- (h) compensation to the States for loss of revenue arising on account of implementation of the Goods and Services Tax for a period which may extend to five years;
- (i) creation of Goods and Services Tax Council to examine issues relating to goods and services tax and make recommendations to the Union and the States on parameters like rates, exemption list and threshold limits. The Council shall function under the Chairmanship of the Union Finance Minister and will have the Union Minister of State in charge of Revenue or Finance as member, along with the Minister in-charge of Finance or Taxation or any other Minister nominated by each State Government. It is further provided that every decision of the Council shall be taken by a majority of not less than three-fourths of the weighted votes of the members present and voting in accordance with the following principles:—
 - (A) the vote of the Central Government shall have a weightage of one-third of the total votes cast, and
 - (B) the votes of all the State Governments taken together shall have a weightage of two-thirds of the total votes cast in that meeting.

Illustration:

In terms of clause (9) of the proposed article 279A, the "weighted votes of the members present and voting" in favour of a proposal in the Goods and Services Tax Council shall be determined as under:—

$$WT = WC + WS$$

Where,

$$WT = WC + WS \left(\frac{WST}{SP} \right) \times SF$$

Wherein—

WT = Total weighted votes of all members in favour of a proposal.

WC = Weighted vote of the Union = $\frac{1}{3}$ i.e., 33.33% if the Union is in favour of the proposal and be taken as "0" if, Union is not in favour of a proposal.

WS = Weighted votes of the States in favour of a proposal.

SP = Number of States present and voting.

WST = Weighted votes of all States present and voting which is $\frac{2}{3}$ i.e. 66.67%

SF = Number of States voting in favour of a proposal.

The State of Jammu and Kashmir joins GST today making the GST truly a “one nation, one tax” regime.

The President of India has promulgated today two ordinances, namely, the Central Goods and Services Tax (Extension to Jammu and Kashmir) Ordinance, 2017 and the Integrated Goods and Services Tax (Extension to Jammu and Kashmir) Ordinance, 2017 extending the domain of Central GST Act and the Integrated GST Act to the State of Jammu and Kashmir, with effect from 8th July, 2017. With this, the State of Jammu and Kashmir has become part of the GST regime, making GST truly a “one nation, one tax” regime.

Earlier, the Goods and Services Tax was launched in the country from the midnight of 1st July, 2017. However, because of the special provisions applicable to the State of Jammu and Kashmir extra steps had to be taken before the State could join the GST fold.

On 6th July 2017, the State of Jammu and Kashmir had taken the first step towards adopting the GST regime with the President of India giving assent to the Constitution (Application to Jammu and Kashmir) Amendment Order, 2017. Resultantly, the One Hundred and First Amendment Act, 2016 to the Constitution of India that paved the way for introduction of GST in the country, became applicable to the State of Jammu and Kashmir also. Following this, on 7th July, 2017, the Jammu and Kashmir Goods and Services Tax Bill, 2017 was passed by the State Legislature, empowering the State to levy State GST on intra-state supplies with effect from 8th July, 2017.

Concomitantly, the President of India has promulgated two ordinances, namely, the Central Goods and Services Tax (Extension to Jammu and Kashmir) Ordinance, 2017 and the Integrated Goods and Services Tax (Extension to Jammu and Kashmir) Ordinance, 2017 extending the domain of Central GST Act and the Integrated GST Act to the State of Jammu and Kashmir, with effect from 8th July, 2017.

STATEMENT OF OBJECTS AND REASONS

Presently, the Central Government levies tax on, manufacture of certain goods in the form of Central Excise duty, provision of certain services in the form of *service tax and on inter-State sale of goods in the form of Central Sales tax*. Similarly, the State Governments levy tax *on retail*¹ sales in the form of value added tax, entry of goods in the State in the form of entry tax, luxury tax and purchase tax, etc. Accordingly, there is multiplicity of taxes which are being levied on the same supply chain.

2. The present tax system on goods and services is facing certain difficulties as under—
 - (i) there is cascading of taxes as taxes levied by the Central Government are not available as set off against the taxes being levied by the State Governments;
 - (ii) certain taxes levied by *the State Governments* are not allowed as set off for payment of other taxes being levied by them;
 - (iii) the variety of Value Added Tax Laws in the country with disparate tax rates and dissimilar tax practices divides the country into separate economic spheres; and
 - (iv) the creation of tariff and non-tariff barriers such as octroi, entry tax, check posts, etc., hinder the free flow of trade throughout the country. Besides that, the large number of taxes create high compliance cost for the taxpayers in the form of number of returns, payments, etc.
3. In view of the aforesaid difficulties, all the above mentioned taxes are proposed to be subsumed in a single tax called the goods and services tax which will be levied on supply of goods or services or both at each stage of supply chain starting from manufacture or import and till the last retail level. So, any tax that is presently being levied by the Central Government or the State Governments on the supply of goods or services is going to be converged in goods and services tax which is proposed to be a dual levy where the Central Government will levy and collect tax in the form of central goods and services tax and the State Government will levy and collect tax in the form of state goods and services tax on intra-State supply of goods or services or both.
4. In view of the above, it has become necessary to have a Central legislation, namely the Central Goods and Services Tax Bill, 2017. The proposed legislation will confer power upon the Central Government for levying goods and services tax on the supply of goods or services or both which takes place within a State. The proposed legislation will simplify and harmonise the indirect tax regime in the country. It is expected to reduce cost of production and inflation in the economy, thereby making the Indian trade and industry more competitive, domestically as well as internationally. Due to the seamless transfer of input tax credit from one stage to another in the chain of value addition, there is an in-built mechanism in the design of goods and services tax that would incentivise tax compliance by taxpayers. The proposed goods and services tax will broaden the tax base, and result in better tax compliance due to a robust information technology infrastructure.
5. The Central Goods and Services Tax Bill, 2017, inter alia, provides for the following, namely:—

Schedule-II

- (a) to levy tax on all intra-State supplies of goods or services or both except supply of alcoholic liquor for human consumption at a rate to be notified, not exceeding twenty per cent. as recommended by the Goods and Services Tax Council (the Council);
 - (b) to broad base the input tax credit by making it available in respect of taxes paid on any supply of goods or services or both used or intended to be used in the course or furtherance of business;
 - (c) to impose obligation on electronic commerce operators to collect tax at source, at such rate not exceeding one per cent. of net value of taxable supplies, out of payments to suppliers supplying goods or services through their portals;
 - (d) to provide for self-assessment of the taxes payable by the registered person;
 - (e) to provide for conduct of audit of registered persons in order to verify compliance with the provisions of the Act;
 - (f) to provide for recovery of arrears of tax using various modes including detaining and sale of goods, movable and immovable property of defaulting taxable person;
 - (g) to provide for powers of inspection, search, seizure and arrest to the officers;
 - (h) to establish the Goods and Services Tax Appellate Tribunal by the Central Government for hearing appeals against the orders passed by the Appellate Authority or the Revisional Authority;
 - (i) to make provision for penalties for contravention of the provisions of the proposed Legislation;
 - (j) to provide for an anti-profiteering clause in order to ensure that business passes on the benefit of reduced tax incidence on goods or services or both to the consumers; and
 - (k) to provide for elaborate transitional provisions for smooth transition of existing taxpayers to goods and services tax regime.
6. The Notes on clauses explain in detail the various provisions contained in the Central Goods and Services Tax Bill, 2017.
7. The Bill seeks to achieve the above objectives.

- (2) Every order made under this section shall be laid, as soon as may be, after it is made, before each House of Parliament.

STATEMENT OF OBJECTS AND REASONS

Presently, article 269 of the Constitution empowers the Parliament to make law on the taxes to be levied on the sale or purchase taking place in the course of inter-State trade or commerce. Accordingly, Parliament had enacted the Central Sales Tax Act, 1956 for levy of central sales tax on the sale taking place in the course of inter-State trade or commerce. The central sales tax is being collected and retained by the exporting States.

2. The crucial aspect of central sales tax is that it is non-vatable, i.e. the credit of this tax is not available as set-off for the future tax liability to be discharged by the purchaser. It directly gets added to the cost of the goods purchased and becomes part of the cost of business and thereby has a direct impact on the increase in the cost of production of a particular product. Further, the fact that the rate of central sales tax is different from the value added tax being levied on the intra-State sale creates a tax arbitrage which is exploited by unscrupulous elements.
3. In view of the above, it has become necessary to have a Central legislation, namely, the Integrated Goods and Services Tax Bill, 2017. The proposed Legislation will confer power upon the Central Government for levying goods and services tax on the supply of goods or services or both which takes place in the course of inter-State trade or commerce. The proposed Legislation will remove both the lacunas of the present central sales tax. Besides being vatable, the rate of tax for the integrated goods and services tax is proposed to be more or less equal to the sum total of the central goods and services tax and state goods and services tax or Union territory goods and services tax to be levied on intra-State supplies. It is expected to reduce cost of production and inflation in the economy, thereby making the Indian trade and industry more competitive, domestically as well as internationally. It is also expected that introduction of the integrated goods and services tax will foster a common or seamless Indian market and contribute significantly to the growth of the economy.
4. The Integrated Goods and Services Tax Bill, 2017, inter alia, provides for the following, namely :—
 - (a) to levy tax on all inter-State supplies of goods or services or both except supply of alcoholic liquor for human consumption at a rate to be notified, not exceeding forty per cent. as recommended by the Goods and Services Tax Council (the Council);
 - (b) to provide for levy of tax on goods imported into India in accordance with the provisions of the Customs Tariff Act, 1975 read with the provisions contained in the Customs Act, 1962;
 - (c) to provide for levy of tax on import of services on reverse charge basis under the proposed Legislation;
 - (d) to empower the Central Government to grant exemptions, by notification or by special order, on the recommendations of the Council;

- (e) to provide for determination of the nature of supply as to whether it is an inter-State or an intra-State supply;
 - (f) to provide elaborate provisions for determining the place of supply in relation to goods or services or both;
 - (g) to provide for payment of tax by a supplier of online information and database access or retrieval services;
 - (h) to provide for refund of tax paid on supply of goods to tourist leaving India;
 - (i) to provide for apportionment of tax and settlement of funds and for transfer of input tax credit between the Central Government, State Government and Union territory;
 - (j) to provide for application of certain provisions of the Central Goods and Services Tax Act, 2017, inter alia, relating to definitions, time and value of supply, input tax credit, registration, returns other than late fee, payment of tax, assessment, refunds, audit, inspection, search, seizure and arrest, demands and recovery, appeals and revision, offences and penalties and transitional provisions, in the proposed Legislation; and
 - (k) to provide for transitional transactions in relation to import of services made on or after the appointed day.
5. The Notes on clauses explain in detail the various provisions contained in the Integrated Goods and Services Tax Bill, 2017.
6. The Bill seeks to achieve the above objectives.

Notes on Clauses

Clause 24 provides for laying of rules, regulations and notifications made by the Central Government before each House of the Parliament.

Clause 25 confers powers on the Central Government to make such provisions not inconsistent with the provisions of the proposed Act or the rules or regulations by a general or special order, on the recommendations of the Council within a period of three years from the date of commencement of the proposed Act.

FINANCIAL MEMORANDUM

Clauses 17 and 18 of the Bill provides for apportionment of tax and settlement of funds and for transfer of input tax credit between the Central Government, State Government and Union territory.

2. *Clause 20* of the Bill provides for application of provisions of the Central Goods and Services Tax Bill, 2017 relating to appeals, advance ruling and anti-profiteering. So authorities under the Central Goods and Services Tax Act will be utilised for the purposes of the proposed legislation. Thus there will be no extra financial expenditure under this Bill.
3. The total financial implications in terms of recurring and non-recurring expenditure involved in carrying out the various functions under the Bill would be borne by the Central Government. Most of the existing officers and staff of the Central Board of Excise and Customs would be used for carrying out the various functions under the Bill. However, it is not possible to estimate the exact recurring and non-recurring expenditure from the Consolidated Fund of India at this stage.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 22 of the Integrated Goods and Services Tax Bill seeks to empower the Central Government to make rules, inter alia, in the following matters, namely:—

- (a) collection of taxes under section 5; (b) determination of place of supply under section 10; (c) apportionment of value of supply of services when the immovable property or boat or vessel is located in more than one State or Union or when the leased circuit is installed in more than one State or Union territory or when the event is held in more than one State or Union territory or for advertisement services under section 12; (d) the place of supply of services referred to in section 13 when they are supplied in more than one State or Union territory under that section; (e) conditions and safeguards for refund of integrated tax paid on supply of goods to tourist leaving India under section 15; (f) procedure and safeguards for supply of goods or services under bond or on payment of integrated tax and then taking refund under section 16; (g) manner in which apportionment of tax and settlement of funds will take place under section 17; (h) manner and time in which input tax credit will be transferred under section 18; (i) manner in which tax wrongfully collected and paid to Central Government or State Government is to be refunded under section 19; and (j) any other matter which is to be, or may be, prescribed, or in respect of which provision is to be made, by rules.
- 2. *Clause 23* of the Bill empowers the Board to make regulations to provide for any matter which is required to be, or may be, specified by regulation or in respect of which provision is to be made by regulations.
- 3. The matters in respect of which the said rules and regulations may be made are matters of procedure and administrative detail, and as such, it is not practicable to provide for them in the proposed Bill itself. The delegation of legislative power is, therefore, of a normal character.

Provided that no such order shall be made after the expiry of a period of three years from the date of commencement of this Act.
- (2) Every order made under this section shall be laid, as soon as may be, after it is made, before each House of Parliament.

STATEMENT OF OBJECTS AND REASONS

Presently, the Constitution empowers the Central Government to levy excise duty on manufacturing and service tax on the supply of services. Similarly, it empowers the State Governments and Union Territory to levy sales tax or value added tax on the sale of goods. In addition, many States also levy an entry tax on the entry of goods in local areas. This exclusive division of fiscal powers has led to a multiplicity of indirect taxes in the country.

2. The present tax system on goods and services in the Union territories is facing certain difficulties which are as under—
 - (a) the multiplicity of taxes at the Central and State levels has resulted in a complex indirect tax structure in the country that is ridden with hidden costs for the trade and industry;
 - (b) there is no uniformity of tax rates and structure across the States and there is cascading of taxes due to "tax on tax"; and
 - (c) the credit of excise duty and service tax paid at the stage of manufacture is not available to the traders while paying the State level sales tax or value added tax, and vice-versa. Further, the credit of State taxes paid in one State cannot be availed in other States. Hence, the prices of goods and services get artificially inflated to the extent of this "tax on tax".
3. In view of the above, it has become necessary to have a Central Legislation, namely, the Union Territory Goods and Services Tax Bill, 2017. The proposed Legislation will confer power upon the Central Government for levying goods and services tax on the supply of goods or services or both which takes place within a Union territory without Legislature.
4. The proposed Legislation will simplify and harmonise the indirect tax regime in the country. It is expected to reduce the cost of production and inflation in the economy, thereby making the Indian trade and industry more competitive, domestically as well as internationally. It is also expected that introduction of goods and services tax will foster a common or seamless Indian market and contribute significantly to the growth of the economy. Due to the seamless transfer of input tax credit from one stage to another in the chain of value addition, there is an in-built mechanism in the design of goods and services tax that would incentivise tax compliance by taxpayers. The proposed goods and services tax will broaden the tax base and result in better tax compliance due to a robust information technology infrastructure.
5. The Union Territory Goods and Services Tax Bill, 2017, inter alia, provides for the following, namely:—
 - (a) to levy tax on all intra-State supplies of goods or services or both except supply of alcoholic liquor for human consumption at a rate to be notified, not exceeding

- twenty per cent as recommended by the Goods and Services Tax Council (the Council);
- (b) to empower the Central Government to grant exemptions, by notification or by special order, on the recommendations of the Council;
 - (c) to provide for apportionment of tax and settlement of funds on account of transfer of input tax credit between the Central Government, State Government and Union territory;
 - (d) to provide for assistance by officers of Police, Railways, Customs, and those engaged in the collection of land revenue, including village officers, and officers of central tax and officers of the State tax to proper officers in the implementation of the proposed Legislation;
 - (e) to provide for recovery of tax, interest or penalty payable by a person to the Government which remains unpaid, by the proper officer of central tax;
 - (f) to establish an Authority for Advance Ruling in order to enable the taxpayer to seek a binding clarity on taxation matters from the department;
 - (g) to provide for elaborate transitional provisions for smooth transition of existing taxpayers to goods and services tax regime;
 - (h) to provide for application of certain provisions of the Central Goods and Services Tax Act, 2017, inter alia, relating to definitions, time and value of supply, input tax credit, registration, returns other than late fee, payment of tax, assessment, refunds, audit, inspection, search, seizure and arrest, demands and recovery, appeals and revision, offences and penalties and transitional provisions in the proposed Legislation; and
 - (i) to empower the Commissioner to issue orders, instructions or directions to the Union territory tax officers.
6. The Notes on clauses explain in detail the various provisions contained in the Union Territory Goods and Services Tax Bill, 2017.
7. The Bill seeks to achieve the above objectives.

STATEMENT OF OBJECTS AND REASONS

1. The Goods and Services Tax (Compensation to States) Act, 2017, provides for payment of compensation to the States for loss of revenue arising on account of implementation of the goods and services tax for a period of five years in accordance with the provisions of section 18 of the Constitution (One Hundred and First Amendment) Act, 2016.
2. The Constitution (One Hundred and First Amendment) Act, 2016, has amended the Constitution to facilitate the introduction of goods and services tax in the Country. The amendments made in the Constitution confer simultaneous powers upon Parliament and the State Legislatures to make laws for levy of goods and services tax on the supplies of goods or services or both. Section 18 of the Constitution (One Hundred and First Amendment) Act, 2016, provides that, "Parliament shall, by law, on the recommendations of the Goods and Services Tax Council, provide for compensation to the States for loss of revenue arising on account of implementation of the goods and services tax for a period of five years."
3. The Goods and Services Tax (Compensation to States) Act, 2017, inter alia, provides for the following, namely:—
 - (a) to provide that the financial year 2015-16 shall be taken as the base year for the purpose of calculating compensation amount payable to States;
 - (b) the revenue to be compensated shall consist of revenues from all taxes levied by the States which are now proposed to be subsumed under the goods and services tax, as audited by the Comptroller and Auditor General of India;
 - (c) the projected nominal growth rate of revenue subsumed for a State during the transition period shall be fourteen per cent. per annum;
 - (d) to provide that the compensation shall be released bi-monthly against the figures given by the Central accounting authorities provisionally and final adjustment shall be done after getting audited accounts of the year from the Comptroller and Auditor General of India;
 - (e) to provide that in case of the eleven Special category States referred to in article 279A of the Constitution, the revenue foregone on account of exemption of taxes granted by States shall be counted towards the definition of Revenue for the base year 2015-16;
 - (f) the revenues of States that were not credited to the Consolidated Fund of the States but were directly devolved to "mandi" or "municipalities" would also be included in the definition of 'revenue subsumed' if these were collected under the authority of entries 52, 54, 55 and 62 of List II of Seventh Schedule of the Constitution and were subsumed in the goods and services tax;
 - (g) to generate resources to compensate States for five years for any loss of revenue suffered by them on account of implementation of goods and services tax, a cess shall be levied on such goods, as recommended by the Goods and Services Tax Council, over and above the goods and services tax on that item;

Statement of Objects and Reasons

- (h) the proceeds of the goods and services tax compensation cess shall be credited to a non-lapsable Fund known as the Goods and Services Tax Compensation Fund in the Public Account and all amounts payable to the States as goods and services tax compensation shall be paid from the Goods and Services Tax Compensation Fund; and
 - (i) any residual amount left in the Compensation Fund after five year compensation period shall be shared equally between the Centre and the States. Fifty per cent. of the amount remaining unutilised in the Goods and Services Tax Compensation Fund at the end of the transition period shall be transferred to the Consolidated Fund of India as the share of the Centre, and the balance fifty per cent. shall be distributed amongst the States and Union territories in the ratio of their total revenues from the State goods and services tax or the Union territory goods and services tax, as the case may be, in the last year of the transition period.
4. The Act seeks to achieve the above objectives.

NEW DELHI;

ARUN JAITLEY

The 23rd March, 2017.

FINANCIAL MEMORANDUM

1. *Clause 10* of the Act seeks to provide that the proceeds of the goods and services tax compensation cess, as well as such other amounts as may be recommended by the Goods and Services Tax Council, shall be credited to a non-lapsable Fund known as the Goods and Services Tax Compensation Fund, which shall form part of the public account of India and shall be utilised for purposes specified in the clause 8 of the Act. Sub-clause (3) of clause 10 of the Act seeks to provide that fifty per cent. of the amount remaining unutilised in the goods and services tax compensation fund at the end of the transition period shall be transferred to the Consolidated Fund of India as the share of Centre, and the balance fifty per cent. shall be distributed amongst the States and the Union territories in the ratio of their total revenues from the State goods and services tax or the Union territory goods and services tax, as the case may be, in the last year of the transition period.
2. Since the central goods and services tax rate shall be arrived at so as to protect the present revenues of the Central Government from the indirect taxes being subsumed under goods and services tax, the Union Government would need additional source of revenue to compensate any State which may suffer drop in revenue collection on account of implementation of goods and services tax. Clause 8 of the Act, thus, proposes to levy a goods and services tax compensation cess, the proceeds of which shall be used directly for the payments of goods and services tax compensation to the States.

MEMORANDUM REGARDING DELEGATED LEGISLATION

1. *Clause 5* of the Act seeks to provide the detailed procedure for calculating the base year revenue of a State on the recommendations of the Goods and Services Tax Council. Sub-clause (3) of the said clause empowers the Central Government to prescribe the conditions subject to which, the amount of revenue foregone on account of exemptions or remission given by a State Government to promote industrial investment in the said State would be included in the total base year revenue of the States, in respect of States referred to in sub-clause (g) of clause (4) of article 279A of the Constitution. Sub-clause (6) of the clause 5 empowers the Central Government to prescribe the conditions subject to which, any part of revenues not credited in the Consolidated Fund of a State shall be included in the total base year revenue of the concerned State.
2. *Clause 7* of the Act seeks to provide the detailed procedure for calculating and releasing the goods and services tax compensation amount to a State. Sub-clause (6) of clause 7 empowers the Central Government to prescribe the manner of refund of compensation by a State to the Central Government, in case excess goods and services tax compensation is paid to the said State by the Central Government.
3. *Clause 8* of the Act seeks to levy a goods and services tax compensation cess on certain supplies of goods and services. Sub-clause (1) of clause 8 empowers the Central Government to notify the manner of levy and collection of the cess and the period of its imposition.
4. *Clause 9* of the Act seeks to provide that every taxable person shall pay the cess, furnish returns and apply for any refund due. Sub-clause (1) of clause 9 empowers the Central Government to make rules for prescribing the manner and forms for payment of cess, furnishing of returns and refund of cess.
5. The matters in respect of which notifications may be issued or rules may be made in accordance with the aforesaid provisions of the Act are matters of procedure and detail and it is not practicable to provide for the same in the Act itself. The delegation of legislative power is, therefore, of a normal character.
