### FAQ's

#### Scope of Supply (Section 7)

**Section 7 of the Central Goods and Services Tax Act, 2017 (“the CGST Act, 2017” or “the CGST Act”) made applicable to IGST *vide* Section 20 of the Integrated Goods and Services Tax Act, 2017 (“the IGST Act, 2017” or “the IGST Act”) and UTGST *vide* Section 21 of the Union Territory Goods and Services Tax Act, 2017 (“the UTGST Act, 2017” or “the UGST Act”)**

Q1. What is the scope of the term ‘supply’ as defined in the CGST Act, 2017?

Ans. As per Section 7(1) of the CGST Act, 2017, supply includes:

- (a) all forms of supply of goods or services or both such as sale, transfer, barter, exchange, licence, rental, lease or disposal made or agreed to be made for a consideration by a person in the course or furtherance of business;
- (b) import of services for a consideration whether or not in the course or furtherance of business [and]<sup>1</sup>;
- (c) the activities specified in Schedule I, made or agreed to be made without a consideration;<sup>2</sup>
- (d) Deleted<sup>3</sup>

Clause (d) being part of the section 7(1) defining the term ‘*supply*’ leads to a situation where an activity listed in Schedule II would be deemed to be a supply even if it does not constitute a supply as per clauses (a), (b) and (c) of section 7(1). Classification of certain specified activities or transactions (which qualify as a supply under the CGST Act) either as supply of goods or supply of services is supposed to be done in Schedule II. Hence, clause (d) of section 7(1) has been deleted and a new sub-section (1A) in section 7 has been inserted]

Further, it may be noted that, subject to the provisions of section 7 (1), (1A)<sup>4</sup> and (2),

<sup>3</sup> Effective date yet to be notified. Earlier - (d) the activities to be treated as supply of goods or supply of services as referred to in Schedule II.

the Government may, on the recommendations of the Council, specify, by notification, the transactions that are to be treated as:

- (a) a supply of goods and not as a supply of services; or
- (b) a supply of services and not as a supply of goods.

Q2. Is it required to distinguish whether a particular supply involves supply of goods or services or both?

Ans. Yes, the CGST Act, 2017 specifies certain provisions separately for supply of goods and supply of services viz., Section 12 and Section 13 thereof provides for ascertaining time of supply of goods and time of supply of services respectively. Similarly, separate provisions have been specified for ascertaining place of supply of goods and place of supply of services under the IGST Act, 2017. Further, the rate of tax applicable to supply of goods and supply of services are different. Accordingly, it is important to distinguish whether a particular transaction involves supply of goods or supply of services.

Q3. How to distinguish whether a particular supply involves supply of goods or services or both?

Ans. The Schedule II appended to the CGST Act, 2017 enlists the activities or *transactions*<sup>5</sup> which are to be treated as supply of goods or supply of services. One may refer Schedule II with reference to Section 7 of the CGST Act to classify whether the transaction involves supply of goods or supply of services. In other words, where certain activities or transactions constitute a supply as per section 7(1) of the CGST Act, 2017, they shall be treated either as supply of goods or supply of services as referred to in Schedule II.

Q4. Whether supply of goods or services without consideration is liable to tax?

Ans. The activities enumerated in Schedule I will qualify as supply even if made without consideration. Accordingly, such supplies in the absence of consideration are liable to tax. To illustrate, following are the activities which will qualify as supply in the absence of consideration and eventually would be liable to tax:

1. Permanent transfer or disposal of business assets where input tax credit has been availed on such assets.
2. Supply of goods or services or both between related persons or between distinct persons as specified in Section 25, when made in the course or furtherance of business:

---

<sup>5</sup> Effective date yet to be notified.

Provided that gifts not exceeding ₹ 50,000/-in value in a financial year by an employer to an employee shall not be treated as supply of goods or services or both.

3. Supply of goods—
- (a) by a principal to his agent where the agent undertakes to supply such goods on behalf of the principal; or
  - (b) by an agent to his principal where the agent undertakes to receive such goods on behalf of the principal.

Further the Board vide Circular No. 57/31/2018-GST dated 4.09.2018 has clarified the Scope of Principal-agent relationship in the context of Schedule I.

4. Import of services by a <sup>6</sup>person from a related person or from any of his other establishments outside India, in the course or furtherance of business.

Hence, import of services by entities which are not registered under GST (say, they are only making exempted supplies) but are otherwise engaged in business activities is taxed when received from a related person or from any of their establishments outside India.

Q5. Whether transfer of goods to another branch located outside the State is taxable?

Ans. In terms of Section 25(4) of the CGST Act, 2017, every person who is required to obtain separate registration for every branch located in different State or Union territory shall be treated as distinct persons. Accordingly, the supply of goods (stock transfers) to a branch located outside the State would qualify as supply, liable to tax in terms of clause 2 to Schedule I of the CGST Act, 2017. Further, it is important to note that, supply of goods to a branch/ unit located within the same State having separate registration would also be liable to tax since both such units (supplying unit and recipient unit) would qualify as distinct person in terms of Section 25(4).

Q6. Whether gifts given by employer to employee will also qualify as supply?

Ans. In terms of Explanation appended to Section 15, it is clarified that employer and employee will be deemed to be related persons. Accordingly, in terms clause 2 of Schedule I, gifts exceeding ₹ 50,000/- by an employer to employee will be a supply, when made in the course or furtherance of business and will be liable to tax. As, in terms of proviso to clause 2 of Schedule I, any gifts for a value not exceeding ₹ 50,000/- in a financial year will not qualify as supply and as such will not be liable to tax.

Further, as per press release dated 10.07.2017, if services are provided free of charge

to all the employees by the employer then the same will not be subjected to GST, provided appropriate GST was paid when procured by the employer. The relevant extract of aforesaid press release is as under:

*“Another issue is the taxation of perquisites. It is pertinent to point out here that the services by an employee to the employer in the course of or in relation to his employment is outside the scope of GST (neither supply of goods or supply of services). It follows therefrom that supply by the employer to the employee in terms of contractual agreement entered into between the employer and the employee, will not be subjected to GST. Further, the input tax credit (ITC) scheme under GST does not allow ITC of membership of a club, health and fitness centre [Section 17(5)(b)(ii)]. It follows, therefore, that if such services are provided free of charge to all the employees by the employer then the same will not be subjected to GST, provided appropriate GST was paid when procured by the employer. The same would hold true for free housing to the employees, when the same is provided in terms of the contract between the employer and employee and is part and parcel of the cost-to-company (C2C).”*

Q7. Whether supply of goods by principal to his agent or by agent to his principal is taxable in the absence of consideration?

Ans. In terms of Section 7 read with Schedule I, following would qualify as supply even if made without consideration:

1. Supply of goods by a principal to his agent where the agent undertakes to supply such goods on behalf of the principal; or
2. Supply of goods by an agent to his principal where the agent undertakes to receive such goods on behalf of the principal.

Q8. Whether import of services will be liable to tax under GST regime?

Ans. The following import of service will qualify as supply under the CGST Act, 2017:

1. As per Section 7, import of service for a consideration whether or not in the course or furtherance of business is a supply;
2. As per Schedule I, import of service by a taxable person, even if made without consideration, from a related person or from any of his other establishments outside India, in the course or furtherance of business.

Q9. Whether superior kerosene oil [SKO] retained for the manufacture of Linear Alkyl Benzene [LAB] exigible to GST?

Ans. In terms of Circular No. 12/12/2017-GST dated 26.10.2017, the LAB manufacturers receive superior Kerosene oil (SKO) from, a refinery, say, Indian Oil Corporation (IOC). They extract n-Paraffin (C9-C13 hydrocarbons) from SKO and return back the

remaining of SKO to the refinery. In this context, the issue has arisen as to whether in this transaction GST would be levied on SKO sent by IOC for extracting n-paraffin or only on the n-paraffin quantity extracted by the LAB manufactures. Further, whether the return of remaining Kerosene by LAB manufactures would separately attract GST in such transaction.

In this regard, Department has clarified that GST will be payable by the refinery only on the net quantity of superior kerosene oil (SKO) retained for the manufacture of Linear Alkyl Benzene (LAB). Though, refinery would be liable to pay GST on such returned quantity of SKO, when the same is supplied by it to any other person.

Q10. Whether GST leviable on inter-state transfer of aircraft engines, parts and accessories for use by their own airlines?

Ans. Yes. In terms of clause 2 of Schedule I of the CGST Act, supply of goods or services or both between related persons or between distinct persons as specified in Section 25, when made in the course or furtherance of business, even if, without consideration, attracts GST. Hence, GST will be levied on inter-State transfer of aircraft engines, parts and accessories for use by their own airlines.

Further, Circular No. 16/16/2017-GST dated 15.11.2017 also clarifies that credit of GST paid on aircraft engines, parts & accessories will be available for discharging GST on inter-State supply of such aircraft engines, parts & accessories by way of inter-State stock transfers between distinct persons as specified in Section 25 of the CGST Act, notwithstanding that credit of input tax charged on consumption of such goods is not allowed for supply of service of transport of passengers by air in economy class at GST rate of 5%.

Q11. Whether supply of books, pamphlets, brochures, envelopes, annual reports, leaflets, cartons, boxes etc., printed with design, logo, name, address or other contents supplied by the recipient of such supplies, would constitute supply of goods or supply of services?

Ans. The Government *vide Circular No. 11/11/2017-GST dated 20.10.2017* has clarified that supply of books, pamphlets, brochures, envelopes, annual reports, leaflets, cartons, boxes etc. printed with logo, design, name, address or other contents supplied by the recipient of such printed goods, are composite supplies and the question, whether such supplies constitute supply of goods or services would be determined on the basis of what constitutes the principal supply.

Printing of books, pamphlets, brochures, annual reports, and the like, where only content is supplied by the publisher or the person who owns the usage rights to the intangible inputs while the physical inputs including paper used for printing belong to the printer, supply of printing [of the content supplied by the recipient of supply] is the

principal supply and therefore such supplies would constitute supply of service falling under heading 9989 of the scheme of classification of services.

While, supply of printed envelopes, letter cards, printed boxes, tissues, napkins, wall paper etc. falling under Chapter 48 or 49, printed with design, logo etc. supplied by the recipient of goods but made using physical inputs including paper belonging to the printer, predominant supply is that of goods and the supply of printing of the content [supplied by the recipient of supply] is ancillary to the principal supply of goods and therefore such supplies would constitute supply of goods falling under respective headings of Chapter 48 or 49 of the Customs Tariff.

Q12. Whether supply by artists through galleries is leviable under GST?

Ans. In terms of *Circular No. 22/22/2017-GST dated 21.12.2017*, since art works sent to the gallery for exhibition does not involve consideration, therefore, the same is not a supply.

It is only when the buyer selects a particular art work displayed at the gallery, that the actual supply takes place and applicable GST would be payable at the time of such supply.

Q13. Whether GST will apply wherein goods are moved within the State or from the State of registration to another State for supply on approval basis?

Ans. In terms of *Circular No. 10/10/2017-GST dated 18.10.2017*, the goods which are taken for supply on approval basis can be moved from the place of business of the registered supplier to another place within the same State or to a place outside the State on a delivery challan along with the e-way bill wherever applicable and the invoice may be issued at the time of delivery of goods. For this purpose, the person carrying the goods for such supply can carry the invoice book with him so that he can issue the invoice once the supply is fructified.

Hence, all such supplies, where the supplier carries goods from one State to another and supplies them in a different State, will be inter-State supplies and attract IGST in terms of Section 5 of IGST Act. And those within the State will be exigible to CGST and SGST in terms of Section 9 of the CGST Act and SGST Act, respectively.

Q67. Enlist the activities or transactions which shall not be considered as 'supply' for GST by way of Schedule III?

Ans. Following are the activities or transactions which shall not be considered as 'supply' for GST by way of Schedule III:

1. Services by an employee to the employer in the course of or in relation to his employment.
2. Services by any Court or Tribunal established under any law for the time being in

force. Here, the term "Court" includes District Court, High Court and Supreme Court.

3. (a) the functions performed by the Members of Parliament, Members of State Legislature, Members of Panchayats, Members of Municipalities and Members of other local authorities;
- (b) the duties performed by any person who holds any post in pursuance of the provisions of the Constitution in that capacity; or
- (c) the duties performed by any person as a Chairperson or a Member or a Director in a body established by the Central Government or a State Government or local authority and who is not deemed as an employee before the commencement of this clause.
4. Services of funeral, burial, crematorium or mortuary including transportation of the deceased.
5. Sale of land and, subject to clause (b) of paragraph 5 of Schedule II, sale of building.[i.e., excluding sale of under-construction premises where the part or full consideration is received before issuance of completion certificate or before its first occupation, whichever is earlier)].
6. Actionable claims, other than lottery, betting and gambling.
7. Supply of goods from a place in the non-taxable territory to another place in the non-taxable territory without such goods entering into India.  
This will exclude from the tax net such transactions which involve movement of goods, caused by a registered person, from one non-taxable territory to another non-taxable territory.
8. (a) Supply of warehoused goods to any person before clearance for home consumption. Where warehoused goods shall have the same meaning as assigned to it in the Customs Act, 1962.
- (b) Supply of goods by the consignee to any other person, by endorsement of documents of title to the goods, after the goods have been dispatched from the port of origin located outside India but before clearance for home consumption.

This is to ensure that there is no double taxation of transactions where supply of goods occurs in the course of high sea sales and sale of warehoused goods, before clearance for home consumption. Although the *Circular No. 33 /2017-Customs dt 01-08-2017* was issued to state that IGST would be payable only once at the time of clearance of goods for home consumption.

## Tax Liability on Composite and Mixed Supplies (Section 8)

### Section 8 of the CGST Act, 2017 made applicable to IGST *vide* Section 20 of the IGST Act, 2017 and UTGST *vide* Section 21 of the UTGST Act, 2017

Q14. What is composite supply?

Ans. In terms of Section 2(30) of the CGST Act, 2017, composite supply means a supply made by a taxable person to a recipient consisting of two or more taxable supplies of goods or services or both, or any combination thereof, which are naturally bundled and supplied in conjunction with each other in the ordinary course of business, one of which is a principal supply. The illustration of composite supply appended to Section 2(30) is as follows:

Where goods are packed and transported with insurance, the supply of goods, packing materials, transport and insurance is a composite supply and supply of goods is a principal supply.

Q15. What is a principal supply?

Ans. In terms of Section 2(90) of the CGST Act, principal supply means the supply of goods or services which constitutes the predominant element of a composite supply and to which any other supply forming part of that composite supply is ancillary.

Q16. How would the tax liability be determined in case of composite supply?

Ans. In terms of Section 8 of the CGST Act, 2017, tax liability in case of composite supply should be determined with reference to the principal supply forming part of such composite supply.

Q17. What is mixed supply?

Ans. In terms of Section 2(74) of the CGST Act, mixed supply means two or more individual supplies of goods or services or any combination thereof, made in conjunction with each other by a taxable person for a single price where such supply does not constitute a composite supply. The illustration of mixed supply appended to Section 2(74) is as follows:

A supply of a package consisting of canned foods, sweets, chocolates, cakes, dry fruits, aerated drink and fruit juices when supplied for a single price is a mixed supply. Each of these items can be supplied separately and is not dependent on any other. It shall not be a mixed supply if these items are supplied separately.

Q18. How would the tax liability be determined in case of Mixed supply?

Ans. In terms of Section 8 of the CGST Act, the tax liability in case of a mixed supply shall be ascertained with reference to that particular supply which attracts highest rate of tax.

Q19. Whether food supplied to the in-patients as advised by the doctor is taxable under GST?

Ans. In terms of Para 5(3) of *Circular No. 32/06/2018-GST dated 12.02.2018*, food supplied to the in-patients as advised by the doctor/nutritionists is a part of composite supply of healthcare and not separately taxable. Other supplies of food by a hospital to patients (not admitted) or their attendants or visitors are taxable.

Q20. Whether retreading of tyres is a supply of goods or services?

Ans. In terms of *Circular No. 34/08/2018-GST dated 01.03.2018*, in retreading of tyres, which is a composite supply, the pre-dominant element is the process of retreading which is a supply of service. Rubber used for retreading is an ancillary supply. Which part of a composite supply is the principal supply, must be determined keeping in view the nature of the supply involved. Value may be one of the guiding factors in this determination, but not the sole factor. The primary question that should be asked is what is the essential nature of the composite supply and which element of the supply imparts that essential nature to the composite supply. Supply of retreaded tyres, where the old tyres belong to the supplier of retreaded tyres, is a supply of goods (retreaded tyres under heading 4012 of the Customs Tariff attracting GST @ 28%).

Q21. Whether supply of equipment and installation/commissioning of the same would constitute a composite supply?

Ans. While the recipient actually purchases the equipment, making the equipment the principal supply, the installation makes the equipment usable by the recipient. Even if, there is a separate charge for the installation of the equipment, since the service is naturally bundled and provided in the ordinary course of business, the supply would be a composite supply.

Q22. Whether supply of laptop and a carry case would constitute a composite supply?

Ans. In this case, the case only adds value to the supply of laptop and therefore, the case would be ancillary while the laptop comprises the predominant element of the supply. Even where the brand of the case is not the same as that of the laptop, and the supplier establishes that the case is naturally bundled with the laptop in the ordinary course of his business, the supply can be treated as a composite supply.

Q23. Whether supply of repair services of laptop with parts would constitute a composite supply?

Ans. As such, it is the skill and expertise of the supplier that makes the laptop function as desired. Whether replacement is necessary or a mere resetting of the existing parts restores the functionality of the laptop is not known to the customer. Where the object of the contract is unknown to the customer, that object cannot be the purpose of the

contract. The only object that is known to the customer is the 'repair service' which makes it the predominant object of supply. This would be the position even if the cost of the parts replaced is higher than the cost of service. *However, this theory can apply only where such a replacement is done in the ordinary course of the business of repairing laptops, and such a replacement is naturally bundled with the repair service.*

Q24. Which HSN code is to be used in case of composite supplies?

Ans. In case of composite supplies, the HSN code of the principal supply is to be used. [Reference to Section 8(a) of the CGST Act, 2017].

Q25. Which HSN code is to be used in case of mixed supplies?

Ans. In case of mixed supplies, the HSN of the supply that attracts the highest rate of tax is to be used. [Reference to Section 8(b) of the CGST Act, 2017].

### Levy and Collection (Section 9)

Q26. What are the taxes that are levied on an intra-State supply?

Ans. In terms of Section 9 of the CGST Act, 2017, intra-State supplies are liable to CGST. In terms of Section 9 of the SGST Act, 2017, intra-State supplies are liable to SGST. In terms of Section 7 of the UTGST Act, 2017, intra-State supplies effected by a taxable person located in Union Territory (within the Union Territory) will be liable to UTGST. Therefore, in case of intra-State supplies in case of State or Union Territory, CGST and SGST or CGST and UTGST will be applicable respectively.

Q27. How to ascertain the taxable value for levy of CGST & SGST/UTGST?

Ans. Section 15 of the CGST Act, 2017 specifies that the value of supply of goods or services or both shall be the transaction value, which is the price actually paid or payable for the said supply of goods or services or both where the supplier and the recipient of the supply are not related, and the price is the sole consideration for the supply. Further, Section 15 provides for certain inclusions which will form part of the value viz., incidental expenses, commission, interest, penalty etc. In cases where the supplier and recipient are related persons or where the price is not the sole consideration, the provisions and method for ascertaining the value of taxable supply as prescribed in the Central Goods and Services Tax Rules ("the CGST Rules" or "the CGST Rules, 2017") (Rules 27 – 35) shall apply.

Q28. What is the rate of tax applicable on intra-State supplies?

Ans. The applicable rate of tax on intra-State supply of services has been majorly provided under Notification No. 11/2017-Central Tax (Rate), dated 28.06.2017 and rate on intra-State supply of goods has been provided under Notification No. 01/2017-Central

Tax (Rate), dated 28.06.2017 [with 3 corrigendum dated 30.06.2017, 12.07.2017 and 27.07.2017] respectively as amended from time to time.

It is pertinent to mention here that:

- Notification No. 12/2017-Central Tax (Rate) dated 28.06.2017 exempts intra-State supplies of certain services over certain specified percentage subject to certain conditions [Though till date, rate specified and condition stipulated in notification is NIL]

Ans. Generally, the person effecting taxable supplies is liable to pay taxes. However, following are certain exceptions:

In this regard, the Central Government *vide Notification No. 04/2017-Central Tax (Rate) dated 28.06.2017 read with Notification No. 36/2017-Central Tax (Rate) dated 13.10.2017, Notification No. 43/2017-Central Tax (Rate) dated 14.11.2017 and Notification No. 11/2018–Central Tax (Rate) dated 28.05.2018* specifies the supply of goods which are liable to CGST under Reverse Charge Mechanism (“RCM”).

Further, *Notification No. 13/2017-Central Tax (Rate) dated 28.06.2017 read with Notification No. 22/2017-Central Tax (Rate) dated 22.08.2017, Notification No. 33/2017-Central Tax (Rate) dated 13.10.2017, Notification No. 03/2018–Central Tax (Rate) dated 25.01.2018 and Notification No. 15/2018–Central Tax (Rate) dated 26.07.2018* specifies the supply of services which are liable to CGST under RCM.

Further, <sup>9</sup>Section 9(4) of the CGST Act *inter alia* provides that, the Government may, on the recommendations of the Council, by notification, specify a class of registered persons who shall, in respect of supply of specified categories of goods or services or both received from an unregistered supplier, pay the tax on reverse charge basis as the recipient of such supply of goods or services or both. However, *Notification No. 22/2018-Central Tax (Rate) dated 06.08.2018* exempts intra-State supply of goods or services or both, received by registered person from an un-registered dealer from whole of the integrated tax under section 9(4) till 30<sup>th</sup> September 2019.

Furthermore, Import of service will be taxable in the hands of the recipient i.e., importer.

Q30. Whether the tax on intra-State supplies is applicable to every supply?

Ans. No, Section 9(1) of the CGST Act, which is the charging provision for levy and collection of tax on intra-State supplies, excludes supply of alcoholic liquor for human consumption. Further, in terms of Section 9(2), tax on supply of petroleum crude, high speed diesel, motor spirit, natural gas and aviation turbine fuel shall be levied with effect from such date as may be notified by the Government on the recommendations of the Council. Accordingly, supply of alcoholic liquor for human consumption is not liable to tax under the CGST Act, 2017.

Q31. Whether CGST and SGST/ UTGST is applicable on import of goods or services or both?

Ans. In terms of Section 7 of the IGST Act, 2017, import of goods or services or both shall be treated to be a supply in the course of inter-State trade or commerce. Accordingly, tax under the provisions of IGST Act shall apply on import of services. Further, proviso to Section 5(1) of the IGST Act states that IGST on goods imported into India shall be levied and collected in accordance with the provisions of Section 3 of the Customs Tariff Act, 1975 on the value as determined under the said Act.

## Reverse Charge

Q32. What does the payment of tax under reverse charge mean?

Ans. In terms of Section 2(98) of the CGST Act, the term reverse charge means the liability

to pay tax by the recipient of supply of goods or services or both instead of the supplier of such goods or services or both under Section 9(3) or 9(4) of the CGST Act, 2017 or under Section 5(3) or 5(4) of the IGST Act, 2017.

Q33. What are the different types of supplies which are liable to tax under RCM?

Ans. As per Section 9 of the CGST Act, 2017, there are two types of supplies which are liable to tax under RCM: -

1. As per section 9(3), specified categories of supply of goods or services or both as notified by Government on recommendations of the Council are liable to tax under reverse charge mechanism. The Government has notified category of goods that attracts reverse charge liability *vide Notification No. 04/2017-Central Tax (Rate) dated 28.06.2017 amended vide Notification No. 36/2017-Central Tax (Rate) dated 13.10.2017, Notification No. 43/2017-Central Tax (Rate) dated 14.11.2017 and Notification No. 11/2018-Central Tax (Rate) dated 28.05.2018.* Category of services that attracts reverse charge liability are notified *vide Notification No. 13/2017-Central Tax (Rate) dated 28.06.2017 amended vide Corrigendum dated 25.09.2017, Notification No. 22/2017-Central Tax (Rate) dated 22.08.2017, Notification No. 33/2017-Central Tax (Rate) dated 13.10.2017, Notification No. 03/2018-Central Tax (Rate) dated 25.01.2018 and Notification No. 15/2018-Central Tax (Rate) dated 26.07.2018.*

As per <sup>10</sup>section 9(4) of the CGST Act provides that, the Government may, on the recommendations of the Council, by notification, specify a class of registered persons who shall, in respect of supply of specified categories of goods or services or both received from an unregistered supplier, pay the tax on reverse charge basis as the recipient of such supply of goods or services or both, and all the provisions of the CGST Act shall apply to such recipient as if he is the person liable for paying the tax in relation to such supply of goods or services or both.

However, before this amendment, as per Section 9(4) supply of taxable goods or services or both by an unregistered supplier to a registered person are liable to tax under RCM. Further, *vide Notification No. 08/2017-Central Tax (Rate) dated 28.06.2017 with effect from 01.07.2017* the supplies made by unregistered suppliers to a registered person were exempted, if the aggregate value of such supplies does not exceed ₹ 5,000/- in a day. Thereafter, *vide Notification No. 38/2017-Central Tax (Rate), dated 13.10.2017*, RCM was deferred till 31<sup>st</sup> March,2018 without any threshold limit and then subsequently it was further extended till 30<sup>th</sup> June,2018 *vide Notification No. 12/2018-Central Tax (Rate), dt. 29-06-2018* and thereafter again extended till 30<sup>th</sup> September,2019 *vide Notification No. 22/2018-Central Tax (Rate) dated 06.08.2018.*

---

<sup>10</sup> Effective date yet to be notified.

2. Exemption to recipients from application of Section 9(4) who are not liable to be registered otherwise than Section 24(vi) (as a tax deductor) is provided *vide Notification No. 09/2017-Central Tax (Rate) dated 28.06.2017*.
3. Exemption to registered taxpayers is provided from application of Section 9(4) who are engaged in outward supply of second hand goods in terms of Rule 32(5) *vide Notification No. 10/2017-Central Tax (Rate) dated 28.06.2017*.

Q34. Is it lawful to collect tax from recipient of supply on reverse charge basis?

Ans. Yes, as long as the tax is on the subject of levy, the Government is free to collect this tax from any person – either the supplier or the recipient or anyone else. Even a third party can be called upon to deposit the tax provided there is some nexus such as collection of payment for the supply between two other persons.

Q35. Should tax payable on reverse charge basis be reduced from the value of the supply?

Ans. Contractually if tax is not included in the price payable towards the supply, then tax payable on reverse charge basis cannot be reduced from the value of supply that is paid to the supplier. And if included, then due effect to this understanding must flow by making the deduction from the payment.

Q36. What is the effect of reverse charge on input tax credit?

Ans. As regards the recipient who pays tax on reverse charge basis, tax so paid would be available as credit subject to Section 17 of the CGST Act, 2017. As regards the supplier whose tax is paid by the recipient, value of such supply will be treated as '*exempt supply*' while applying Section 17(2) of the CGST Act, 2017 on all the credits availed.

Q37. What is the difference between reverse charge under Section 9(3) and under Section 9(4) of the CGST Act, 2017?

Ans. The Government has notified a list of goods and services along with the type of recipient who is liable to pay tax on those supplies covered under reverse charge as per Section 9(3). If the goods or the services are not listed or the recipient is not notified, then reverse charge does not apply. For example, tax in respect of services of advocate availed by a business entity is payable on reverse charge basis. If the recipient is a religious trust which means it is not a business entity, reverse charge is not applicable.

Whereas, as per <sup>11</sup>section 9(4) of the CGST Act, the Government may notify a class of registered persons who shall be liable to payment of tax on reverse charge basis, in respect of supply of specified categories of goods or services or both received from an unregistered supplier,

---

<sup>11</sup> Effective date yet to be notified.

However, the supplies made by unregistered suppliers to a registered person are exempted without any threshold limit till 30.09.2019 *vide Notification No. 22/2018-Central Tax (Rate) dated 06.08.2018.*

Q38. Is reverse charge applicable after supply or on payment of advance?

Ans. Reverse charge is applicable when there is a supply and the time of supply is determined by Section 12 or Section 13 of the CGST Act. Reverse charge is applicable at the time of advance even though actual supply is yet to take place. Section 31(3)(g) read with Rule 52 of the CGST Rules provides for the issuance of a Payment Voucher at the time of making payment to the supplier in cases where registered person is liable to pay tax on reverse charge basis.

Q39. What are the implications if, supplier charges GST on the invoice though reverse charge is applicable?

Ans. Recipient is free to reduce the GST charged from the value of invoice and pay only the net amount but liable to discharge the reverse charge obligation separately.

Q40. What are implications to supplier if recipient refuses to pay tax on reverse charge?

Ans. There is no recourse back to the supplier in case of default by recipient to discharge reverse charge liability.

Q41. In case supplier has paid GST which was payable by recipient on reverse charge, is recipient discharged from the liability to pay tax on reverse charge?

Ans. No, even if supplier has somehow paid tax, reverse charge liability must be discharged by the recipient.

Q42. Is GST wrongly paid by supplier available as input tax credit (ITC) to recipient? [In case of Reverse Charge]

Ans. No, GST wrongly paid by supplier cannot be claimed as input tax credit (ITC) by recipient in case of supply reported in FORM GSTR-1 as "*Supplies attracting tax on reverse charge basis*". However, the supplier can claim for refund of tax wrongly paid.

Q43. Is condition to pay supplier within 180 days applicable to supplies covered by reverse charge?

Ans. No, second proviso to Section 16(2) of the CGST Act requiring the recipient to make payment towards the value of supply along with tax payable thereon within a period of 180 days does not apply to supplies on which tax is payable on reverse charge basis.

Q44. Is reverse charge applicable on supply of goods also or is it only on supply of services?

Ans. Payment of tax on reverse charge is applicable on goods also. Notification No. 04/2017-Central Tax (Rate), Notification No. 04/2017-Integrated Tax (Rate) and Notification No.

04/2017-Union Territory Tax (Rate), all dated 28.06.2017 as amended from time to time may be referred.

Q45. Explain effect of Section 23 of the CGST Act in relation to reverse charge?

Ans. Persons specified in Section 23 are excluded from registration. If such persons are receiving inward supplies liable to tax on reverse charge basis under Section 9(3), they will be liable to get registered in terms of Section 24 and comply with other requirements of law. But, if such persons do not attract Section 9(3), then they can remain unregistered and therefore not attract Section 9(4) too.

Q46. In case supplier eligible to threshold exemption, is reverse charge applicable?

Ans. Supplier may not have paid tax due to threshold benefit but this does not excuse registered recipient from liability under Section 9(4) which is attracted if 'supplier is not registered' without inquiring into the reasons for such non-registration.

Q47. In case supplier is under composition and no tax appears on invoice, is reverse charge attracted under Section 9(4) of the CGST Act?

Ans. Though no tax appears on the invoice, the supplier is nevertheless registered. Hence, Section 9(4) is not attracted.

Q48. If all the supplies of a person are under reverse charge mechanism, can such person not register under the Act although the aggregate turnover is exceeding the prescribed limit?

Ans. It is not necessary for the supplier to take registration since the Notification No. 05/2017-Central Tax dated 19.06.2017 exempts persons subject to reverse charge under Section 9(3) from registration if they are engaged only in making taxable supplies on which tax is payable by the recipient. For Example: - In case of an independent director providing services, and his only income is from independent directorship (or such other services covered under RCM) to the company, in this case the director won't be required to take registration.

Q49. M/s XYZ Pvt. Ltd. imported some goods on which it was liable to pay GST under reverse charge. While the goods were lying at port, goods were lost or destroyed due to some natural disaster. In this case will it be liable to GST?

Ans. In case of natural disaster or loss, no import duty is levied, therefore no GST will be applicable.

Q50. M/s XY Ltd. is not registered under GST. The company avails the rent-a-cab service for its employees. Whether M/s XY Ltd. will be considered as taxable person under GST?

Ans. No

1. <sup>15</sup>Save as provided in Section 10(1), he is not engaged in the supply of services - This is a consequential amendment, as a new proviso is being added to section 10(1) to provide that a person who opts to pay tax under composition scheme may supply services (other than restaurant services), of value not exceeding 10% of turnover in a State or Union territory in the preceding financial year or Rs. 5 lakh, whichever is higher.

To clarify further, if a taxable person has multiple business verticals and if he has opted for separate registrations for each such vertical, composition scheme would become applicable for all the business verticals and it cannot be applied for selected verticals only.

e.g.: If a taxable person has the following businesses separately registered: Sale of footwear (Registered in Karnataka), Sale of mobiles (Registered in Karnataka), Franchisee of McDonalds (Registered in Kerala). In the above scenario, the composition scheme would be applicable for all the 3 units. Taxable person will not be eligible to opt for composition scheme say for sale of footwear and sale of mobiles and opt to pay taxes under the regular scheme for franchisee of McDonalds.

9. the goods held in stock by him on the appointed day have not been purchased in the course of inter-State trade or commerce or imported from a place outside India or received from his branch situated outside the State or from his agent or principal outside the State, where the option is exercised under Rule 3(1) of the CGST Rules;

In this case, the option to pay tax under composition scheme shall be effective from the appointed date. This date has further been extended to 16th August 2017. Such person would be required to file stock statement under Rule 3(4) in **FORM GST CMP-03** within a period of 90 days (extended from 60 days to 90 days by Notification No. 22/2017–Central Tax w.e.f.17.08.2017) from the date on which the option for composition levy is exercised or within such further period as may be extended by the Commissioner in this behalf.

- (c) **Taxable Person paying tax under normal levy in one financial year and wants to opt for composition scheme in next financial year, under the GST regime** : Such option can be exercised by filing intimation in **FORM GST CMP 02** prior to commencement of the year for which the option to pay tax under composition scheme is exercised. In this case, the option to pay tax under composition scheme shall be effective from the beginning of the financial year. Moreover, provisions of Section 18(4) shall become applicable and person shall be required to file statement containing details of stock and inward supply of goods received from un-registered persons, held in stock, on the date immediately preceding the date from which he opts for composition levy, in **FORM GST ITC 03** within 60 days from the commencement of the relevant financial year. [Refer Rule 3(3) of CGST Rules].The option exercised by a

registered person to pay tax under composition scheme is valid as long as the conditions stipulated in GST law to avail such scheme are complied with or option withdrawn by the assessee or proper officer has reasons to believe that the registered person was not eligible to pay tax under section 10 or has contravened the provisions of the Act or Chapter on Composition scheme in the CGST Rules.

- (d) **A new sub-rule (3A) was inserted** vide Notification No. 34/2017-Central Tax dated 15.09.2017 which had an overriding effect on provisions of sub-rule (1), (2) and (3). As per the said rule, it was provided that, in all cases involving (a), (b) and (c) above, the option of composition scheme can be obtained only from 01.10.2017 by filing application in **FORM CMP-02** and furnishing stock statements in **FORM GST ITC-03**, within 90 days from 01.10.2017.

Since, this was not the intended interpretation of the said amendment, sub-rule 3A was once again amended *vide Notification No. 45/2017–Central Tax dated 13.10.2017*. By making the said amendment, the government clarified that, sub-rule 3A was intended to cover those cases, where either at the time of migration or by taking registration under GST if any person who has availed normal scheme wishes to opt for composition scheme, then such person may opt for composition scheme under Section 10 with effect from the first day of the month immediately succeeding the month in which he files an intimation in **Form GST CMP-02** on or before 31.03.2018. In this case, such person would be required to furnish stock statements in **FORM GST ITC-03** within 180 days from the day on which such person commences to pay tax under Section 10. It may be noted that, the purpose of rule (3A) is only to enable the persons to opt for composition scheme in the first year of GST implementation, without making them to wait up to the next financial year. This is on account of the fact that, the threshold limit for the purposes of composition scheme under Section 10 was enhanced twice i.e. once on 27.06.2017 and then again on 13.10.2017. Hence, Rule 3(3A) would only cover cases, where the application is made prior to 31.03.2018. For all applications made after 31.03.2018, the matter would be governed by Rule 3(3) above.

# Classification and Exemption

### FAQ's

#### Classification of Goods or Services

Q1. Why do we need to determine classification of supply and how?

Ans. Classification of Supply is required to determine the rate of supply-

In order to apply a particular rate of tax, a taxable person need to determine the classification of his supply as to whether supply constitute a supply of goods or services. Once the same is determined, further classification in terms of HSN in case of goods and SAC in terms of service is to be made by the assessee so as to arrive at the rate of tax at which he is required to pay tax. At the outset, it is important to note that HSN for goods are contained in Chapters 1 to 98 and HSN for Services are contained in Chapter 99. Since Classification of Goods is older and is based on knowledge gathered from precedents on HSN classification, we shall discuss the steps for classification of goods. The steps for determination of proper classification is as under:

1. It is important to note that classification of each product supplied has to made separately if supply of such product is independent. This shall include all by products, scraps etc.
2. Identify the description and nature of the goods being supplied. One must confirm that the product is also similarly or more specifically covered in the Customs Tariff. The Section, Notes and Chapter Notes to the Schedule to be read.
3. If there is ambiguity, first reference shall be made to the Rules for interpretation of the Customs Tariff, which are:
  - Rule 1: heading are for reference only and do not have statutory force for classification
  - Rule 2(a): reference to an article in an entry includes that article in CKD-SKD condition
  - Rule 2(b): reference to articles in an entry includes mixtures or combination
  - Rule 3(a): where alternate classification available, specific description to be preferred
  - Rule 3(b): rely on the material that gives essential character to the article
  - Rule 3(c): apply that which appears later in the tariff

- Rule 4: examine the function performed that is found in other akin goods
- Rule 5: cases-packaging are to be classified with the primary article
- Rule 6: when more than one entries are available, compare only if they are at same level

Q2. How will you classify supply of goods or services under GST?

Ans. GST law does not contain a commodity classification tariff but notification prescribing the rate of tax itself specifies the approach that is to be followed for purposes of classification, namely:

- in respect of goods, the notification requires reference to be had to the first Schedule to Customs Tariff Act, 1975; and
- in respect of services, the notification requires reference to be had to the Annexure which contains the Scheme of Classification. Explanatory notes to the scheme of classification of services is also available at [http://www.cbic.gov.in/resources//htdocs-cbec/gst/Explanatory\\_notes.pdf](http://www.cbic.gov.in/resources//htdocs-cbec/gst/Explanatory_notes.pdf)

Q5. How will supply of Cut pieces of Fabrics be classified under GST?

Ans. Mere cutting and packing of fabrics into pieces of different lengths from bundles or thans, will not change the nature of these goods and such pieces of fabrics would continue to be classifiable under the respective heading as the fabric and attract 5% GST rate.

Further, Fabrics are classifiable under Chapters 50 to 55 of the First Schedule to the Customs Tariff Act, 1975 on the basis of their constituent materials and attract a uniform GST rate of 5% with no refund of the unutilized input tax credit. However, as per Notification No. 20/2018-Central Tax (Rate) and Notification No. 21/2018-Integrated Tax (Rate) both dated 26-07-2018, the refund of unutilized ITC will be allowed with effect from 1<sup>st</sup> August 2018. Q7. What is the applicable rate of GST on activity of bus body building?

Ans The Government *vide Circular No.52/26/2018-GST dated 9-08-2018* has provided the following clarification Buses [motor vehicles for the transport of ten or more persons, including the driver] fall under headings 8702 and attract 28% GST. Further, chassis fitted with engines [8705] and whole bodies (including cabs) for buses [8707] also attract 28% GST. In this context, it is mentioned that the services of bus body fabrication on job work basis attracts 18% GST on such service [9988]. Thus, fabrication of buses may involve the following two situations:

- a) Bus body builder builds a bus, working on the chassis owned by him and supplies the built-up bus to the customer, and charges the customer for the value of the bus.
- b) Bus body builder builds body on chassis provided by the principal for body building, and charges fabrication charges (including certain material that was consumed during the process of job-work).

In the above context, it is hereby clarified that in case as mentioned at Para (a) above, the supply made is that of bus, and accordingly supply would attract GST @28%. In the case as mentioned at Para (b) above, fabrication of body on chassis provided by the principal (not on account of body builder), the supply would merit classification as service, and 18% GST as applicable will be charged accordingly.

Further, as per HSN Explanatory Notes, milk enriched with vitamins and minerals is classifiable under HSN code 0401. Thus, it is clarified that toned milk fortified (with vitamins 'A' and 'D') attracts NIL rate of GST under HSN code 0401.

Q9. What is the applicable GST rate on refined beet and cane sugar?

Ans: Vide S. No. 91 of Schedule I of Notification No. 1/2017-Central Tax (Rate) dated 28-06-2017, 5% GST rate has been prescribed on all kinds of beet and cane sugar falling under heading 1701. Doubts have arisen in view of S. No. 32 A of the Schedule II of notification No. 1/2017-Central Tax (Rate) dated 28-06-2017, which prescribes 12% GST rate on "All goods, falling under tariff items 1701 91 and 1701 99 including refined sugar containing added flavouring or colouring matter, sugar cubes (other than those which attract 5% or Nil GST)".

It is clarified that by virtue of specific exclusion in S. No. 32 A, any sugar that falls under 5% category [at the said S. No. 91 of Schedule I of Notification No.1/2017-Central Tax (Rate) dated 28-06-2017] gets excluded from the S. No. 32 A of Schedule II. As all kinds of beet and cane sugar falling under heading 1701 are covered by the said entry at S. No. 91 of Schedule I, these would get excluded from S. No. 32 A of Schedule II, and thus would attract GST @ 5%.

Accordingly, it is clarified that beet and cane sugar, including refined beet and cane sugar, will fall under heading 1701 and attract 5% GST rate.

Q10. What is the applicable rate of GST on supply of safe drinking water for public purpose?

Ans: Attention is drawn to the entry at S. No. 99 of Notification No. 2/2017-Central Tax (Rate) dated 28-06-2017, by virtue of which water [other than aerated, mineral, purified, distilled, medicinal, ionic, battery, de-mineralized and water sold in sealed container] falling under HS code 2201 attracts NIL rate of GST.

Accordingly, supply of water, other than those excluded from S.No. 99 of Notification No. 2/2017-Central Tax (Rate) dated 28-06-2017, would attract GST at "NIL" rate. Therefore, it is clarified that supply of drinking water for public purposes, if it is not supplied in a sealed container, is exempt from GST.

Q11. What is the applicable GST rate on Human Blood Plasma?

Ans: Plasma is the clear, straw colored liquid portion of blood that remains after red blood cells, white blood cells, platelets and other cellular components have been removed. As per the explanatory notes to the Harmonized System of Nomenclature (HSN), plasma would fall under the description antisera and other blood fractions, whether or not modified or obtained by means of biotechnological processes and would fall under HSN code 3002.

Normal human plasma is specifically mentioned at S. No. 186 of List I under S. No. 180 of Schedule I of the Notification No. 1/2017-Central Tax (Rate) dated 28-06-2017, and

attracts 5% GST. Other items falling under HS Code 3002 (including plasma products) would attract 12% GST under S. No. 61 of Schedule II of the said Notification, not specifically covered in the said List I.

Thus, a harmonious reading of the two entries would mean that normal human plasma would attract 5% GST rate under List I (S. No. 186), whereas plasma products would attract 12% GST rate, if otherwise not specifically covered under the said List.

### **Power to Grant Exemption from Tax (Section 11)**

Q12. Whether Council has powers to grant exemption from payment of taxes?

Ans. No, the power to grant exemption is vested with the Government. In other words, the Government by notification on the recommendations of the Council may grant exemption from tax generally, either absolutely or subject to such conditions as may be notified from the whole or any part of the tax leviable thereon.

### **Exemption - General FAQ's**

Q13. Does exemption from CGST automatically operate as exemption from SGST?

Ans. Yes, notification issued under section 11(1) or 11(2) of the CGST Act will be deemed to be issued under the SGST Act / UTGST Act, reference can be taken from section 11(4) of SGST Act and section 8(4) of UTGST Act.

Q14. Does exemption from IGST automatically operate as exemption from CGST?

Ans. No, there is no such correlated sections in the two Acts. Separate exemption notification is required to the extent relevant under IGST Act.

Q15. Does exemption from IGST automatically operate as exemption from GST on imports?

Ans. Yes, as GST on import of goods is levied under proviso to section 5(1) of IGST Act which provides that IGST will be levied 'at the point' when customs duties are leviable. Accordingly, to determine the IGST applicable under section 3(7) of Customs Tariff Act, reference must be made to the IGST rate prevailing on the date of levy of such IGST. Hence, any exemption issued under IGST Act will apply to import of goods.

Q16. Is it possible for SGST to be exempted but not CGST for any supply?

Ans. Yes, it is possible since exemption in SGST Act does not apply to CGST Act. As a corollary, please also refer to Q13.

Q17. Exemption applies from date of notification or date of publication of notification?

Ans. Exemption notifications will apply from the date of publication of the same or any special start date specified in the said notification as the effective date.

Q18. Is exemption applicable for entire HSN code or not?

Ans. Exemption issued will make specific reference to HSN code along with description of the goods to be exempted. Exemption must be jointly read so as to apply to the goods described and falling within the specific HSN code. Other goods that may also be classified in the same HSN but not matching the description will not enjoy the exemption.

Q19. What is the effect of violating condition of exemption?

Ans. In case of violation, exemption will stand withdrawn and consequences of non-conformance with conditions will follow and from the date when the said departure occurred.

Q20. What is the effect of mistaken claim of exemption?

Ans. GST applicable will be recovered with benefit of ITC available only to the limited extent of the time available within section 16(4) when this mistake is realized. There is no estoppel that ITC must be availed because claim of credit is through the return filed under section 39 (section 16(2) refers) and not from the receipt of tax paid supplies.

Q21. What is the effect of omitting to avail exemption?

Ans. GST would have been charged, collected and deposited along with claim of ITC. If the exemption was absolute, explanation to section 11 makes it clear that the exemption must be availed. In case of omission to avail exemption, the tax charged and collected being '*in the name of GST*' is liable to be paid to the Government under section 76. More importantly, the ITC availed in error will also be denied. Please note the double-impact of this omission.

Q22. What is the difference between exemption and exclusion from GST?

Ans. Exemption is where tax is leviable but exempted from the payment of the tax. Exclusion from GST is stating that GST will not apply either by treating it neither as supply of goods nor as services or by excluding it from section 9.

Q23. What is implication of exemption becoming available due to Court interpretation?

Ans. If a *bona fide* belief about availability of exemption is reversed by a Court, then tax charged and collected from customer must be paid and the ITC availed, discovered to be in error, will also be recoverable. In the interest of equity, the Courts may need to interfere and avoid this double impact.

Q24. What is implication of mistake by taxable person and tax department about exemption?

Ans. When both the taxable person and tax department have made a mistake, the same consequences will flow, that is, rightful amount of tax will be demanded along with ITC, subject to 16(4). Although equity demands that a suitable remedy be provided which is not yet available.

- Q25. How to interpret meaning of an article in an exemption notification?
- Ans. An article in an exemption notification may be interpreted by reference to the Rules of Interpretation of Customs Tariff if the notification permits. If not, the article must be interpreted based on principle emanating from judicial decisions.
- Q26. Where do we find exemption for high sea sales?
- Ans. All import of goods are liable to IGST under the Customs Act for determination of the liability. Government vide Circular No. 33 /2017-Customs dt 01-08-2017 has clarified that IGST on high sea sale (s) transactions of imported goods, whether one or multiple, shall be levied and collected only at the time of importation i.e. when the import declarations are filed before the Customs authorities for the customs clearance purposes for the first time. Further, value addition accruing in each such high sea sale shall form part of the value on which IGST is collected at the time of clearance
- Hence, IGST will be levied at '*the point*' when bill of entry for home consumption is filed and in case of high sea sales, such bill of entry is filed only by the final recipient.
- Q27. Are words used in exemption notification exactly the same as used in Schedules to Notification 1/2017 -Central Tax (Rate) dated 28-06-2017?
- Ans. No, they are not exactly same. The words used in exemption notification may be understood exactly as stated in exemption notification. Any reliance on the schedule to Notification 1/2017 -Central Tax (Rate) dated 28-06-2017 is permissible if:
- (i) the exemption notification expressly states that reference may be had to the schedule or
  - (ii) the words in exemption notification are exactly same as the words in the schedule or
  - (iii) the words in exemption notification appear to require reliance on the words in schedule or
  - (iv) there is nothing the exemption notification to indicate deviation from the understanding of the words in the schedule.
- If none of these circumstances exist, then the exemption notification must be interpreted strictly as per its own words and no other (BMW AAR/12-Cus. 2005)
- Q28. Where is the entire scope of an entry provided in detail?
- Ans. Scope of an entry is to be found by referring to First Schedule to the Customs Tariff Act in case of goods and Service Classification Scheme in case of services read with Explanation Statement.
- Q29. Why GST rate is first notified and then another notification issued granting exemption?
- Ans. Rate of GST is required to prescribe the applicable tax and then exemption would be to derive the effective rate at which tax is to be discharged.

Q30. Does value reduction allowed in the CGST Rules amount to exemption? Whether it affect input tax credit (ITC) under section 17(2)?

Ans. Valuation adjustments prescribed either in the CGST Rules or in any Rate Notification will not affect ITC because ITC adjustment is only possible under section 17(2) read with the expanded definition of exempt supply under 17(3).

### **Exemptions on Supply of Goods**

Q31. Is supply of exempt goods considered taxable or non-taxable supply?

Ans. Supply of exempt goods is not the same as non-taxable goods. If only exempt goods are supplied, then registration requirement under section 22 stands overruled by section 23. And in view of the credit restriction in 17(2), exempt goods do not enjoy any unmerited advantage. Non-taxable goods means goods that are not leviable to GST such as alcoholic liquor and five petro-products. But existence of exemption itself indicates that there was a levy of tax, but the exemption granted.

Q32. Whether Petrol is exempted goods or non-taxable goods?

Ans. Five petroleum products i.e., petroleum crude, high speed diesel, motor spirit, natural gas and aviation turbine fuel are excluded from levy for the time being and as such petrol is non-taxable good.

Q33. Is alcohol (human consumption) exempted goods?

Ans. Yes, alcohol is exempted goods though it is not leviable to tax. It is required to treat all goods whether non-leviable or leviable-but-non-taxable, to be classified as exempt goods in order to restrict input tax credit.

Q34. Even within the same HSN code, why are certain goods exempt from GST?

Ans. This is because exemption is sought to be extended only to a small sub-set of goods within that HSN heading.

Q35. Exemption to food products states 'fresh or chilled', does it apply if 'frozen'?

Ans. No, it does not apply to 'frozen'. Freezing is a deliberate process of rapid cooling to preserve the product for an unnaturally long duration of time. Exemption that is to be allowed for normal storage duration is identified by attaching such a qualification – fresh or chilled but not frozen.

Q36. What does 'goods of seed quality' mean?

Ans. Seeds are those parts of the plant that can germinate without debris, without infections and give rise to another plant of same species and sold ultimately to farmers. The seeds are often consumed. In order to differentiate between grain that is not suitable for germination or not intended for germination, exemption entries qualify the grain with the

words 'of seed quality'. Putting them through any process such as drying, frying, etc., permanently impairs their capacity to germinate. So, the key test would be to examine 'preservation of capacity to germinate' while admitting if the goods are 'seed quality' or not.

Q37. Why are exemptions to fruits and vegetables given HSN chapter-wise instead of blanket exemption?

Ans. Since HSN based classification is adopted, exemption must be clearly provided so that even minor differences do not cause distortion in the scope of any exemption. For example, leguminous vegetables may need to be exempted when dried and supplied but other vegetables may need to be exempted when they are fresh or chilled.

Q38. Why are there repetitions of similar nature of articles?

Ans. There is no repetition except where there is a variation in the form in which it is being presented – fresh or dried – and in case where exemption is to be extended only in certain forms. In case any repetition is noted, it only requires more careful consideration of the scope and coverage of each entry and identify their differences and its implications.

Q39. Why is Rupee note exempted, it is already excluded from definition of goods and services?

Ans. Rupee note is money which is neither goods nor services but when the Government Press supplies currency notes to (say) RBI, there is a supply and tax needs to be discharged. Printing of currency is a taxable supply of the paper and ink but not of the currency. Rupee note is issued by Government of India and not by Reserve Bank.

Q40. Are University text books exempted?

Ans. Exemption is granted to printed books [sl.no.119 of 2/2017-CT] and this would cover University books.

Q41. What about articles not listed under exemption entry 148, 'puja samagri' ?

Ans. Articles given for consumption or adornment (food or flower) are exempted. But, various articles are also given after oblation to be worn or tied or carried along. These are not exempted due to the nature of the article and the limited extent when it qualifies as supply. Articles used for worship will be puja samagri but general articles that are occasionally used in a worship will not enjoy this exemption. For example, candles used in a Church will not enjoy this exemption but, vermilion will be puja samagri because it is only used for worship.

Q42. If Mr X gets his house constructed on a vacant land, whether such construction is eligible for exemption under GST?

Ans. Yes, construction in the instance case, qualifies as original work so exempt by virtue of S No.11 of exemption *Notification No. 12/2017-Central Tax (Rate) dated 28-06-2017* provided it is a single residential unit and not a multi-dwelling residential accommodation. Please note this exemption applies only if it is 'only labour' (pure service only) and not 'material plus labour' contract.

Q43. Whether GST is applicable on warehousing of agricultural produce such as tea (i.e. black tea, white tea etc.), processed coffee beans or powder, pulses (de-husked or split), jaggery, processed spices, processed dry fruits, processed cashew nuts etc.?

Ans.

Notification No. dated 28.06.2017	Serial No.	Notification No. dated 28.06.2017	Serial No.
11/2017-Central Tax (Rate)	24	8/2017-Integrated Tax (Rate)	24
12/2017-Central Tax (Rate)	54	9/2017-Integrated Tax (Rate)	54

Pursuant to aforesaid Notification, the GST rate on loading, unloading, packing, storage or warehousing of agricultural produce is Nil.

Further, agricultural produce mean "any produce out of cultivation of plants and rearing of all life forms of animals, except the rearing of horses, for food, fibre, fuel, raw material or other similar products, on which either no further processing is done, or such processing is done as is usually done by a cultivator or producer which does not alter its essential characteristics but makes it marketable for primary market"

Since processed products such as tea (i.e. black tea, white tea etc.), processed coffee beans or powder, pulses (dehusked or split), jaggery, processed spices, processed dry fruits, processed cashew nuts etc. fall outside the definition of agricultural produce, the exemption from GST is not available to their loading, packing, warehousing etc. and thereby they are exigible to GST.

Q44. Is supply of safe drinking water for public purpose is exempt.?

Ans As per the entry at S. No. 99 of Notification No. 2/2017-Central Tax (Rate) dated 28.06.2017, by virtue of which water [other than aerated, mineral, purified, distilled, medicinal, ionic, battery, de-mineralized and water sold in sealed container] falling under HS code 2201 attracts NIL rate of GST.

## Exemptions on Supply of Services

Q45. Whether GST leviable on General Insurance policies provided by a State Govt. to employees of the State Govt./ Police personnel, employees of Electricity Department or students of colleges/ private schools etc.

- (a) where premium is paid by State Govt. and
- (b) where premium is paid by employees, students etc.?

Ans. Yes. The Government vide Circular No. 16/16/2017-GST dated 15.11.2017 has clarified that:

- Services provided to the Central Govt., State Govt., Union territory under any insurance scheme for which total premium is paid by the Central Govt., State Govt., Union territory are exempt from GST under Sl. No. 40 of *Notification No. 12/2017-Central Tax (Rate) dated 28.06.2017*/ Sl. No. 41 of *Notification No. 9/2017-Integrated Tax (Rate) dated 28.06.2017*
- Services provided by State Government by way of general insurance (managed by government) to employees of the State government/ Police personnel, employees of Electricity Department or students are exempt vide entry 6 of *Notification No. 12/2017-Central Tax (Rate) dated 28.06.2017*/ Sl. No. 6 of *Notification No. 9/2017-Integrated Tax (Rate) dated 28.06.2017*, which exempts Services by Central Government, State Government, Union territory or local authority to individuals.

Q46. Whether custom milling of paddy by Rice millers for Civil Supplies Corporation is liable to GST or is exempted under S. No 55 of *Notification 12/2017 - Central Tax (Rate) dated 28.06.2017*?

Ans. S. No 55 of *Notification 12/2017- Central Tax (Rate) dated 28.06.2017*/ Sl. No. 58 of *Notification No. 9/2017-Integrated Tax (Rate) dated 28.06.2017*, exempts carrying out an intermediate production process as job work in relation to cultivation of plants and rearing of all life forms of animals, except the rearing of horses, for food, fibre, fuel, raw material or other similar products or agricultural produce.

Milling of paddy is a process carried out after the process of cultivation is over and paddy has been harvested. Further, processing of paddy into rice is not usually carried out by cultivators but by rice millers. Milling of paddy into rice also changes its essential characteristics. Therefore, milling of paddy into rice cannot be considered as an intermediate production process in relation to cultivation of plants for food, fibre or other similar products or agricultural produce. Thus, not eligible for exemption and thereby GST will be levied.

Further, in terms of section 2 (68) of the CGST Act, Job work means any treatment or process undertaken by a person on goods belonging to another registered person. And

any treatment or process which is applied to another person's goods is a supply of service, as per para 3 of Schedule II of the CGST Act. Moreover, in terms of Notification No. 31/2017-CT(R) dated 13.10.2017 [Notification No. 11/2017-Central Tax (Rate) dated 28.6.2017, S.No. 26 refers], GST rate on services by way of job work in relation to all food and food products falling under Chapters 1 to 22 has been reduced from 18% to 5%. Therefore, it is hereby clarified that milling of paddy into rice on job work basis, is liable to GST at the rate of 5%, on the processing charges (and not on the entire value of rice).

Q47. Is immovable property exempt from GST?

Ans. Yes, but only land and building as per entry 6 in schedule III. Immovable property comprises of various other forms other than just land and buildings and they may not be exempt from GST. They could be taxable as 'services' in the cases specified in para 2(a) of Schedule II.

Q48. Is lease of exempt goods treated as supply of exempt services?

Q49. What is the scope of exemption to education?

Ans. Entry 66 of the Notification No. 12/2017-Central Tax (Rate), dated 28-06-2017 /Entry 69 of the Notification No.9/2017-Integrated Tax (Rate), dated 28-06-2017 exempts 'educational institution' from tax on services provided 'to student, faculty or staff'. As such any income flowing to the institution must bear a direct nexus to the relationship of 'student, faculty or staff' whatever may be the service that is provided. But, if the income is indicated to be otherwise than under this relationship, even though between same persons, exemption will abate and those supplies being taxable. For example, payment towards building fund by a student admittedly is not in pursuance of that relationship because it is not towards tuition or any associated service.

Q50. What is the extent to which 'health care' exempt?

Ans. Entry 74 of the Notification No. 12/2017-Central Tax (Rate), dated 28-06-2017 /Entry 77 of the Notification No.9/2017-Integrated Tax (Rate), dated 28-06-2017, exempts health care to the extent it is not cosmetic in nature. Cosmetic treatment even if conducted in a hospital by a medical doctor would be taxable. Trails and opinions given by medical professionals on specimen or facts provided are taxable as the supply of services by the medical professional is not in respect of a patient or patient's report for diagnosis or treatment.

Q51. Is ITC liable to be reversed due to 1/3<sup>rd</sup> reduction in taxable value of construction services?

Ans. Any reduction in ITC must arise under section 17 and this 1/3<sup>rd</sup> reduction in value that is explained in note 2 below the Notification 8/2017-Integrated Tax (Rate) dated 28-06-2017, it is not stated to be an 'exempt supply' for the purposes of section 17. As such, though it appears logical to reverse ITC, there is no provision to require this reversal of ITC.

Q52. Is GST applicable on the interest component of financial leasing arrangements?

Ans. Yes, as there is no exclusion from valuation as provided for special cases in Rule 32.

Q53. Is exemption available on one-time payment towards land on long-term lease (allotted by State Industrial Board)?

Ans. No, tax is payable when consideration for lease is on one-time payment towards land on long term. Ans. The Government *vide Circular 32/2018 dated 12<sup>th</sup> February 2018* has provided that the services provided by senior doctors/ consultants/ technicians hired by the hospitals, whether employees or not, are healthcare services which are exempt.

Q57. What is the taxability of foods supplied by the hospitals and clinics?

Ans. The Government *vide Circular 32/2018-GST dated 12-02-2018* has provided that food supplied to the in-patients as advised by the doctor/nutritionists is a part of composite supply of healthcare and not separately taxable. Other supplies of food by a hospital to patients (not admitted) or their attendants or visitors are taxable.

Q58. Whether services provided by Industrial Training Institutes on account of vocational training or conduct of examination for a fee/consideration or services in relation to conduct of examination are taxable under GST?

Ans. As per *Circular No. 55/29/2018 dated 10-08-2018*, if the education provided by these ITI's is approved as vocational educational course, then private ITI's would qualify as educational institutions as defined under *Para 2(y) of Notification No. 12/2017 -Central Tax (Rate) dated 28-06-2017* and shall not be liable to GST. Such approved vocational courses have been defined under *Para 2(h) of the said notification*. If these services or admission to or conduct of examination is provided for other than designated trades, such services are liable to GST.

In case of Government ITI's, services provided shall be exempt as these are provided by Central or State Government to individuals [*S. No. 6 of Notification No.12/2017 CT (Rate) dated 28.06.2017*] and would cover both vocational training and examinations.

Q30. How do we determine the rate of tax in case of supply of goods where supplier has not opted for composition levy, when there is change in the tax rates?

Ans. In case of supply of goods where supplier has not opted for composition levy and there is change in the tax rates, three important events need to be considered are – Date of raising invoice, Due date of issue of invoice and Completion of supply.

Where in terms of Section 31(1) of the CGST Act, *the due date of issue of invoice is removal of goods*, where the supply involves movement of goods and delivery of goods in any other case. Further as per section 2(96) of the CGST Act, *“removal” in relation to goods, means—*

- (a) *despatch of the goods for delivery by the supplier thereof or by any other person acting on behalf of such supplier; or*
- (b) *collection of the goods by the recipient thereof or by any other person acting on behalf of such recipient;*

If any of the two events occur before the change in rate of tax, then the old rate will apply else the new rate will apply.

Q31. How do we determine the rate of tax in case of supply of services (Both regular or composition tax payer) or supply of goods where supplier has opted for composition levy, when there is change in the tax rates?

Ans. In case of supply of services (Both regular or composition tax payer) or supply of goods where supplier has opted for composition levy and there is change in the tax rates, three important events need to be considered – Date of raising invoice, receipt of payment and completion of supply. If any of the two events occur before the change in rate of tax, then the old rate will apply else the new rate will apply.

Illustration – Rate of GST on Supply of service made on or after January 1, 2018 increased from say 18% to 20% then the tax to be applied on supplies will be as under

Before – Event occurred before January 1, 2018

After – Event occurred on or after January 1, 2018

Supply Provided	Invoice issued	Payment received	GST Rate
Before	After	After	20%
Before	Before	After	18%
Before	After	Before	18%
After	Before	After	20%
After	Before	Before	18%
After	After	Before	20%

Q32. I have received the payment, but I have not deposited the cheque in the bank account. What is the date of receipt of payment?

Ans. The date of receipt of payment is date of entry in the books of the supplier or date of credit in his bank account, whichever is earlier.

Q33. What is the rate of GST to be charged on advances received before the change in rate of tax if the supply is completed after the change in rate of tax?

Ans. If the invoices is also raised before the change in rate of tax, then the old rate will be applicable even though the supply is complete after the change in rate of tax. Else, the new rate will be applicable.

Q34. If 95% of the work is complete before the change in rate of tax but invoice can be raised only after completion of supply, then what is the rate of tax to be applied?

Ans. Assuming the supply is completed after the change in rate of tax, new rate will apply.

Q35. In case of Construction Contracts, builders remit taxes on receipt of payment or completion of slabs as provided in the contract. What will the impact due to change in the tax rates?

Ans. For payments received before the change in rate of tax, if invoices are also raised before the change in rate of tax, old rate will be applicable. Else the new rate will be applicable.

For slab completion before the change in rate of tax, if invoices are also raised before the change in rate of tax, old rate will be applicable. Else the new rate will be applicable.

Q36. How do we compute GST liability on supplies which are liable to tax under reverse charge?

Ans. Separate provisions had been provided under the erstwhile service tax laws to determine the service tax payable on reverse charge mechanism which is linked to date of payment to the service provider unless the payment is made within 3 months of the

date of invoice. However, such provisions are not there in the CGST Act, 2017. Accordingly, general provisions relating to change in rate of tax shall be applicable in determining the appropriate rate of tax.

Q37. Will I be required to pay GST at the new GST rate on Debtors outstanding as on the date of change in the rate of tax?

Ans. If the supply was complete for such outstanding balances and the invoice is also issued before change in rate of tax, then old rate will be applicable. Else the new rate will be applicable.

Q38. I have raised the invoice with old rate of tax but now I am required to remit the taxes based on new rate of tax. Can I recover the additional tax payable from my customer?

Ans. Yes, you can raise a supplementary invoice / debit note to recover the additional tax from the customer.

Q39. Will the customer be able to take credit of additional taxes referred at Q8?

Ans. If the customer is entitled to claim the credit of tax mentioned in the original invoice, the input tax credit of additional taxes can be availed which is subject to conditions specified in this regard.

Q40. Is there any specific valuation mechanism provided for composite supplies and mixed supplies?

Ans. No, section 15 and the rules prescribed under this Section are common for supply of goods and supply of services. The provisions of valuation and the rules would apply to composite supplies and mixed supplies equally.

Q41. Are the valuation provisions similar for both inter-State and intra-State supplies?

Ans. Yes, Section 15 is common for all supplies.

Q42. Will the Section 15 read with Chapter IV of the CGST Rules, 2017 apply to IGST payable on import of goods?

Ans. No. As per Proviso to Sec. 5(1) of IGST Act, Customs Law will be applicable for valuation of imported goods.

Q43. Will the Customs Valuation apply to IGST payable on import of services?

Ans. No. Customs Law is applicable only for valuation of imported goods. Section 15 read with Chapter IV of the CGST Rules, 2017 will apply for valuation of import of services.

Q44. Is contract price not sufficient to determine valuation of supply?

Ans. Contract price (adjusted to the specific inclusion and exclusions provided in sub. Sec. (2) & (3) of Sec. 15) can be referred to as 'transaction value' and that is the basis for computing tax. However, the transaction will not be accepted as the value of supply where the supply is between related persons (including different registrations of the same PAN and principal-agent supplies), or where the consideration payable is not wholly in money.

Q45. Is reference to the CGST Rules required in all cases?

Ans. No. Reference to the CGST Rules, 2017 is required only when the supply is between related persons (including different registrations of the same PAN and principal-agent supplies), or where the consideration payable is not wholly in money. However, in specific cases where the categories of goods and services are notified in this regard (such as money-changing), the CGST Rules, 2017 must be referred to, irrespective of the fact that the supplier and recipient are unrelated, and price is the sole consideration.

Q46. What is to be done if there are certain factors affecting price but same cannot be quantified?

Ans. Where transaction value is partly, or not wholly in money, the same cannot be accepted. The value of supply should be determined under the CGST Rules, 2017.

Q47. Can the value of supplies be a deemed value?

Ans. Section 15(5) of the CGST Act, 2017 empowers the Government to prescribe the value of certain supplies which may or may not be linked to the transaction value.

Q48. When will the recipient and supplier be treated as related?

Ans. The relationship will be examined based on the explanation appended to Section 15 of the CGST Act, 2017 which defines the term "related persons". Accordingly, the following persons shall be deemed to "related persons" for the purpose of GST, if:

- such persons are officers or directors of one another's businesses;
- such persons are legally recognized partners in business;
- such persons are employer and employee;
- any person directly or indirectly owns, controls or holds twenty-five per cent. or more of the outstanding voting stock or shares of both of them;
- one of them directly or indirectly controls the other;
- both of them are directly or indirectly controlled by a third person;
- together they directly or indirectly control a third person; or
- they are members of the same family;

Further, persons who are associated in the business of one another where one is the sole agent/ sole distributor/ sole concessionaire of the other, shall be deemed to be related.

Q49. If related persons transact at arm's length price, can the valuation still be questioned?

Ans. The law mandates a reference to the CGST Rules where the supply is between related persons. However, since the supply is at "arm's length price", the fact that the price assigned to the transaction is an 'open market value' should be established.

Q50. What is the meaning of the term "Price is not the sole consideration"?

Ans. Under the GST law, consideration can be in "money or otherwise", and includes the monetary value of an act or forbearance, in relation to a supply. Consideration may also flow from any person other than the recipient. In cases, where the money received in respect of the supply is not the sole consideration, the "price is not the sole consideration". E.g. Buyer of capital goods discharges the loan of seller, goods purchased on exchange offer, etc.

Q51. Can any additions be made to the contracted price when 'Transaction Value' is acceptable?

Ans. Yes. Section 15 of the CGST Act, 2017 provides for inclusions to the transaction value (on which GST will be payable). The below are broadly, the inclusions prescribed:

- (a) any taxes, duties, cess, fees and charges levied under any law for the time being in force other than the CGST Act, 2017, the SGST Act, 2017, UTGST Act, 2017 and the Goods and Services Tax (Compensation to States) Act, 2017, if charged separately by the supplier;
- (b) any amount that the supplier is liable to pay in relation to such supply but which has been incurred by the recipient, but not included in the price;
- (c) incidental expenses, including commission and packing, charged by the supplier to the recipient, and any amount charged for anything done by the supplier in respect of the supply until delivery of goods or supply of services;
- (d) interest or late fee or penalty for delayed payment of any consideration for any supply; and
- (e) subsidies directly linked to the price excluding subsidies provided by the Government.

Q52. Will the flight tickets booked by client for travel of Chartered Accountants to facilitate an outstation audit be liable to GST, even if the engagement contract provides that any travel expenses incurred by the supplier in this behalf will be reimbursable to the chartered accountants?

Ans. The law provides that expenses incurred by the recipient in relation to supplies made by supplier of goods / services is to be included in the transaction value, only where such expenses were to be borne by the supplier. However, in the instant case, it cannot be said that the suppliers are liable to incur the cost of booking of flight tickets or that the cost was incurred by the recipient on behalf of the supplier. Hence, the value of flight tickets booked are not required to be included by the Chartered Accountants in their invoice, for computation of transaction value of audit service.

Q53. Are transport charges for supply, paid by the supplier required to be included in the transaction value?

Ans. All the expenses incurred by the supplier, in relation to the supply, are required to be included in the transaction value to the extent they are charged for. Even if the contract is for delivery of goods ex-factory, and the supplier incurs the cost of transportation on behalf of the recipient for delivery of goods to the recipient, the cost should be included in the transaction value, if the supplier charges the recipient for the same. However, if the contract price is for delivery of goods at the location of the recipient, then the transportation charges incurred by the supplier would not be required to be added to the transaction value, as the cost is contained in the said value.

Q54. Will discounts given to customers be allowed as deduction from transaction value?

Ans. Yes, the following two types of discounts would be excluded from transaction value:

- *Discount at the time of Sale* – Allowed as a deduction, provided if the discount is recorded on the face of invoice.
- *Post-supply Discount* – If such discount is based on the arrangement entered into before or at the time of supply, AND where the same can be linked to relevant invoices, then the same is allowed as a discount on the condition that the recipient reverses the input tax credit related to such discount availed earlier.

Q55. Quantity discounts are not recorded on the face of the invoice. Can the Quantity discounts be claimed as deduction while computing GST?

Ans. Quantity Discounts are allowed based on the volume / value of purchases made by the customer for a particular period. The discount is allowed at the end of a particular period based on the pre-agreed rates entered into between the supplier and the recipient. Such discounts will be eligible for exclusions by way of credit notes, only where the supplier is in a position to link the discount to each and every invoice, and the recipient reverses the credit to the extent of such discount.

Q56. Can the transaction value be questioned, if supplier and recipient's relationship come into existence after entering into a contract/arrangement to supply goods or services?

Ans. The laws assume that the relationship between the contracting parties prima facie influence the price at which the transaction is being carried out. Since the relationship did not exist on the date the prices were finalized (i.e., entering into the contract), the transaction value should be accepted in case of supplies effected prior to the forming of such relationship. However, for supplies effected after the two persons become 'related persons' for the purpose of the GST law, the transaction value cannot be accepted and reference must be made to the CGST Rules.

Q57. Will GST be applicable on any interest charged for payment after the credit period?

Ans. Interest, Penalty or Late fee charged from the customer for delayed payment of any supply shall not be separate stand-alone supply rather it shall be included in the value of original supply. However, the law provides that the GST liability on such values can be paid only on receiving such additional amounts.

Q58. In certain cases, the selling price of the final product is less since subsidy is received from Government. Are subsidies received from Government required to be included in the transaction value?

Ans. Subsidies received by the supplier, from Central / State Governments are not required to be included in the transaction value of supplies effected by him, even if the subsidies are directly linked to the supplies made by him.

Q59. Are subsidies received from Private Enterprises on procurement of eco-friendly capital goods required to be included in the transaction value?

Ans. Subsidies directly linked to the price of the supply are to be included in the transaction value, where such subsidies are not provided by the Central/ State Governments. Where it can be established that the price of the supply is not directly linked to the subsidy given on capital goods, the same is not required to be included.

Q60. Will the out-of-pocket expenses charged by professionals to claim reimbursement of expenses incurred by them for rendering services to their clients be included in the transaction value?

Ans. Yes. Any expenses incurred by the supplier relating to supply until the services are delivered, and which are charged to the recipient, will have to be included in the transaction value.

Q61. Will the Customs duty paid by Customs House Agent on behalf of the client also be required to be included in the transaction value?

Ans. Under the Service tax law, the aforementioned expenses were treated as reimbursements as 'pure agent' and are hence was not liable to service tax. Similar treatment exists in case of pure agents under the GST law as well. In terms of Rule 33 of the CGST Rules, the expenditure/ costs incurred by the supplier acting as a pure

agent of the recipient, on fulfilment of prescribed conditions, be excluded from the value of supply.

Q62. What will be the value of supply of goods or services if the consideration is not wholly in money?

Ans. Value of supply of goods or services if the consideration is not wholly in money shall be determined in the following sequential order:

- (a) open market value of such supply;
- (b) sum total of consideration in money and any such further amount in money as is equivalent to the consideration not in money, if such amount is known at the time of supply;
- (c) value of supply of goods or services or both of like kind and quality;

- (b) value as per Rule 30 or rule 31, in that order

Further, where the goods are intended for further supply as such by the recipient, the value shall, at the option of the supplier, be an amount equivalent to 90 % of the price charged for the supply of goods of like kind and quality by the recipient to his customer not being a related person.

Furthermore, that where the recipient is eligible for full input tax credit, the value declared in the invoice shall be deemed to be the open market value of the goods or services.

Q64. What will be the value of supply of goods between the principal and his agent when supply of goods is made or received through agent?

Ans. The value of supply of goods between the principal and his agent shall be:

- (a) open market value of the goods being supplied, or  
90% of the price charged for the supply of goods of like kind and quality by the recipient to his unrelated customer

[Supplier has the option to choose either of the two methods]

- (b) Where value of a supply is not determinable under clause (a), the same shall be determined as per Rule 30 or Rule 31 in that order.

### FAQ's

#### Eligibility and Conditions for taking Input Tax Credit (Section 16)

**Section 16 of the CGST Act, 2017 made applicable to IGST vide Section 20 of the IGST Act, 2017 and UTGST vide Section 21 of the UTGST Act, 2017**

Q 1. Whether capital goods can be considered as inputs?

Ans. No, '**Inputs**' are defined under section 2(59) of the CGST Act to mean any goods other than capital goods used or intended to be used by a supplier in the course or furtherance of business.

**'Capital goods'** as defined under Section 2(19) of the CGST Act, means goods, the value of which is capitalized in the books of account of the person claiming the input tax credit and which are used or intended to be used in the course or furtherance of business.

Q 2. What is Input tax credit?

Ans. Input tax credit means the credit of "input tax" in terms of section 2(63).

Further, "Input tax" in terms of section 2(62) in relation to a registered person, means the Central tax, State tax, Integrated tax or Union territory tax charged on any supply of goods or services or both made to him and includes :

- integrated goods and service tax charged on import of goods
- tax payable on reverse charge basis under IGST Act/SGST Act/CGST Act/UTGST Act.
- but excludes tax paid under composition levy.

Q 3. Can a taxable person who is not registered under the GST law be allowed to avail input tax credit?

Ans. Only a registered person will be allowed to take input tax credit. If a person is liable to register but did not register himself under the GST law, input tax credit will not be allowed to such person. A person liable to register is covered within the ambit of taxable persons and may be liable to pay taxes but no input tax credit will be eligible if he has not taken registration under the GST law.

Q 4. What are the conditions to be fulfilled for entitlement of input tax credit?

Ans. A registered person will be entitled to claim input tax credit only upon fulfillment of the following conditions:

- He is in possession of tax invoice/ debit note issued by a registered supplier or any other prescribed tax paying documents;
- He has received the goods and /or services or both;
- The tax charged on such supply has actually been paid to the Government by the supplier (by way of cash or by utilizing input tax credit)
- He has furnished a valid return.

Q 5. Can input tax credit be allowed in the same month if the supplier has shown it as an outward supply even though the recipient receives the goods in the next month?

Ans. All the conditions for availing input tax credit should be satisfied under Section 16(2) of the CGST Act 2017. One of the conditions is the receipt of goods or services or both. Without this actual receipt, the input tax credit cannot be availed. So, input tax credit should only be available in the month when the goods are actually received.

Q 6. Whether Input tax credit on Inputs and Capital Goods is allowed in one installment?

Ans. Yes. Input tax credit will be available in full with respect to inputs and capital goods, subject to fulfillment of the prescribed conditions under section 16(2) of the CGST Act. Even in the case of supply of goods in lots/ instalments, the credit would be available in full on the receipt of the last lot/ installment.

The existing concept of partial credit on purchase of capital goods under the CENVAT Credit Rules, 2004 (i.e. 50% in the year of receipt and 50% in subsequent years) has been done away with.

Q 7. One of the conditions to claim credit is that the receiver is in possession of tax invoice or debit note or any other tax paying documents. What are these tax paying documents?

Ans. The tax paying documents have been prescribed under Rule 36 of the CGST Rules. The ITC shall be availed by a registered person [including the Input Service Distributor (ISD)] on the basis of any of the following documents:

- An invoice issued by supplier of goods or services or both as per section 31;
- An invoice raised by the recipient in case of inward supplies from unregistered persons or reverse charge mechanism supplies, subject to payment of tax;
- A debit note issued by a supplier of goods or services or both as per section 34;
- A bill of entry or any similar document prescribed under the Customs Act, 1962 or rules made thereunder for the assessment of integrated tax on imports;

- An Input Service Distributor (ISD) Invoice or ISD Credit Note or any other document issued by an Input Service Distributor for distribution of credit as per rule 54(1).

Q 8. What is the time limit within which the recipient of supply is liable to pay the value of supply with taxes to the supplier of services/goods to avail the input tax credit?

Ans. In terms of second proviso to section 16(2) of the CGST Act, the time limit prescribed is one hundred and eighty days (180 days) from the date of issue of invoice by the supplier of goods and/or services. If the recipient fails to pay the value of supply (with tax) within 180 days, then Rule 37(1) requires him to furnish the details of such supply, the amount of value not paid and the amount of input tax credit availed of proportionate to such amount not paid to the supplier in FORM GSTR-2 for the month immediately following the period of 180 days from the date of the issue of the invoice. The input tax credit availed by him shall be added to his output tax liability in the month in which such details are furnished.

The above time limit is not applicable to supplies that are liable to tax under reverse charge mechanism.

However, 1<sup>st</sup> proviso to Rule 37(1) provides that in case of supplies made without consideration as specified in Schedule I, value shall be deemed to be paid.

Further as per 2<sup>nd</sup> proviso to said sub-rule inserted vide N. No. 26/2018-CT dated 13.06.2018, value of supplies on account of any amount added in accordance with the provisions of section 15(2)(b) shall also be deemed to be paid. Whenever any charges are liable to be paid by the supplier but are incurred by the recipient, the said amount will be deducted while making the payment of consideration by the recipient to the supplier. Such amount deducted will be deemed to have been paid for the purpose of reversal upon non-payment of consideration for 180 days.

Q 9. In case the amount is paid partly to the supplier of service, whether full taxes can be adjusted first? If no, then, whether it has to be calculated proportionately?

Ans. No, there is no provision under the GST law to allocate part payment of the invoice towards the taxes first so that the input tax credit can be allowed. Second proviso to Section 16(2) of the CGST Act clearly provides that the entire value of supply (with tax) is to be paid within 180 days from the date of issue of invoice. Therefore, as long as the entire payment is made within 180 days, the recipient would be entitled to claim the credit in full.

Assuming that only part payment is made within 180 days, availing of proportionate credit based on such part payment is not provided for under the CGST Act. However, Rule 37(1) of the CGST Rules provides for availability of the amount of input tax credit availed of proportionate to the amount paid to the supplier.

Q 10. One of the conditions to claim credit is that the receiver has received the goods. Is there any provision for deemed receipt of goods in case of transfer of document of title before or during the movement of goods?

Ans. Yes. Explanation to Section 16(2)(b) of the CGST Act provides for deemed receipt of goods where the goods are delivered by the supplier to the recipient or any other person on the direction of the recipient, whether acting as agent or otherwise, before or during movement of goods either by way of transfer of document of title to goods or otherwise.

Q 11. Will a person get the input tax credit if he has not actually received the services but has been received by some other person on the direction of that person?

Ans. As per Explanation (ii) in Section 16(2)(b) of the CGST Act 2017, it has been stated that the registered person will be deemed to have received the services where these services have been provided by the supplier to any person on the direction of and on account of such registered person.

Q 12. Whether the registered person can avail the benefits of input tax credit and depreciation on the tax component of capital goods and plant and machinery?

Ans. No, Section 16(3) provides that input tax credit will not be allowed on the tax component of cost of capital goods/ plant and machinery, if the depreciation on the said tax component is claimed under the provision of Income Tax Act, 1961 by the taxable person. Therefore, the registered person has an option to either claim depreciation (under the Income Tax Act, 1961) or claim credit under the GST law, on the said tax component.

For example:

Cost of Asset	=	₹ 1,000/-
Tax	=	₹ 100/-
Total	=	₹ 1,100/-

If depreciation is charged on ₹ 1,000/-, then credit will be available under the GST law and if depreciation is charged on ₹ 1,100/- then credit will not be available.

Q 13. What is the maximum time limit to claim the Input tax credit?

Ans. In terms of Section 16(4) of the CGST Act, a registered person is not entitled to claim input tax credit in respect of any supply of goods or services after the earlier of following two events:

- Due Date of filing of the return under Section 39 of the Act for the month of September following the end of financial year to which such invoice or invoice relating to such debit note pertains, i.e. 20<sup>th</sup> October;

(b) Furnishing of the annual return. In terms of Section 44, the due date of filing annual return is 31<sup>st</sup> December following the end of the financial year.

However, as provided in Rule 37(4), the above time limit is not applicable where a claim is made for re-availing of any credit that had been reversed earlier due to non-payment of consideration within 180 days of date of issue of invoice by the supplier.

Further, in cases of credit in special circumstances like new registration, voluntary registration, etc. the credit will not be available after the expiry of one year from the date of issue of tax invoice.

Q 14. A person has a single GST registration in respect of two different trade names. Can he set off input tax credit from one trade name against the output tax liability of the other?

Ans. All input tax credits can be set off against the output tax liability of the same GSTIN irrespective of the different businesses or trade names present for a particular taxable person.

### **Apportionment of credit and blocked credits (Section 17)**

**Section 17 of the CGST Act, 2017 made applicable to IGST vide Section 20 of the IGST Act, 2017 and UTGST vide Section 21 of the UTGST Act, 2017**

Q 15. If certain goods/ services are used partly for business and partly for non-business purposes, will the credits be allowed in full or proportionately?

Ans. The credit on goods/ services used partly for business and partly for non-business purposes will be allowed proportionately to the extent it is attributable for business purposes. The manner of calculation of such credit is provided in Rule 42(1) of the CGST Rules, 2017.

Q 16. Credit attributable to exempt supplies is not available to a registered person. What are the supplies that are included in exempt supplies?

Ans. '*Exempt Supplies*' for this purpose means all supplies other than taxable and zero-rated supplies and specifically include the following:

- Supplies liable to tax under reverse charge mechanism;
- Transactions in securities;
- Sale of land; and
- Subject to Para 5(b) of Schedule II, sale of building.

Moreover,<sup>1</sup>the “value of exempt supply” shall not include the value of activities or transactions specified in Schedule III, except those specified in paragraph 5 of the said Schedule i.e Sale of Land (S-III) / building (S-II).

Hence, they will not entail any reversal of credit. <sup>2</sup>Further, a couple of clauses inserted within Schedule III of the CGST Act:

*“7. Supply of goods from a place in the non-taxable territory to another place in the non-taxable territory without such goods entering into India.*

*8. (a) Supply of warehoused goods to any person before clearance for home consumption; (b) Supply of goods by the consignee to any other person, by endorsement of documents of title to the goods, after the goods have been dispatched from the port of origin located outside India but before clearance for home consumption”*

From the above, it can be gathered that excluding of supplies covered under Schedule III has resulted in lower reversal of credit particularly in case of high sea sales and merchant trade transactions..

Q 17. Will compliance of the provisions of Section 17(2) regarding restriction of credits relating to exempt supplies be mandatory to a Banking Company/ Financial Institution engaged in accepting deposits or extending loans?

Ans. No, a Banking Company/ Financial Institution engaged in supplying services by way of accepting deposits, extending loans or advances has the following options in terms of Section 17(4) of the CGST Act 2017:

- Comply with the provisions of Section 17(2) regarding restriction of credits relating to exempt supplies in the manner prescribed; or
- Avail 50% of the eligible input tax credit every month on inputs, capital goods and input services and the remaining 50% shall lapse.

The option exercised cannot be withdrawn in the same year. The restriction of 50% will not apply to the tax paid on supplies made by one registered person to another registered person having the same PAN.

A Banking Company/ Financial Institution choosing Option 2 has to follow the following procedure in accordance with Rule 38 of the CGST Rules, 2017:

- The credit of tax paid on inputs and input services used for non-business purposes and those that are not eligible in terms of Section 17(5) should not be availed.

---

<sup>1</sup> & <sup>2</sup> Effective date yet to be notified.

- 50% of the remaining credit will be admissible and should be claimed in **Form GSTR-2**
- The eligible credit (as mentioned above) will be credited to the Electronic Credit Ledger

Q 18. Whether the above option can be withdrawn in between the financial year?

Ans. No. The option once exercised by the Banking Company/ Financial Institution cannot be withdrawn during the remaining part of the financial year.

Q 19. Whether input tax credit will be available on taxable goods which are given by way of gift or free samples under the sales promotion?

Ans. No. Section 17(5) (h) specifically restricts input tax credit on goods disposed of by way of gift or free samples.

Q 20. Whether input tax credit is allowed on inputs which become waste and is sold as scrap?

Ans. In the process of manufacture, if some inputs become waste and are sold as scrap, credit shall not be denied. Further, output tax shall be payable on sale of such waste/scrap. However, Section 17(5) (h) specifically restricts input tax credit on goods lost, stolen, destroyed, written off or disposed by way of gift or free samples. Therefore, if the goods have been destroyed in full, input tax credit will not be available.

Q 21. Whether Input destroyed/ pilfered, and shortage also is covered?

Ans. Yes. Section 17(5)(h) specifically restricts input tax credit on goods lost, stolen, destroyed, written off or disposed by way of gift or free samples. Therefore, input tax paid on goods which are destroyed/pilfered and where shortage has occurred will not be eligible.

Q 22. Whether Input tax credit is available in respect of Input tax paid on use of mobile phones/laptops/as given to employees?

Ans. Yes. The mobile phones/ laptops would be covered under the definition of 'capital goods' as they are used in the course/ furtherance of business and hence, the input tax paid on such goods will be available as input tax credit.

Q 23. Whether input tax paid on Motor vehicle and other conveyances which is used for courier agency, outdoor catering, pandal and shamiana and tour operator is eligible?

Ans. The restriction of input tax credit on motor vehicles and other conveyances provided under Section 17(5)(a) is on such motor vehicles/conveyances except when they are used for further supply of such vehicles, conveyances; transportation of passengers or imparting training or for transportation of goods only. Therefore, input tax credit will be available when it is used by courier agency, outdoor catering, pandal and shamiana and tour operator as it covers use of vehicles for transportation of goods and transportation

of passengers. However, now, <sup>3</sup>input tax credit is blocked on motor vehicles for transportation of persons having approved seating capacity of not more than thirteen persons (including the driver), except when they are used for making the following taxable supplies, namely:—

- (A) further supply of such motor vehicles; or
- (B) transportation of passengers; or
- (C) imparting training on driving such motor vehicles;

It should be noted here that input tax credit is not blocked on those motor vehicles which are for transportation of goods. Based on this clause of blocked credit, one needs to determine whether input tax credit will be available when it is used by courier agency, outdoor catering, pandal and shamiana and tour operator.

Q20. Whether tax paid on repairs, maintenance and insurance of Motor Vehicles for transportation of persons used for the purpose of business is eligible for ITC?

Ans. <sup>4</sup>The input tax credit is blocked on the repairs, maintenance and general insurance of those motor vehicles on which input tax credit is blocked under Section 17(5)(a) of the CGST Act 2017. So, input tax credit on repairing, maintenance and insurance of motor vehicles for transportation of persons carrying not more than 13 persons will be blocked under Section 17(5) provided it is not used for exceptional situations viz. transportation of passengers, further supply and imparting training on driving.

Q21. Can input tax credit be claimed on a truck or any goods vehicles when used for transportation of goods?. Also comment whether repairing, maintenance and insurance of such vehicles will be allowable as credit ?

Ans. Input tax credit is not blocked on any motor vehicles for transportation for goods. Also, any expenses in the form of repairs, maintenance and general insurance of motor vehicles credit of which is not blocked under Section 17(5)(a) of the CGST Act 2017 will be allowable as input tax credit under GST. So, it should be allowed as input tax credit.

Q 21. Whether the input tax credit will be available on a passenger vehicle which is used for transportation of goods only?

Ans. <sup>5</sup>As per the CGST Amendment Act 2018, input tax credit on motor vehicles for transportation of persons having approved seating capacity of not more than 13 persons is blocked subject to certain exceptional situations. Transportation of goods is not covered within this provision. So, any motor vehicles for transportation of persons will be considered as a blocked credit even though the same is actually used for

---

transportation of goods. However, it is clarified that the Input tax credit is allowable on motor vehicles which is for transportation of goods as the same is not blocked.

Q22. Whether ITC is available in respect of dumpers, work-trucks, fork-lift trucks and other special purpose motor vehicles?

Ans. <sup>6</sup>ITC non-availability in case of motor vehicles restricted to only those meant for transportation of persons having approved capacity of not more than 13 persons (including the driver) except when used for specified purposes. Further, the words 'other **conveyances**' have been removed from the ambit of blocked credit. Hence, input tax credit would be available in respect of dumpers, work-trucks, fork-lift trucks and other special purpose motor vehicles. (As per amendment made in CGST Act, 2018)

Q 24. Whether benefit of input tax credit would be available if the company procures health insurance services for benefit of its employees. Please assume that the procurement of such services is mandatory under Factories Act?

Ans. Yes. Section 17(5)(b) of the CGST Act provides that tax paid w.r.t health insurance services will be eligible as input tax credit where the Government notifies that such services are obligatory for an employer to provide to its employees under any law for the time being in force.

Q 25. Whether taxes paid on change of interiors of service apartment is eligible for input tax credit?

Ans. Input tax credit is not available on goods or services received by a taxable person for construction of an immovable property on his own account other than plant and machinery even when used in course or furtherance of business. The word "construction" includes reconstruction, renovation, additions or alterations or repairs to the extent of capitalization to the said immovable property. If the cost of interiors is capitalized towards the cost of immovable property, then it forms part of the cost of immovable property (Service apartment) and accordingly taxes paid on change of interiors of service apartment will not be eligible as input tax credit.

Q23. Whether input tax credit of goods or services should be claimed on the ground that a building has been used in the course or furtherance of business if that building is constructed for providing renting of immovable property services?

Ans. Section 17(5)(d) of the CGST Act 2017 states that input tax credit is blocked on goods or services received by a taxable person for construction of an immovable property on his own account. Only if he does not wish to retain the property but provide further supplies of works contract services, input tax credit can be allowed. This means that a

---

<sup>6</sup> Effective date yet to be notified.

person who receives on the property on own account will not be liable to input tax credit. The after use of the property is immaterial once the title of the property belongs to the recipient. So, input tax credit will not be available in respect of goods or services used for construction of property even though the intent is to provide the said property on rent.

Q 26. What do you mean by 'Plant and Machinery'?

Ans. The expression "plant and machinery" has been defined in Explanation to Section 17 for the purpose of Chapter V or VI of the CGST Act. It means apparatus, equipment, and machinery fixed to earth by foundation or structural support that are used for making outward supply of goods or services or both and includes such foundation and structural supports but excludes—

- (i) land, building or any other civil structures;
- (ii) Telecommunication towers; and
- (iii) Pipelines laid outside the factory premises.

### **Availability of Credit in special circumstances (Section 18)**

**Section 18 of the CGST Act, 2017 made applicable to IGST *vide* Section 20 of the IGST Act, 2017 and UTGST *vide* Section 21 of the UTGST Act, 2017**

Q 27. Whether input tax credit can be availed on input services and capital goods (lying in stock) when there is application for new registration or during voluntary registration under section 18?

Ans. No. In case of new registrations and voluntary registrations, input tax credit can be availed only on the stock held (inputs, semi-finished goods or finished goods) preceding the day when he is liable to pay tax or preceding to the date of grant of voluntary registration respectively. Therefore, Input service and capital goods lying in stock shall not be eligible for ITC.

Q 28. What is the difference between the availment of credit in case of Compulsory Registration and Voluntary Registration?

Ans. Q2. How can I supply goods without movement?

Ans. In cases where the ownership, or the risks and rewards are transferred without requiring the movement of goods, the goods would be treated as supplied although no movement is involved in effecting such supply.

E.g. when an Agent who is in possession of certain goods decides to buy the goods from the principal, or in case where there is an on-site installation of machinery, or in case of sale and lease back transactions, etc.

Q3. What is Removal?

Ans. Removal is defined u/s 2(96) of the CGST Act, 2017. Removal in relation to goods means,

- (a) dispatch of the goods for delivery by the supplier thereof or by any other person acting on behalf of such supplier; or
- (b) collection of the goods by the recipient thereof or by any other person acting on behalf of such recipient

It can be seen that removal is complete as soon as the goods are dispatched. However, where the supply is such that the recipient collects the goods from the supplier, the point at which the good are collected would be the time of removal of the goods The dispatch (or collection, as the case may be) would trigger the liability to raise the invoice, and the supplier should not wait until the goods reach the destination.

Q4. Who can remove the goods?

Ans. Goods can be removed by way of:

- Dispatch by the supplier himself,
- Dispatch by any person acting on behalf of the supplier,
- Collection by the recipient himself,
- Collection by any person acting on behalf of the recipient.

Q5. I am supplying A4-sized bundles of paper to an Advocate's Office. I submit the account of total supplies made during the 2-month period on the 25<sup>th</sup> of alternate month. Do I have to issue an invoice each time I dispatch the bundles?

Ans. As per section 31(4) of the CGST Act, where, under a contract, there is a continuous or recurrent supply of goods involving periodic invoices or payments, the invoice shall be issued before or at the time of issue of the statements of account or receipt of payments. Since, the given instance is a case of continuous supply of goods, tax invoice has to be issued latest by the time of submitting the statement every time.

Q6. Will the invoicing requirement change if I am paid ₹ 50,000 every Wednesday?

Ans. Based on the explanation in Q5 above, it is clear that the liability becomes certain only on submission of the statements of account. Therefore, the invoice can be raised on a bi-monthly basis, by the 25<sup>th</sup> of every 2<sup>nd</sup> month when the account is submitted. However, the time of supply provisions get triggered on receipt of payment in advance, for which, a receipt voucher shall be issued. Tax should be discharged on receipt of advances, although invoice is yet to be raised. Further, Notification No. 66/2017 – Central Tax dated November 15, 2017 provides that the time of supply in case of outward supply of goods shall be determined in the manner as provided in clause (a) of sub-section (2) of section 12 of the CGST Act including in the situations attracting the provisions of section 14 of the CGST Act.

Q7. Do I have to issue an invoice even if I remove goods for 'sale on approval basis'?

Ans. As per section 31(1) a registered person supplying taxable goods shall, before or at the time of removal of goods for supply to the recipient, where the supply involves movement of goods shall issue a tax invoice showing the description, quantity and value of goods, the tax charged thereon and such other particulars as may be prescribed

But section 31(7) states that notwithstanding anything contained in sub-section (1), where the goods being sent or taken on approval for sale or return are removed before the supply takes place, the invoice shall be issued before or at the time of supply or six months from the date of removal, whichever is earlier

Therefore generally in such cases tax invoice need not be raised at the time of removal because it is not certain (at the time of dispatch of goods) that the sending of goods will result in a 'supply'. However, on or before the confirmation of the supply by the other party, the tax invoice has to be issued.

The law provides a time limit of 6 months from the date of removal, during which the goods will not be treated as supplied. Therefore, in such cases where no confirmation has been received within such period, a tax invoice should be issued on the day immediately succeeding the 6-month period.

Q8. What is the invoice or other documentation required in reverse charge cases?

Ans. According to the provisions of section 31(3)(f)&(g), where the tax liability is cast on the recipient under section 9(3) & 9(4) In case of registered person, invoice is required to be issued by the supplier

In case of unregistered person, invoice is required to be issued by the recipient itself on the date of receipt of goods or services or both;

Further payment a payment voucher at the time of making payment to the supplier or unregistered person would be issued

Q10. I have a contract to supply manpower to a factory for 12 months, whereby the recipient should make payment by the 15<sup>th</sup> of the succeeding month. When should I raise the invoice?

Ans. Given that the contract is for a period exceeding 3 months, to provide services on a continuous/recurrent basis, the supply will be treated as a continuous supply of services. As the due date of payment is ascertainable from the contract, the invoice has to be raised on or before the due date of payment. (Section 31(5)(a) of the CGST Act).

Q11. I am constructing a building for my client. The client is required to pay me on completion of plinth, 1<sup>st</sup> floor and 2<sup>nd</sup> floor. When should the invoice be raised?

Ans. The above instance is a case of continuous supply of services. Here, since the payment is linked to completion of an event (i.e., milestones set in the contract), an invoice should be raised on or before the due date of completion of event as per section 31(5)(c) of the CGST Act, 2017. Therefore, an invoice be raised on or before completion of the 1<sup>st</sup> floor and the second time on or before the completion of 2<sup>nd</sup> floor.

Q12. I had a contract for supplying manpower for 28 days for ₹ 28,000/-. However, after 10 days, the service has stopped. Should I raise an invoice?

Ans. Yes. Where a supply of service ceases before its completion, an invoice has to be issued at the time the supply ceases, i.e., on the 10<sup>th</sup> day. The invoice shall be issued to the extent of the service provided before its cessation. (Section 31(6) of the CGST Act, 2017).

Q13. I have a registration as an Input Service Distributor. Am I required to raise invoices even though no taxable supplies are made from this registration number?

Ans. Yes. An Input Service Distributor (ISD) should issue a tax invoice being an 'ISD invoice' for distributing credits to the GST registrations that have the same PAN as that of the ISD. Such invoice will be different from invoices reflecting supply of goods or services (refer Invoice Rule 54). This is a document required under Section 20 of the CGST Act, 2017.

Q16. I became liable to pay tax on 1st April, 2017. I have applied for registration on 15<sup>th</sup> April, 2017 which is within the 30 days' window given to me. My registration is granted on 29<sup>th</sup> April, 2017. What document can I issue to collect tax from 1<sup>st</sup> April to 28<sup>th</sup> April, 2017?

Ans. Till the grant of registration on i.e., 29<sup>th</sup> April, 2017 tax cannot be collected on the supplies made.

However, even though the registration is granted on 29<sup>th</sup> April, 2017 the effective date of registration will be 1<sup>st</sup> April, as registration is applied for within the permissible period.

Section 31(3)(a) provides for issue of 'revised invoices' against the bills raised on a regular basis (without collection of tax) from 1<sup>st</sup> April to 28<sup>th</sup> April, within a period of 1 month from the date of grant of registration certificate, i.e., within 29<sup>th</sup> May, 2017. Applicable taxes can be collected in the revised invoices issued.

Q17. Can a consolidated 'revised invoice' be issued to every recipient for supplies made during the period before registration is granted?

Ans. In terms of Rule 53(2) of the CGST Rules, every registered person who has been granted registration with effect from a date earlier than the date of issuance of certificate of registration to him, may issue revised tax invoices in respect of taxable supplies effected during the period starting from the effective date of registration till the date of the issuance of the certificate of registration

However, rate wise consolidated invoice can be issued to an unregistered recipient during such period except separate invoice be issued in case of inter-state supply exceeding value ₹ 2.5 lacs.

Further, in the case of inter-State supplies, a consolidated invoice can be issued separately in respect of all the recipients located in a State, who are unregistered recipient and where the value of a supply does not exceed ₹ 2,50,000/-.

Q18. Is it necessary to issue receipt for advances?

Ans. Yes. A 'receipt voucher' containing prescribed particulars should be issued on receipt of any advance payment towards supply of goods or services. (Refer section 31(3)(d) and rule 50)

Q19. What is meant by Continuous Supply of Goods or Services?

Ans. U/s 2(32) of the CGST Act, *Continuous supply of goods* means a supply of goods which is provided, or agreed to be provided, continuously or on recurrent basis. There should be a contract for such a supply requiring the supplier to issue invoices to the recipient on a regular or periodic basis. Also, the supply may or may not be through a wire, cable, pipeline or other conduit.

U/s 2(33) of the CGST Act, *Continuous supply of services* means a supply of services which is provided or agreed to be provided continuously or on recurrent basis under a contract. Such contract should be for a period exceeding 3 months, with periodic payment obligations.

The Government is also empowered to treat the supply of a particular category of goods or services as 'continuous supply', subject to certain conditions, irrespective of the criteria specified above.

Q20. What is a 'Bill of Supply'?

Ans. A bill of supply should be issued instead of a tax invoice in case of the following supplies:

- supply of exempted goods or services; or
- supplies made by a supplier opting composition scheme.

Q21. Can a consolidated bill of supply be issued on a periodic basis?

Ans. A separate 'Bill of Supply' is not necessary if the value of the goods or services supplied is less than ₹ 200 unless the recipient demands for such a bill. In such a case, a consolidated 'Bill of Supply' should be prepared at the close of each day in respect of all such supplies to each recipient, separately.

Q22. What are the circumstances in which one or more credit notes for supplies made in a financial year can<sup>1</sup> be issued?

Ans. As per section 34(1) of the CGST Act one or more credit notes for supplies made in a financial year can be issued, Where tax invoice(one or more) for supply should have been issued earlier. One or more credit notes may be issued in the following cases:

- The taxable value on which the tax is collected is more than the actual taxable value;
- The tax charged is more than what should have been charged;
- The recipient has returned the goods or
- The recipient has found that the goods or services or both supplied are deficient.

Q23. I had made a supply in April. The party returned the goods in May. How will I declare the credit note to the tax authorities?

Ans. The credit note should be declared in return of outward supplies (GSTR-1) for the month of May.

Q24. I had made a supply in April. The party returned the goods in October. Will I still be able to issue a Credit Note?

Ans. A credit note can be issued for any supplies. However, in order to declare the details of the credit note and thereby claim a reduction in output tax liability, it must be issued and declared in a return for the month during which such credit note has been issued but not later than September following the end of Financial Year in which such supply was made, or before filing of the annual return for that Financial Year, whichever is earlier and the tax liability shall be adjusted in such manner as may be prescribed:

E.g. Assuming that annual return for the year 2017-18 is not yet filed, a credit note can be issued in respect of any of supplies made during the year 2017-18, up to 30<sup>th</sup> September 2018. However, if the Annual Return is filed for financial year 2017-18 on 31<sup>st</sup> Dec, 2018, then the details of the credit note for the year 2017-18 can be issued till 31<sup>st</sup> Dec 2018.

- (c) The recipient of the supply should accept credit note in his return of inward supply and reduce his claim of input tax credit to the extent reduction of tax liability.

Q26. When I reject an inward supply, can I issue a Debit Note?

Ans. A debit note may be raised for accounting purposes. However, for the purpose of GST, such a debit note will be of no relevance. Under the scheme of things, both debit note and credit note are to be issued by the supplier. Where the supplier fails to declare the details of such documents, the recipient can declare the details of the same (i.e., those issued by the supplier) and require the supplier to accept the same, in order to effect amendments in his return of outward supplies (GSTR-1). (Section 34(3) of the CGST Act, 2017). The procedure however, was never implemented as filing of Form GSTR 2 and Form GSTR 3 was kept in abeyance by the Government.

A credit/debit note which is issued by the registered person is required to be issued invoice-wise, however, Section 34 has been amended to allow issuance of consolidated credit/debit which is in line with the best international practices<sup>2</sup>.

Q27. Is it correct to state that, Debit Note can be issued only for increasing tax liability by the supplier?

Ans. Yes. 'Debit note' are akin to 'supplementary invoice'. They are issued by the supplier for recording increase in taxable value or tax charged in the supply.

Q28. I had made a supply in August. In September, the recipient decided to permit increased rate for the supply. How will I declare the debit note to the tax authorities?

Ans. Debit note should be issued with immediate effect, and the details should be declared in the return of outward supplies for the month of September.

Q29. Are there any restrictions on raising debit notes for earlier supplies?

Ans. No. Every increase in tax liability or taxable value mandates an issue of debit note.

Ans. The input tax credit availed by the recipient in its return is allowed to the recipient on a provisional basis. Q23. What is meant by self-assessment?

Ans. Under the GST regime, the responsibility to compute the correct output tax liability, eligible input tax credit and net tax liability lies with the assessee. The assessee must determine the rate of tax, value of supply and the output tax payable. The assessee must also decide the eligibility of input tax credit in respect of the various inward supplies. The determination of turnover, rate of tax, value of supply, eligibility to input tax credit, reversal of input tax credit, etc. done by the assessee himself is called as self-assessment.

Q24. Whether the recipient is liable to pay interest on the differential tax liability arising due to the mismatch of input tax credit or due to duplicate claim of input tax credit?

Ans. As per section 42(8) of the CGST Act, the recipient is liable to pay interest on the differential tax liability arising on account of mismatch of input tax credit or due to duplicate claim of input tax credit at the rate specified in section 50(1). The interest is liable to be paid from the date on which credit is availed till the date on which such differential tax liability is added to the output tax liability of the recipient.

Q25. On a perusal of the provisions relating to mismatch of input tax credit, it is noticed that the tax payable on account of mismatch of input tax credit is added to the output tax liability of the recipient. Why is the recipient penalised for such mismatch?

Ans. As per section 155 of the CGST Act, if any person claims input tax credit, then the burden of proving such claim lies on him. Therefore, if the supplier does not declare the supplies or declares output tax lower than the amount claimed as credit, the recipient is burdened with the differential tax liability.

Q26. The discrepancy communicated in **FORM GST MIS-1** to the supplier has been rectified in subsequent return filed by the supplier. Should the recipient avail the credit once the supplier rectifies the return?

Ans. The input tax credit which remains unmatched is added to the output tax liability of the recipient in the month succeeding the month in which **FORM GST MIS-2** is communicated to the recipient. However, if the supplier rectifies the discrepancy within the date for filing the return for the period of September of the succeeding financial year or before the annual return is submitted by him, then the recipient is eligible to reduce the output tax liability to the extent of differential tax liability paid on account of such input tax mismatch.

Q27. Illustration for ITC mismatch

- Goods supplied by A to B in the month of August 2017
- Value of goods = ₹ 1,000/-
- GST = ₹ 180/-
- A does not declare the details of such supplies in **FORM GSTR-1**.
- B claims input tax deduction of ₹ 180 by adding the details of such supply in **FORM GSTR-2**.
- A rejects the communication in **FORM GSTR-1A**.
- The department issues **FORM GST MIS-1** to the supplier and **FORM GST MIS-2** to the recipient in the month of September 2017.
- The supplier does not rectify the discrepancy by September 2017.
- The department adds ₹ 180 to the output tax liability of B for the month of October 2017.

- B is liable to pay ₹ 180 along with interest for the period August 2017 to October 2017.
- A rectifies the discrepancy in the month of December 2017.
- B can reduce output tax liability for January 2017 by ₹ 180. B will also be eligible for refund of interest paid earlier.

Q28. Whether the credit note issued by the supplier has to be matched with the corresponding reduction of input tax by recipient?

Ans. As per Section 43 of the CGST Act, the details of credit notes issued by the supplier in respect of outward supply and claimed as reduction in output tax liability has to be matched with a corresponding reduction of input tax by the recipient of the supply. Further, the credit note issued shall also be matched for duplication of reduction of output tax liability.

Q29. The assessee has inadvertently reduced its output tax liability twice on the same credit note. What are the consequences of such duplicate claims?

Ans. As per Section 43(1) of the CGST Act, all claims of reduction in output tax liability on account of credit notes will be matched so as to ensure that the supplier does not claim such deduction more than once for a particular credit note. Where the supplier claims such deduction more than once, such discrepancy will be communicated to the supplier in **GST MIS-2**. Such duplicate claim of reduction of output tax liability will be added to the output tax payable of the supplier for the month in which such **GST MIS-2** is communicated to the supplier.

Q30. Deduction of output tax liability claimed on account of credit notes issued does not match with the corresponding reduction of input tax by the recipient? What is the procedure to be followed?

On receipt of such communication, either the supplier or the recipient can rectify the details so as to match the claim of reduction in output tax liability and corresponding reduction of input tax credit.

Q31. The mismatch in reduction in output tax liability is due to the incorrect details entered by the recipient of the supply. What is the procedure to be followed by the supplier?

Ans. If there is a mismatch in the claim of reduction of output tax liability, a communication in **FORM GST MIS-1** will be sent to the supplier and a communication in **FORM GST MIS-2** will be sent to the recipient of such supply. If the discrepancy is due to the incorrect

particulars entered by the recipient, then the recipient can rectify such discrepancy in its return for the month in which **GST MIS-2** is communicated to him. Once the discrepancy is rectified and the reduction in output liability is matched, a communication in **FORM GST MIS-1** will be sent to the supplier and the claim of reduction in output tax liability will be finally accepted. However, if the recipient does not rectify the discrepancy in the month in which such discrepancy is communicated, the amount of tax payable on account of such discrepancy will be added to the output tax liability of the supplier for the month succeeding the month in which **FORM GST MIS-2** is communicated to the recipient.

Q32. Whether the supplier is liable to pay interest on the differential tax liability arising due to the mismatch of reduction in output tax liability or due to duplicate claim of reduction of output tax liability?

Ans. As per Section 43(8) of the CGST Act, the supplier is liable to pay interest on the differential tax liability arising on account of mismatch of reduction in output tax liability or due to duplicate claim of reduction in output tax liability at the rate specified in Section 50(1) of the CGST Act. The interest is liable to be paid from the date on which reduction in output tax liability is claimed till the date on which such differential tax liability is added to the output tax liability of the supplier.

Q33. The discrepancy communicated in **FORM GST MIS-1** to the supplier has been rectified in subsequent return filed by the recipient. Can the supplier avail the reduction in output tax liability after the recipient rectifies the return?

Ans. The reduction in output tax liability which remains unmatched is added to the output tax liability of the supplier in the month succeeding the month in which **FORM GST MIS-1** is communicated. However, if the discrepancy is rectified within the date for filing the return for the period of September of the succeeding financial year or before the annual return is submitted by him, then the supplier is eligible to reduce the output tax liability to the extent of differential tax liability paid on account of such mismatch.

Q34. Once the reduction in output tax liability mismatch has been rectified, whether the supplier is eligible for refund of the interest paid on the differential tax paid due to such mismatch?

Ans. As per Section 43(9) of the CGST Act, once the discrepancy in the reduction of output tax liability is rectified and such rectification is accepted, then the supplier is eligible to refund of interest paid earlier. The maximum interest refundable is equivalent to the interest paid by the recipient. The supplier has to make a claim for such refund in **FORM GSTR-3**. The interest to be refundable will be credited to the electronic cash ledger in **FORM GST PMT-3** and will be available for any future payment of interest. Alternatively, the supplier can claim the refund of such amount by following the procedure set out in Section 54 of the CGST Act.

On receipt of such communication, either the supplier can make suitable rectification in the statement of outward supplies to be furnished for the month in which the discrepancy is communicated, or the e-commerce operator can make rectification in the statement to be furnished for the month in which such discrepancy is communicated.

Q37. What happens when the discrepancy is not rectified either by the supplier or by the e-commerce operator?

Q48. What is electronic commerce and who is an electronic commerce operator?

Ans. As per Section 2(44) of the CGST Act, 2017, electronic commerce means supply of goods and/or services including digital products over digital or electronic network. As per section 2(45) of the CGST Act, 2017 electronic commerce operator means any person who owns, operates or manages digital or electronic facility or platform for electronic commerce.

Q49. Can the electronic commerce operator sell goods and/or services on his own behalf?

Ans. Yes, there is no such restrictions under the GST. However, it would be treated as any other form of supply of goods and/or services and chargeable to tax accordingly. Since the goods and/or services are supplied on his own behalf, provisions of collection of tax source do not apply to such transaction.

Q50. What would be the rate of tax for collection of tax at source applicable to electronic commerce operator and on what value would the rate of tax be applied on?

Ans. The rate of tax for collection of tax source as per section 52 of the CGST Act, 2017 shall not exceed 1%. The said 1% would be on the net value of taxable supplies made through the electronic commerce operator by other suppliers where the consideration with respect to such supplies is to be collected by the electronic commerce operator.

Where, *Net value of taxable supplies* shall mean the aggregate value of taxable supplies of goods or services or both, other than services notified under section 9(5) of the CGST Act, 2017 made during any month by all registered persons through the operator reduced by the aggregate value of taxable supplies returned to the suppliers during the said month.

Q51. Does the net value of taxable supplies include all the transactions made through electronic commerce?

Ans. No, net value does not include transactions pertaining to supply of services notified by the Government under section 9(5) of the CGST Act, 2017. Net value of taxable supplies is the aggregate value of taxable supplies of goods or services or both, other than services notified under section 9(5) of the CGST Act, 2017, made during any month by all registered taxable persons through the operator reduced by the aggregate value of taxable supplies returned to the suppliers during the said month.

Q52. Are there any deductions allowable while computing the tax collection at source?

Ans. Yes, the taxable supplies returned to the supplier on the electronic commerce is allowed as a deduction while calculating the net value.

Q53. Is electronic commerce operator liable to collect tax at source if the consideration for supplies is not collected by him?

Ans. As per the provisions of Section 52(1), an electronic commerce operator shall collect tax at source only where the consideration in respect of supplies is to be collected by the operator.

Q54. Are there any powers vested with the Government to enhance the rate of tax in case of collection of tax at source in future?

Ans. No, section 52 does not vest any powers with any authority to increase the rate of tax more than 1% in case of collection of tax at source

Q55. Can a supplier on electronic commerce opt not to register under GST?

Ans. In terms of section 24(ix) of the CGST Act, 2017 irrespective of the threshold limit the supplier who supplies goods or services or both, [other than supplies specified under section 9(5) of the CGST Act, 2017], through E-commerce operator who is required to collect tax at source under Section 52 is required to obtain a registration compulsorily.

However, in case of supplier where the consideration with respect to supplies made on electronic commerce is not collected by the electronic commerce operator, then in such case, such supplier will be eligible to claim the threshold benefit for registration as per section 22 of the CGST Act, 2017.

However, vide *Notification No. 65/2017 – Central Tax dated 15.11.2017*, the Central Government, on the recommendations of the Council, exempted persons making supplies of services, other than supplies specified under section 9(5) of CGST Act through an e-commerce operator who is required to collect TCS under section 52, from obtaining registration provided their aggregate turnover does not exceed Rs.20 lakhs (Rs.10 lakhs in special category states except J & K) [*Press release on Policy issues dated 10<sup>th</sup> November 2017, Notification No. 65/2017 – Central Tax dated 15<sup>th</sup> November 2017*]

Q56. What is the time at which the tax should be collected at source by the electronic commerce operator?

Ans. No clarity in Section 52. However, it may be construed to be the date of collection of consideration by the electronic commerce operator on behalf of the supplier.

Q57. Is there any threshold limit specified for collection of tax at source?

Ans. No, there is no threshold limit specified.

Q58. If out of the total consideration received by the operator some part is adjusted against receivable from the supplier, should tax be collected at source by the operator even on such amount which is adjusted against other amounts received from the supplier?

Ans. Yes, as per section 52, irrespective of the mode of recovery of consideration by the supplier from the operator, tax should be collected at source on the net value as defined in section 52(1) of the CGST Act, 2017. There is no deduction envisaged in the CGST Act, 2017 in this regard.

Q59. What is the time within which such TCS is to be remitted by the e-commerce operator to Government account? Is the operator required to file any returns for this purpose?

Ans. The amount collected by the ecommerce operator ('operator',) is to be paid to the credit of appropriate government within 10 days after the end of the month in which amount was so collected. The operator is required to file a return in **Form GSTR-8** online giving details of all amounts collected by him for the outward supplies made through his portal, within 10 days of the end of the calendar month to which such statement pertains. The return should contain the names of the actual supplier(s), details of respective supplies made by them and the amount collected on their behalf.

Q60. How can actual suppliers claim credit of this TCS?

Ans. TCS which is deposited by the E-commerce operator into government account will be reflected in the cash ledger of the registered supplier (on whose account such collection has been made) on the basis of the valid return filed by the E-commerce operator. The same can be used at the time of discharge of tax liability in respect of the supplies by such registered supplier.

Q61. What is the concept of matching in e-commerce provisions and how it would work?

Ans. The details of supplies and the amount collected during a calendar month which is furnished by every operator in his return will be matched with the corresponding details of outward supplies furnished by the concerned supplier in his valid return filed under section 37 for the same calendar month or any preceding calendar month. Where the details of outward supply, on which the tax has been collected, as declared by the operator in his statement do not match with the corresponding details declared by the supplier the discrepancy will be communicated to both persons.

Q62. What will happen if the details remain mismatched?

Ans. The value of a supply relating to any payment in respect of which any discrepancy is communicated and which is not rectified by the supplier in his valid return for the month in which discrepancy is communicated, the same will be added to the output liability of the said supplier in the subsequent month succeeding in which the discrepancy is communicated. The concerned supplier will, in whose output tax liability any amount has been added, be liable to pay the tax payable in respect of such supply along with interest on the amount so added from the date such tax was due till the date of its payment.

### **Transfer of Input Tax Credit (Section 53)**

Q63. What is the manner in which transfer of credit takes place on utilization of Central tax credit for payment of integrated tax?

### FAQ's

Q1. Whether KKC, Education Cess and Secondary & Higher Education Cess are allowed to be carried forward in the GST?

Ans. Input tax credit allowable as per Rule 3 of the CENVAT Credit Rules, 2004 will be eligible as CGST. However, credit of Krishi Kalyan Cess (KKC), Education Cess (EC) and Secondary and Higher Education Cess (SHEC) shall not be allowed. KKC, EC and SHEC are not included in list of "*eligible duties and taxes*" as provided in Explanation to section 140.

This further has been clarified by amendment made in Section 140 by the CGST Amendment Act, 2018 that credit of cesses will not be available.

Q2. Whether transitional credit carried forward under GST could be claimed as refund by exporter of services?

Ans. If the exports of services have been making export of services under LUT, it may claim refund of input tax credits availed only during the tax period in which export has been made. Further, it has been clarified in *Circular No 349/47/2017-GST dated 15<sup>th</sup> March 2018* that, transitional credits carried forward under GST regime cannot be claimed as refund in case of exports made under LUT.

However, if the supplier of services has made export of services on payment of IGST, he may utilise the credits (including carried forward credits from the erstwhile law also) for payment of IGST and can claim the refund of the same.

Q3. Assessee registered in pre-GST regime, got provisional ID at the time of GST migration but did not obtained final registration. Whether assessee can obtain GSTIN now?

Ans. The GST Council in its 28<sup>th</sup> meeting permitted to open the migration window for taxpayers, who received provisional IDs but could not complete the migration process. In this regard, the Central Government *vide Notification No.31/2018-Central Tax dated 6<sup>th</sup> August 2018* has provided that the persons who did not file the complete **FORM GST REG-26** of the CGST Rules, 2017 but received only a Provisional Identification Number till the 31<sup>st</sup> December, 2017 may now apply for Goods and Services Tax Identification Number (GSTIN).

Such taxpayers who filed **Part A of FORM GST REG-26**, but not **Part B** of the said FORM are required to approach the jurisdictional Central Tax/State Tax nodal officers with the necessary details on or before 31<sup>st</sup> August 2018.

It has also been allowed to waive the late fee payable for delayed filing of return in such cases. Such taxpayers are required to first file the returns on payment of late fees, and the waiver will be effected by way of reversal of the amount paid as late fees in the cash ledger under the tax head.

Q4. Is input tax credit balance as on transition date is vested right or accrued right for the taxpayer? Whether such credit lapses if, **FORM GST TRAN-1** not filed?

Ans. Credit balance is a vested right and **FORM GST TRAN-1** is a procedure to facilitate continuity of credit when the earlier laws stood repealed. To fail in failing **FORM GST TRAN-1** does not cast obligation on Government to find another way to preserve this right when the assessee was given time and opportunity to preserve their rights. Therefore, there is much doubt that infeasible nature of this vested right will continue despite of inaction by the assessee.

Q5. Will the vested right not be saved by section 6 of General Clauses Act, 1897?

Ans. Section 6 of General Clauses Act, 1897 saves vested rights and section 140 does not deny credit. In fact, it allows transition of credit without any re-examination of the credits, whether allowable or not. **FORM GST TRAN-1** is the measure to transition credit in GST regime. And requirement to file **FORM GST TRAN-1** is not an onerous task but compliance with procedure for continuation of credit balance.

Q6. After failure to file **FORM GST TRAN-1**, is there any relief that can be obtained from Proper Officer?

Ans. Given that this is the requirement in the CGST Act, there is no power for any Proper Officer to grant any relief. Grievance redressal forum is created by CBIC to examine cases where there may have been bona fide difficulty in filing **Form GST TRAN-1**. However, to secure credit without filing **Form GST TRAN-1**, there is remedy under the CGST Act.

Q7. Legal services availed in pre-GST period where service tax was not paid under Reverse Charge Mechanism but has been paid after implementation of GST. Whether benefit of the same may be claimed?

Ans. There is no transitional provision to provide for availing the credit/refund of the tax paid under Reverse Charge Mechanism in respect of services availed in pre-GST period. The matter needs to be suitably presented before Government to provide for the refund/credit of the same.

Q8. Will there be tax liability if transactions entered into prior to transition date are executed after introduction of GST?

- Ans. Overlapping transactions will not be liable to tax and the declaration filed under section 142(11) will have a bearing – whether the same has been disclosed as having already been subject to VAT and/or Service tax or not. Failure to disclose such transactions in transition declaration can attract GST incidence if any other event in section 12 or 13 of the CGST Act occur after introduction of GST. In view of the risk of litigation, it is important to review alignment of tax already paid and its disclosure under section 142(11).
- Q9. State the legal provisions relating to recovery of arrears arising out of proceedings under the erstwhile law covered under the ambit of [Circular No. 42/16/2018-GST dated 13<sup>th</sup> April, 2018](#) ?

Q40. Whether supply of services is covered under the ambit of deemed exports?

Ans. Section 147 is the provision relating to deemed supplies. As per Section 147, provision of deemed supplies apply only to goods and not to services.

Q41. Whether all goods are covered under the scope and ambit of deemed export?

Ans. As per Section 147, the provision of deemed export applies only to goods notified by the Central Government upon the recommendations of the GST Council.

Q42. What are the conditions for a supply to be treated as deemed exports?

Ans. Following are the conditions to be satisfied before a supply could be treated as deemed exports:

1. The Supply must be a supply of goods.

2. The goods so supplied must be notified by the Central Government, upon the recommendations of the GST Council
3. The goods must be manufactured in India
4. The payment for such supplies is received either in Indian rupees or in convertible foreign exchange.

Q43. Is there any condition that consideration must be received in foreign currency for deemed export goods?

Ans. There is no condition that consideration for goods notified as deemed exports must be received in convertible foreign exchange. The consideration may be received in Indian Rupees also.

Q44. Whether imported goods, supplied 'as such' qualify for deemed exports?

Ans. Only goods manufactured in India, which are notified by Central Government qualify to be treated as deemed exports. Thus goods notified u/s 147, if imported do not qualify as deemed exports, if they are supplied 'as such'.

Q45. Whether goods notified u/s 147, if manufactured in India from imported goods qualify for the benefit of deemed exports?

Ans. Provisions of Section 147 apply to 'goods manufactured in India'. There is no restriction that raw materials required for manufacture of notified goods must also be manufactured in India. Hence notified goods, if manufactured from imported goods would qualify as deemed exports.

Q46. What could be the possible supplies, which could be notified as deemed exports?

Ans. The Central Government has not yet notified goods, which are to be treated as deemed exports. However supplies of goods listed under Chapter 7 of Foreign Trade Policy 2015-2020 are most likely candidates to be notified as deemed exports u/s 147, since the Foreign Trade policy laid down by Ministry of Commerce u/s 5 of Foreign Trade (Development & Regulation Act), 1992, is implemented by the Ministry of Finance by way of issuing notifications under fiscal laws (GST law & Customs law), in line with policy framework.

Q47. Is CGST payable on deemed exports?

Ans. Deemed export benefit is intended for goods manufactured in India. At present under Central Excise Act, 1944, both terminal exemption benefit and refund of tax paid by purchaser who has paid excise duty on deemed exports is available.

The modus operandi for deemed export i.e. whether terminal exemption benefit would be available on supply of deemed exports is to be awaited. However exemptions are seen as anti-thesis under GST law, since it would break the credit chain, it is expected

that GST paid to supplier on deemed exports would be eligible as refund in the hands of the recipients.

The aforesaid line of thought is fortified by Section 54 of the CGST Act, which deals with refunds. Refunds for the purpose of Section 54 have been defined under explanation 1 to Section 54 (14). Refund thereunder includes '*refund of tax on supply of goods regarded as deemed exports*'. Thus it may be safely assumed that GST would be payable on deemed exports but the tax paid on supply of such deemed exports would be eligible as refund in the hands of the recipient who has paid such GST.Q

### **Special Procedure for Certain Processes (Section 148)**

Q48. What does Section 148 empower the Central Government to do?

Q51. What are the parameters on the basis of which GST compliance rating score would be determined?

Ans. The compliance rating score would be determined on the basis of 'parameters', as may be prescribed. The prescription has not yet been given by the government. However GST compliance rating score may take into consideration the following parameters amongst others:

1. Payment of GST within due date
2. Collection of GST but non-remittance of the same within the due date

Q55. What is the purpose of seeking information returns from the aforesaid persons?

Ans. As evident from the above, the lists of persons who are required to provide information returns are 'depositories' of information. The list of persons includes persons who are either statutory authorities or persons who have information about the transactions entered into by the public at large. The linking of the information provided by the aforesaid authorities with the returns uploaded by various persons under GST law (be it on the output side/ input side/ tax deduction at source/ collection at source/ availment and distribution of credit) would help detect:

1. Leakage of tax revenue
2. Suppression of value of taxable supplies
3. Mis-Statement of the transaction details (eg. Taxable supply mis-stated as non-taxable supply)
4. Coherency in the information supplied to GST and to various other departments (eg. Sales information uploaded under GST can be compared with sales information uploaded/ provided to income tax)
5. Synergy in action of the direct, indirect and enforcement departments of the Central Government.
6. Reconciliation of tax data with specific sectors in the economy (eg. Growth in GST paid under construction sector would have a proportional increase in income tax of iron and steel sectors, cement industries, builders and developers etc.)
7. To check the validity of information uploaded under GST (eg. RBI data/ bank data of actual foreign inward remittance and value of service claimed as export)

The above example is only illustrative and not exhaustive.

Q56. What is the time limit, form and manner to file information return?

Ans. The time, form and manner and the authority to which the information return has to be filed is yet to be prescribed by the Central Government.

Q57. What is the consequence, if the information returns is not filed in the form and manner prescribed by the Central Government?

Ans. The consequence is that the Commissioner or Officer authorised by commissioner would consider the information return submitted 'defective' and intimate the defect to the person who has furnished such information return and give him an opportunity to 'rectify' the defect within a period of thirty days from the date of such intimation or within such further period which, on an application made in this behalf.

Q58. What if the defect is not rectified within the prescribed period/ further period?

Ans. The Commissioner or Officer authorised by commissioner, notwithstanding anything contained in any other provisions of CGST Act, would treat that 'no information' has been furnished by the required person. The provisions of the Act for non-furnishing the information would apply to such person.

Q59. What is the next course of action available to Commissioner/ officer authorised by commissioner when information is not provided after prescribed/ extended period?

Ans. The Commissioner or Officer authorised by commissioner, may serve upon such person, a show cause notice requiring him to furnish such information return within a period not exceeding 90 days from the date of service of the notice and such person shall furnish the information return.

Q60. Whether the person who has to file information can claim 'confidentiality' as a ground for not providing the information to GST officer?

Ans. The words used in Section 150 is '*such person shall furnish the information return*'. Since the intent of the provision is to procure information, the words 'shall' be read as mandatory obligation of such person. Hence the person to whom show cause notice is issued shall have to compulsorily provide information to the GST officer.

Q61. Can the GST officer levy penalty on a person, who has not furnished information return? If so, is there any maximum limit for such penalty?

Ans. As per Section 123, if a person who is required to furnish an information return u/s 150 fails to do so within the period specified in the show cause notice, the proper officer may direct that such person shall be liable to pay a penalty of one hundred rupees for each day of the period during which the failure to furnish such return continues. However the maximum penalty that can be imposed is ₹ 5,000/-.

**Note:** Section 150 is a legacy provision brought forward from the Central Excise Act, 1944. Section 150 is pari materia with Section 15A of Central Excise Act, 1944

Furthermore, where the movement is caused by an unregistered person either in his own conveyance or a hired one or through a transporter, he or the transporter may, at their option, generate the e-way bill in **FORM GST EWB-01** on the common portal.

Where no such communication is received within 72 hours of the details being made available to him on the common portal, it shall be deemed that he has accepted the said details.

Q5. How to generate E-way bill for import and export?

Ans: The portal and the steps to generate the E-way bill remains same in case of import or export transaction. But below are some important points a user has to note while generating an E-way bill in this situation:

Particulars in E-way bill	Import	Export
Transaction sub-type to select	Import	Export
Document type and number	Bill of entry	Tax invoice meant for export of goods
Bill From	Unregistered Person (URP)	Exporter's details (name, GSTIN etc.)
Dispatch From	Pin code 999999 has to be entered and in state column 'other countries' to be selected	Address of exporter's place of business/ warehouse
Bill to	Importer details (name, GSTIN etc.)	A person outside India who maybe unregistered (mention URP)
Ship to	Address of importer's place of business/ warehouse	Pin code 999999 has to be entered and in state column 'other countries' to be selected
Transportation details	Details of transporter (vehicle details, transporter ID etc.)	Details of transporter (vehicle details, transporter ID etc.)

One of the key aspects of an E-way bill is to calculate the validity of an E-way bill based on the distance to be travelled. So, when we have cases of import and export, we need to know from what point we need to start calculating the distance in order to know the validity.

- (a) In case of import, the E-way bill has to be generated once the goods are cleared for home consumption. The distance has to be calculated from the CUSTOM PORT / ICD to the place of business of the importer where goods are being destined for transportation and validity of the E-way bill will be determined accordingly.
- (b) In case of export, the E-way bill has to be generated when the goods are being moved to the port/ ICD for exportation. For E-way bill validity purpose, the distance will be calculated from the warehouse/ place of business from where goods are moving to the port /ICD.

Q6. Whether E-way bill is required for high sea sales?

Ans. Since the transactions of high sea sales are outside levy of GST and it takes place outside the boundaries of India, the seller is not required to generate an E-way bill for high sea sale transaction. However, the buyer, who is the final Importer, is liable to generate an E-way bill after clearing the goods from the port for home consumption similar to other import transactions as detailed in preceding answer.

Further, transporter may generate consolidated e-way bill on the basis of multiple separate E-way bill generated. However, the conditions to raise E-way bill in this manner is not applicable on the railway, air and vessel.

conveyances should be detained/confiscated in respect of which there is a violation of the provisions of the GST Acts or the rules made thereunder.

2. Any person who acquires possession of, or in any way concerns himself in transporting, removing, depositing, keeping, concealing, supplying of any goods which he knows or has reasons to believe are liable to confiscation under this Act shall be liable to a penalty which may extend upto 25,000 rupees

Q23. Is there any alternative available instead of extending the validity of e-way bill where transporters also provide warehousing facility?

Ans. Presently, Transporter providing warehousing facilities is required to get registered and maintain detailed records in addition to extension of the validity of e-way bill.

**To provide the alternative,** Central Government *vide* Circular No. 60/35/2018-GST dated 4<sup>th</sup> September, 2018 has clarified that in case the consignee/ recipient taxpayer stores his goods in the godown of the transporter, then transporter's godown may be shown as an additional place of business by the recipient taxpayer. On declaring transporter's godown as the additional place of business, the transportation under the e-way bill shall be deemed to be concluded once the goods have reached the transporter's godown (recipient taxpayer additional place of business). Hence, e-way bill validity in such cases will not be required to be extended.

Further, the obligation of the transporter to maintain accounts and records shall continue as a warehouse keeper. Moreover, as per rule 56 (7) of the CGST Rules, books of accounts in relation to goods stored at the transporter's godown (i.e., the recipient taxpayer's additional place of business) by the recipient taxpayer may be maintained by him at his principal place of business. It may be noted that the facility of declaring additional place of business by the recipient taxpayer is in no way putting any additional compliance requirement on the transporters.

Q 1. What is the place of supply where movement of goods is involved?

*Illustration*

Location of supplier	Delivery of goods terminates at	Place of supply	Nature of supply	Tax
Karnataka	Andhra Pradesh	Andhra Pradesh	Inter-state	IGST
Karnataka	Karnataka	Karnataka	Intra-state	SGST/CGST

Q 2. What is the place of supply where goods are delivered to a person on the direction of a third person?

Ans. As per Section 10(1) (b) of the IGST Act, 2017, if movement is at the instance of the third person to a recipient (by way of instruction or transfer of documents of title to goods or otherwise), the place of supply will be principal place of business of third person (i.e. address in Registration Certificate). A pictorial diagram is depicted to explain the same

Further, illustration are provided below to explain the same

- (a) Transaction between supplier (A in above diagram) and third party (P in the above diagram).

Considering that location of supplier will be location of goods, in this type of transaction there will not be any inter-State supply since the location of supplier and place of supply will be in the same State.

Example for this would be a case where the job worker develops a mould for the production of goods for the principal and retains the mould in his place itself for production of goods. Eg: servicing of a motor vehicle wherein there is independent service element and also spare parts getting replaced. Services are charged at 18% tax and spare parts majorly are taxed at 28%. Considering this case to be a B2C, for invoicing of services we have to go by address on record which could be other State hence place of supply is that other State. However, in case of goods since there is no evidence on record to the supplier that the goods which are replaced would be leaving the State of origin and would travel to the other State, the service provider would treat POS as his own State. This method is also supported by the fact that GSTR-1 (Outward supply) returns does not allow to key in 2 different place of supply for the same invoice.

### FAQ's

#### Apportionment of Tax and Settlement of Funds (Section 17 to Section 19)

Q 1. What is the need for apportionment of tax collected between Centre and State?

Ans. Unlike the CST Act, 1956, GST is destination based consumption tax. The State where the goods or services or both are consumed will get the right upon tax paid on the said goods or services or both so as to ensure the flow of input tax credit to the recipient in the consuming State. Further, in the case of inter-State supplies, where the tax is collected and paid by the supplier in the origin State, the burden is borne by the recipient in the consuming State. Hence, the integrated tax collected by the central government needs to be apportioned between center and consuming state in the proportion to CGST and the SGST. In case of consumption in the Union Territories, the entire tax will be retained by the central government though under different account.

Q 2. What is the mechanism of IGST apportionment between Centre and State?

Ans. The IGST paid on the inter-State supplies of goods or services or both **to** and Imports by

- (a) An unregistered person;
- (b) Registered Person paying tax under Section 10 of the CGST Act, 2017 (Composition Levy);
- (c) Registered Person who is not eligible for input tax credit on the said supply; and
- (d) Registered Person who does not avail credit within due date of filing annual return

will be first apportioned to the Central Government based on the rate of CGST on similar intra-State supply.

The balance amount of integrated tax will be apportioned to the

- (a) State Government where such supply takes place; and
- (b) Central Government in relation to Union Territories.

Q 3. How will the IGST be distributed if the place of supply made by any taxable person cannot be determined?

Ans. Such integrated tax shall be apportioned to each of the States and Central Government in relation to Union Territories, in proportion to the total supplies made by such taxable person to each of such States or Union Territories, as the case may be, in a financial year.

Ex: The following are the taxable supplies made by taxable person from Karnataka to persons specified in Q2

Particulars	Taxable Value	CGST	SGST	IGST
Intra-State Supplies	7,00,000	42,000	42,000	-
Inter-State supplies to:				
- Maharashtra	2,50,000	-	-	30,000
- Tamil Nadu	4,50,000	-	-	54,000
- Chandigarh	3,00,000	-	-	36,000
- Place of Supply Not known	2,25,000	-	-	27,000
Grand Total	19,25,000	42,000	42,000	1,47,000

Note: CGST Rate: 6% ; SGST Rate : 6% ; IGST Rate : 12%

The Apportionment of IGST Tax will be done in the following Manner

Place of Supply in	Apportion to	Tax to be apportioned	Central Government	Maharashtra	Tamil Nadu
	Taxable Value				
- Maharashtra	2,50,000	30,000	15,000	15,000	-
- Tamil Nadu	4,50,000	54,000	27,000	-	27,000
- Chandigarh	3,00,000	36,000	36,000	-	-
- Place of Supply Not known	2,25,000	27,000	8,100	6,750	12,150
Grand Total	12,25,000	1,47,000	86,100	21,750	39,150

Q 4. How will the balance IGST portion after the apportionment to central government be distributed if the taxable person making supplies cannot be identified?

Ans. The balance IGST portion will be distributed to all the States and Central Government in respect of Union Territories based on the amount collected as SGST and UTGST by the

respective States / Central Government in respect of Union Territories during the immediately preceding financial year.

Q 5. How will the Penalty, Interest etc. paid on IGST be distributed?

Ans. The penalty, interest etc will be distributed in the same manner as the IGST is distributed.

Grand Total	14,00,000	42,000	42,000	84,000

Note: CGST Rate: 6%; SGST Rate: 6%; IGST Rate: 12%

The registered person has only IGST credit of ₹ 1,50,000/-

The utilization of IGST Credit and distribution thereof will as follows:

Utilization of IGST Credit	42,000	24,000	84,000	1,50,000
Net Tax payable in cash	-	18,000	-	18,000

Out of ₹ 1,50,000/- of IGST Credit,

- ₹ 84,000/- will remain in integrated tax account as the same is utilized for payment of IGST.
- ₹ 42,000/- and ₹ 24,000/- will be distributed to Central Government and Karnataka State Government respectively.
